It will shift the way you, others, and the world occur for you."—Michael C. Jensen, Jesse Isidor Straus Professor of Business Administration, emeritus, Harvard Business School "David Kantor is one of the very few master innovators and theorists in organizational leadership. In this combined story and practice guide, Kantor helps leaders see the hidden dynamics of the groups they lead, and the personal and social factors that shape their relationships with those groups." —Art Kleiner, editor in chief, strategy+business "Kantor addresses the fundamental issue that leaders are surprisingly inept in conversation and in managing groups. Leaders and managers at all levels should be learning these concepts in order to improve their own ability to analyze what is going on and react appropriately."—Edgar H. Schein, professor emeritus, MIT Sloan School of Management; and author, Helping: How to Offer, Give, and Receive Help "An exceptional book in the true sense of the word. It stands alone in its grasp of what it takes to succeed as a leader. It's not simply about mastering the five forces, milking cash cows, accelerating experience curves, or even spurring disruptive innovation. It's about reading the room. Leaders who gain mastery of what David Kantor has to teach in this book will achieve true success, not just as leaders, but as people." —Diana M. Smith, chief executive partner, New Profit Inc.; and author, The Elephant in the Room: How Relationships Make or Break the Success of Leaders and Organizations "There are only a few wise masters in the world when it comes to any real understanding of leadership, and even fewer who share their secrets. David Kantor is one of them, and in Reading the Room we have brilliantly laid out before us both a unique lens and a highly practical method that will change for good the way you lead, and more, the way you think. Not to be missed!" —William Isaacs, author, Dialogue and the Art of Thinking Together; and senior lecturer, MIT Sloan School of Management

This brief, readable book is designed to introduce a new team-building model called Team Resource Management (TRM) and serves as a guide for experiential learning events based on the Tavistock tradition. Using examples from popular culture and industry case studies, this Primer deepens understanding of group behavior by exploring the application of concepts such as leadership, management, authority, role, task, boundaries and teamwork in high-risk teams. Although all organizations have complex dynamics that influence performance, high-risk teams have unique characteristics. Yet, little research has been conducted about how high-risk groups manage teams under stress. This book fills this gap, exploring how professionals in high-risk fields can increase awareness of the dynamics of authority relations, the act of authorizing, and the interdependent nature of leadership, while learning how to manage anxiety in stressful situations.
