The F-4EAT was a 4-speed, electronically controlled automatic transmission developed by Mazda and JATCO starting in 1990. It was also later produced by Ford Motor Company from 1991 to 2003, to replace the aging, 3-speed/hydraulic controlled ATX. It is referred to as the F4A-EL by Mazda and Kia who also used this transmission.

"One icy winter's evening in Budapest, a man runs straight into John Taylor as he walks home through the narrow streets. John falls over into the snow and looks up at the man's face. 'I felt very afraid. Because what I saw was me. My face looking down at me. My mouth saying sorry.' Who is the man, and how will John's life change?"

Author Trenton McGee, 4x4 suspension expert and host of Outdoor Channels Off-Road Adventures, explains 4x4 suspension systems in an easy-to-understand manner. He gets specific on types of suspensions available from all the major manufacturers including Jeep, Toyota, Ford, Chevy, and Dodge. He goes into a great level of detail on every different model, including early and modern model systems.

First in a stunning new urban fantasy series from an author who "NEVER CEASES TO AMAZE." (BOOKLIST, STARRED REVIEW) Demon hunter Maxine Kiss wears her armor as tattoos, which unwind from her body to take on forms of their own at night. They stand between her and her enemies, just as Maxine stands between humanity and the demons breaking out from behind the prison veils. It is a life lacking in love, reveling in death, until one moment—and one man—changes everything.

Have you ever wondered what it would be like to have a heart transplant? Would you still be the same person as before or would you become more like the donor that gave you your new heart? For My Donor follows one patients journey to understand if they have taken on any of the characteristics of their organ donor, and to finally meet the family that gave the 'gift of life'. Over the course of a year, Mark investigates some of the stories that seem to suggest that transplanted organs can really store memories, a theory called 'cellular memory'. Slowly becoming more and more obsessed by his own donor, life starts to become more of a struggle until the final, emotional meeting with a family is played out. Does 'cellular memory' really exist and what does it mean for organ transplantation? For My Donor reveals all.
