The Rebels in Star Wars: The Empire Strikes Back are a ragtag group of resistance fighters. They have desperately put together a fleet of starships and starfighters as they prepare to assault the Empire. This fleet is one of the most iconic scenes from Empire Strikes Back, and a lot of kids who saw it in theaters wanted to create their own in Lego.

I enjoyed Orion Fleet even more than the first book in the Rebel Fleet series and I have bumped it up from 4 stars to 5. Leo Blake, as per-usual, is getting up to all sorts of hijinks in this book as he comes up with a series of wacked out plans to rid the Rebel worlds of the latest Imperial incursion: an AI controlled ship called Hunter which is chowing through Rebel worlds, quite literally.
