For more than 50 years, relational or incarnational ministry has been a major focus in youth ministry. But for too long, those relationships have been used as tools—as a means to an end—where adults try to influence students to accept, know, trust, believe, or participate in something. While our motives may be good, it's possible that by focusing on these goals, we're not ministering the whole person. When we choose not to engage in the full life of a student, we

run the risk of failing them and our ministry. In this thoughtful and insightful book, Andrew Root challenges us to reconsider our motives and begin to consider simply being with and doing life alongside teenagers with no agenda other than to love them right where they are, by place-sharing. As he shares stories of his (and others') successes and failures in relational youth ministry, you'll find practical ideas to help you recreate the role of relationships in your youth ministry. If you're involved in the lives of teenagers, whether as a youth pastor, volunteer youth worker, church leader, or parent, you'll want to read this book and work together to discover the value of place-sharing in the lives of teens. You'll see that it's time to tear down the old structure of relational youth ministry and start again.

What is youth ministry actually for? And does it have a future? Andrew Root, a leading scholar in youth ministry and practical theology, went on a one-year journey to answer these questions. In this book, Root weaves together an innovative first-person fictional narrative to diagnose the challenges facing the church today and to offer a new vision for youth ministry in the 21st century. Informed by interviews that Root conducted with parents, this book explores how parents' perspectives of what constitutes a good life are affecting youth ministry. In today's culture, youth ministry can't compete with sports, test prep, and the myriad other activities in which young people participate. Through a unique parable-style story, Root offers a new way to think about the purpose of youth ministry: not happiness, but joy. Joy is a sense of experiencing the good. For youth ministry to be

about joy, it must move beyond the youth group model and rework the assumptions of how identity and happiness are imagined by parents in American society.

Why does divorce cause so much strain and long-term distress for children of all ages? Andrew Root, a recognized authority on youth ministry and a child of divorce himself, explains that divorce causes children to question their core identity. Since a child is the product of the union of a mother and father, when that union ends, he or she experiences a baffling sense of loss of self--a loss of his or her very sense of being. Root redirects efforts for assisting children of divorce to first address this fundamental experience. This unique book examines the impact of divorce not only from a theological and spiritual perspective but also from a young person's perspective. It will benefit those who have experienced divorce and those who minister to children of divorce.

Even if you know you're called to youth ministry and are passionate about the students in your group, you've probably had a few of those moments when you've wondered why you're doing certain things in your ministry, or wondered why you're even doing youth ministry in the first place. If you've ever stopped to ask, "What's the point of youth ministry?" ... In *Taking Theology to Youth Ministry*, Andrew Root invites you along on a journey with Nadia—a fictional youth worker who is trying to understand the "why" behind her ministry. Her narrative, along with Root's insights, help you uncover the action of God as it pertains to your own youth ministry, and encourage

you to discover how you can participate in that action. As you join this theological journey, you'll find yourself exploring how theology can and should influence the way you do youth ministry.

The youth ministry focus of Dietrich Bonhoeffer's life is often forgotten or overlooked, even though he did much work with young people and wrote a number of papers, sermons, and addresses about or for the youth of the church. However, youth ministry expert Andrew Root explains that this focus is central to Bonhoeffer's story and thought. Root presents Bonhoeffer as the forefather and model of the growing theological turn in youth ministry. By linking contemporary youth workers with this epic theologian, the author shows the depth of youth ministry work and underscores its importance in the church. He also shows how Bonhoeffer's life and thought impact present-day youth ministry practice.

Richard Dunn shows how to mentor today's teens by setting the pace—physically, intellectually, emotionally, socially and spiritually—with sensitivity to the unique issues of adolescent development.

This book aims at contributing to the scientific and academic discourse as regards to the 'what' and 'why' of youth ministry. Too often, youth ministry has been approached from a mainly practical point of view, almost asking how we keep young people off the streets. Its methodology has often not included the theological and theoretical presuppositions that lie behind this ministry. Previous scientific reflection has been determined by a one-dimensional and

almost exclusive point of view. In comparison with existing literature, this book does not focus so much on the 'how' of youth ministry. It innovates a different approach. The book challenges the existing exclusive approach and develops an inclusive, congregational and missional understanding of and approach to youth ministry. From a particular perspective on the understanding the main objectives of Practical Theology, the author endorses the so-called movement of 'what is supposed to be going on'. He adds the outcome of an empirical round table discussion with some 16 leaders in this field on the descriptive and interpretive movements within the subject field: what is going on and why is it going on? The book will form the standard for any new research with regard to youth ministry. The book's contribution lies on the level of sound theological reasoning and argumentation (supported by many scholars) for an inclusive congregational understanding of ministry as an integral part of every congregation being missional in being and doing. Youth, children, adolescents and emerging adults, are just as integral a part of every congregation within which they live and serve.

Why Teenagers Matter in the Life of the Church

Where is Jesus Christ? This fundamental question is the starting point of this book, which investigates the shape of Christian life and ministry in a post-Christendom context. Over the last decades there has been a shift in much of Western theology towards focusing on Christian practices in ministry and

theological education. This may be seen as a way to deal with theological anxiety in an era of heightened personal autonomy. In *Practicing Baptism* Bard Norheim critically analyzes the engagement in Christian practices. As a response to this engagement Norheim develops a missional and diaconal theology for ministry, focusing on the presence of Christ in Christian practices. Fundamentally, this is an attempt to answer a pressing question for today: What do Christians do? Norheim draws on Martin Luther's theology and his notion of the three modes of Christ's presence, the present tense of baptism, and Luther's idea of the marks of the church. Based on this reading of Luther's theology, Norheim suggests that Christian life and ministry could be interpreted through the concept practicing baptism.
