The Industrial Revolution

powered by oil and other fossil fuels, is spiraling into a dangerous endgame. The price of gas and food are climbing, unemployment remains high, the housing market has tanked, consumer and government debt is soaring, and the recovery is slowing. Facing the prospect of a second collapse of the global economy, humanity is desperate for a sustainable economic game plan to take us into the future. Here, Jeremy Rifkin explores how Internet technology and renewable energy are merging to create a powerful "Third Industrial Revolution." He asks us to imagine hundreds of millions of people producing their own green energy in their homes, offices, and factories, and sharing it with each other in an "energy internet," just like we now create and share information online. Rifkin describes how the five-pillars of the Third Industrial Revolution will create thousands of businesses, millions of jobs, and usher in a fundamental reordering of human relationships, from hierarchical to lateral power, that will impact the way we conduct commerce, govern society, educate our children, and engage in civic life. Rifkin's vision is already gaining traction in the international community. The European Union Parliament has issued a formal declaration calling for its implementation, and other nations in Asia, Africa, and the Americas, are quickly preparing their own initiatives for transitioning into the new economic paradigm. The Third Industrial Revolution is an insider's account of the next great economic era, including a look into the personalities and players — heads of state, global CEOs, social entrepreneurs, and NGOs — who are pioneering its implementation around the world.

This inspired bio musical about The One and Only begins with Groucho as an old man doing his famous Carnegie Hall show. It then goes back to the beginnings of the Marx Brothers and their struggles to make it in vaudeville, their rise to stardom and their eventual break up. All classic Groucho songs are included. One actor plays Groucho, another plays Chico and Harpo, and one actress plays all the wives, girlfriends and Margaret Dumont. A hit in New York, across the U.S. and in London, this show will delight Marx Brothers fans and the as yet uninitiated.

This reprint of a study by Dr. Audrey Richards (1899-1984) describes the living conditions of the Bemba of North-Eastern Rhodesia, with special reference to the effects of migrant labour on the social and economic life of a mainly agricultural society. Although primarily concerned with the production, distribution, and consumption of food, and with conditions of labour and standards of living, the book gives a vivid picture of the social structure of the Bemba - their political organisation and the functions of the chief, systems of land-tenure, kinship groupings, and the whole complex of economic, social, and magico-religious factors which arise in any community. The book has been widely recognised as an authoritative study particularly among economists and anthropologists.

This is a short book of experimental poetry by Maria Morisot, also known as Moan Lisa.

An introduction to the central topics of linguistic semantics and the philosophy of language, assuming no special knowledge of philosophy or logic.

All parents want their children to read well and to succeed—and experts agree that improving literacy begins at birth. Reading aloud to your child, sharing simple games and wordplay, and developing letter knowledge start your child off on the right foot for school and life. Now the esteemed Lee Pesky Learning Center has created this easy, accessible reference for parents to help foster better literacy skills in children. Topics are individually tailored for three age ranges—infant, toddler, and preschool—and include • the best read-aloud books to develop sound awareness • the perfect picture books for encouraging letter knowledge • ways to promote verbal language and build vocabulary • the benefits of symbolic play • fun (and educational) games for car trips • helping youngsters “write” at home • great gift ideas for kids • warning signs of a learning disability The fundamentals of reading start at home. Every Child Ready to Read helps parents motivate their children to learn, and to become confident readers who will always enjoy reading.

Buku ini merupakan kumpulan 160 esai pendek Goenawan Mohamad yang pernah dimuat majalah Tempo dari Januari 1986 sampai Februari 1990. Diawali dengan esai berjudul “Ding” (4 Januari 1986) sampai yang terakhir “Asongan” (24 Februari 1990). Esai-esai yang dikenal sebagai Catatan Pinggir itu berbicara beragam hal, bahkan hampir semua hal yang dekat dengan peristiwa di masyarakat dalam kurun waktu empat tahun itu: tentang kecemasan, kebebasan, kekuasaan, kemerdekaan, keserakahan, kebahagiaan, demokrasi. Mengemai topik yang disebut terakhir, William Liddle, dalam Kata Pengantar untuk buku ini, mengatakan kiranya jelas bahwa Goenawan sangat menyakini demokrasi sebagai jenis pemerintahan yang terbaik bagi negara kebangsaan Dunia Ketiga seperti Indonesia. Tetapi dia tidak berpretensi seolah-olah demokrasi dengan sendirinya mampu menyelesaikan segala persoalan.... Goenawan Mohamad, kata Liddle, adalah burung langka dalam sangkar intelektual modern Indonesia. Dia menodak tegas pengkotakan Timur-Barat. Dalam sejumlah Catatan Pinggir ini, kata Liddle, dikooni Timur-Barat beberapa kali ditampik Goenawan.

40 or 50 families control the economies of Hong Kong, Singapore, Thailand, the Philippines and Indonesia. Their interests range from banking to property, from shipping to sugar, from vice to gambling. 13 of the 50 richest families in the world are in South East Asia yet they are largely unknown outside confined business circles. Often this is because they control the press and television as well as everything else. How do they do it? What are their secrets? And is it good news or bad for the places where they operate? Joe Studwell explosively lifts the lid on a world of staggering secrecy and shows that the little most people know is almost entirely wrong.
