From 1980 to 2000, Camel Trophy took more than 500 amateur competitors from 35 countries on extraordinary and challenging adventures. On most of these events, teams drove specially prepared Land Rovers to the limit and beyond in locations as varied as Borneo, Mongolia, Papua New Guinea and Tanzania. Camel Trophy charts the history of the event and tells the incredible stories resulting from the constant challenge to both man and machine.. As one of the official photographers on the last four events, author Nick Dimpleby's first-hand account, the shared experiences of competitors, along with contemporary reports and extensive new interviews of key event leaders, all combine to make Camel Trophy a gripping tale of adventure, adversity, technological change and logistical challenge. Illustrated with a stunning collection of photographs including never-before-published, behind-the-scenes shots, this meticulously researched publication can legitimately claim to be the definitive history of the Camel Trophy.

Focusing on the 986 and 987 Boxster models, 101 Projects for Your Porsche Boxster presents all the necessary information, associated costs, and pitfalls to avoid when performing a wide array of projects. In a word, it makes owning a Porsche Boxster an unqualified thrill.

A unique look at the development of the Land Rover, this is the story of the simple four-wheel drive vehicle born out of post-war austerity that became a global byword for toughness and rugged style. Launched in 1948, the Land Rover owed its low-key existence to shoestring British ingenuity and—literally—odds and ends left over from World War II. Rover thought it could keep its factory ticking over as the company's post-war fortunes slowly revived. They also thought that farmers might appreciate it as a handy cross between a pick-up and a tractor. But it was soon obvious that the company had created, in the Land Rover, a world-beating product. Giles Chapman tells the story of how Land Rovers have tamed the planet's toughest terrain with their unstoppable off-road capability. It also charts how the Land Rover legend allowed the marque to gradually expand its range with the Range Rover, Discovery, Freelander, and the latest Range Rover Evoque. They're all cars as familiar in cities and suburbs as they are at home in the countryside. Land Rover has been controversial, its fortunes tied to Britain's economic ups and downs. Today it's on a roll, leading a renaissance in British design and manufacturing, yet the continued presence of the Defender helps keep the Land Rover Story absolutely genuine.

The British Land Rover 4x4 has grown from 1948 to become one of the world's leading automotive brands. Exactly how it all came together back in the late 1940's and early 50's has been the topic of interest and debate for many years. This was until two Australian enthusiasts, Michael Bishop and Alex Massey quite literally stumbled across senior member of the original Land Rover development team, Arthur Goddard living in Brisbane, Australia in 2009. The discovery led to many of the myths and tales surrounding the early vehicles to be heard as it happened from Arthur's point of view. Then to a trip by Arthur to visit his old work place in Solihull and to the vehicle that he helped bring to life back in 1948. The book contains both a technical and human side to this incredible story as well as a great reunion between Arthur and his old colleague Spen King who went onto design the Range Rover in the 1960's. This is truly a unique story from the time of post War World two Britain to modern day Australia and how the iconic 4x4 grew up so quickly in the 1950's to become the world leader that it is today.

The Land Rover Story is a roller coaster ride through the life and times of Land Rover. Fast-paced and entertaining, it brings alive all aspects of Land Rover from its humble beginnings in 1948 to today's world-wide renown, with the vehicles — successes and failures — and people at the centre of the story. The 1940s. How the Land Rover came about; the Wilks brothers; the Centre Steer enigma; development and production; launch and reaction. The 1950s. Rapid development and evolution of the original; successes and dead ends; worldwide reach; early expeditions; weird and wonderful modifications; the Series II. The 1960s. Consolidation and further developments; Series IIA; military models; initial development of the Range Rover; search for a V8 engine. The 1970s. The Series III; Range Rover's popularity but lack of investment; Land Rover abandons US market; the British Leyland story; escape from BL and Michael Edwardes, saviour of Land Rover. The 1980s. British Aerospace ownership; Land Rover grows as most of Britain's car industry self-destructs; emergence of the coil-sprung models; make or break time with launch of Discovery (Europe's best-selling 4x4). The 1990s. Tdi engines; Defender and its development. BMW ownership; second-generation Range Rover P38; Freelander; second-generation Discovery; Td5 engine. The 2000s. Ford takeover, alliance with Jaguar, shift towards luxury; third-generation Range Rover L322; the G4 Challenge; Discovery 3, Range Rover Sport, TDCi Defender, Freelander 2, Discovery 4. The 2010s. Tata takeover, upsurge in sales and profits; Range Rover Evoque and Victoria Beckham; Range Rover 4; Range Rover Sport 2; Discovery Sport; Discovery 5; Range Rover Velar; DC100 concept; end of Defender production; rise of Defender as a fashion icon; and much more.
