Sesungguhnya thibbun nabawi (pengubatan cara Nabi) adalah rawatan bagi mengubat dan mencegah penyakit yang sudah terbukti keberkesanannya. Rasulullah s.a.w. berpesan dalam hadith yang direkodkan oleh Imam Bukhari, “Sesungguhnya Allah tidak menurunkan penyakit, kecuali Dia juga menurunkan ubatnya.” Ilmu perubahan Rasulullah s.a.w. adalah satu cara pencegahan dan penyembuhan penyakit secara praktikal sejajar dengan amalan Rasulullah s.a.w. Baginda bukan sahaja memberi resipi perubahan secara spiritual, malah fizikal juga. Justeru itu, ilmu perubahan ini masih relevan bagi masyarakat moden, memandangkan tidak semua penyakit dapat disembuhkan dengan ilmu perubahan sains moden. Buku ini sungguh luar biasa. Berdasarkan pengalaman penulis sendiri, kaedah ini digunakan bagi mengubat beberapa penyakit yang dialami dan berjaya disembuhkan. Semoga perkongsian ini dapat menjadi pengajaran dan inspirasi kepada pengamal medik dan masyarakat awam khususnya umat Islam. Ini membuktikan apa yang tertulis dalam Al-Quran dan hadith adalah benar dan sempurna.

The Siwak is one tool of hygiene which holds particular importance in Islam. It is a simple twig for cleaning the teeth, originating from the desert but popularised for ever more by the example and directives of the Messenger of Allah Ta'ala. It is no exaggeration to say that Rasulullah [PBUH] is the first dental educator in proper oral hygiene in history. The Prophet’s Siwak of choice was from the Arak (Aloes tree or Salvadora Persica). The Siwak is a natural twig fortified with natural minerals that help clean the teeth, other inhibitors that prevent gums from bleeding, cleaning agents that kill microbes and germs and remove plaque, and a scent that gives breath a naturally fresh smell. The Siwak is an ideal, natural brush that has been endowed with more than any artificial toothpaste could ever have. The wicks on the Siwak clean between the teeth and do not break under any amount of pressure; rather, they are flexible and strong. The small wicks bend to the appropriate shape to get plaque and leftover food out from in between teeth while avoiding any damage to the gums. The Siwak is comprised of many beneficial ingredients. Most significant among them are:
- Antibacterial acidic inhibitors that fight decay. They are natural disinfectants and can be used to stop bleeding. They disinfect the gums and teeth and close any microscopic cuts that may have existed in the gums.
On first usage, the Siwak will taste harsh, and maybe even burn, because of a mustard-like substance found in it, but this is the ingredient that fights decay in the mouth and kills germs.
- Minerals such as sodium chloride, potassium, sodium bicarbonate and calcium oxides. These clean the teeth. The American Dental Association considers sodium bicarbonate to be a preferred ingredient in toothpastes.
- Natural scented oils that taste and smell nice, give the mouth a pleasant smell. They make up about 1% of the Siwak.
- Enzymes that prevent the build-up of plaque that causes gum disease. Plaque is also the no. 1 cause of premature loss of teeth.
- Anti-decay and anti-germ ingredients that act as a penicillin of sorts, decreasing the amount of bacteria in the mouth, which means cleaner teeth and cleaner air when breathing through the mouth. The presence of these properties has actually encouraged some toothpaste laboratories to incorporate powdered stems and/or root material of Salvadora Persica in their products.

As Elizabeth takes on the role of nanny to the child of a brazen and newly widowed preacher, the preacher’s enemies place her in harm’s way when they set out to silence the outspoken religious. Original.

- Collections of thrilling adventure stories, all based on actual life events - Ideal for reluctant readers.

"" On the day that Naho begins 11th grade, she receives a letter from herself ten years in the future. At first, she writes it off as a prank, but as the letter’s predictions come true one by one Naho realizes that the letter might be the real deal. Her future self tells Naho that a new transfer student, a boy named Kakeru, will soon join her class. The letter begs Naho to watch over him, saying that only Naho can save Kakeru from a terrible future. Who is this mystery boy, and can Naho save him from his destiny? Includes chapter two of the bonus story, Haruiro Astronaut! ""

From a top world authority, the ultimate guide to using herbs to cure and prevent disease.

Kitab al-Amwal (The Book of Revenue) is the work of a brilliant legal mind. Abu Ubayd al-Qasim ibn Sallam provides us with an accurate record of legal precedents laid down in the first two centuries of Islam, in particular those pertaining to the sources of revenue and the avenues of public expenditure. The power of the book, however, lies in the method of the author and the analysis undertaken by him. He gathers together the traditions of the Prophet (pbuh), the opinions of his companions and the views of eminent jurists, and then subjects them to legal analysis that is unparalleled in Islamic legal literature. This book, now in paperback, is essential for every student of Islamic law, especially those who wish to master the art of interpreting and analyzing legal traditions and early precedents. In the discipline known as fiqh al-sunnah, there is no book or manual that can compete with this outstanding work.
