ReWork: Change the Way You Work Forever: Amazon.co.uk ...
Rework is an example of the business-inspirational genre by the founders of 37Signals, a software company. I like 37Signals because they're straightforward, even pithy, and because founder Jason Fried has some right-on things to say about business culture, such as the stupidity of insisting that all workers come to an office and stay for eight hours, whether they are productive there or not.

ReWork: Change the Way You Work Forever eBook: Fried ...
But Jason Fried author of the book Rework and founder of the software company Basecamp says the hype around entrepreneurship and startups are all nonsense. Starting a business doesn't need to be intimidated to start a business you don't need to self-identify as an entrepreneur and you don't need to have the desire to build a billion-dollar Empire in fact it's awesome to just want a small side of it.

In Rework, Jason Fried and David Heinemeier Hansson introduced a new path to working effectively. Now, they build on their message with a bold, iconoclastic strategy for creating the ideal company culture—what they call "the calm company." Their approach directly attack the chaos, anxiety, and stress that plagues millions of workplaces and ...

Rework by Jason Fried, David Heinemeier Hansson ...
Even though I read Getting Real, a previous book by David and Jason, some 4 times, Rework is definitely thought provoking and inspiring. I do not agree on all topics, and some of them apply only to software industry, but the time definitely has come to "rework work".

"Rework" shows you a better, faster, easier way to succeed in business. You'll learn how to be more productive, how to get exposure without breaking the bank, and tons more counterintuitive ideas that will inspire and provoke you.

Rework shows you a better, faster, easier way to succeed in business. Most business books give you the same old advice: Write a business plan, study the competition, seek investors, yadda yadda. If you're looking for a book like that, put this one back on the shelf. Read it and you'll know why plans are actually harmful, why you don't need outside investors, and why you're better off ignoring the competition. The truth is, you need less than you think. You don't need to be a workaholic. You don't need to staff up. You don't need to waste time on paperwork or meetings. You don't even need an office. Those are all just excuses. What you really need to do is stop talking and start working. This book shows you the way. You'll learn how to be more productive, how to get exposure without breaking the bank, and tons more counterintuitive ideas that will inspire and provoke you. With its straightforward language and easy-is-better approach, Rework is the perfect playbook for anyone who's ever dreamed of doing it on their own. Hardcore entrepreneurs, small-business owners, people stuck in day jobs they hate, victims of "downsizing," and artists who don't want to starve anymore will all find valuable guidance in these pages.

From the founders of the trailblazing software company 37signals, here is a different kind of business book - one that explores a new reality. Today, anyone can be in business. Tools that used to be out of reach are now easily accessible. Technology that cost thousands is now just a few pounds or even free. Stuff that was impossible just a few years ago is now simple. That means anyone can start a business. And you can do it without working miserable 80-hour weeks or depleting your life savings. You can start it on the side while your day job provides all the cash flow you need. Forget about business plans, meetings, office space - you don't need them. With its straightforward language and easy-is-better approach, Rework is the perfect playbook for anyone who's ever dreamed of doing it on their own. Hardcore entrepreneurs, small-business owners, people stuck in day jobs who want to get out, and artists who don't want to starve anymore will all find valuable inspiration and guidance in these pages. It's time to rework work.

The classic guide to working from home and why we should embrace a virtual office, from the bestselling authors of Rework "A paradigm-smashing, compulsively readable case for a radically remote workplace."—Susan Cain, New York Times bestselling author of Quiet Does working from home—or anywhere else but the office—make sense? In Remote, Jason Fried and David Heinemeier Hansson, the founders of Basecamp, bring new insight to the hotly debated argument. While providing a complete overview of remote work's challenges, Jason and David persuasively argue that, often, the advantages of working "off-site" far outweigh the drawbacks. In the past decade, the "under one roof" model of conducting work has been steadily declining, owing to technology that is rapidly creating virtual workspaces. Today the new paradigm is "move work to the workers, rather than workers to the workplace." Companies see advantages in the way remote work increases their talent pool, reduces turnover, lessens their real estate footprint, and improves their ability to conduct business across multiple time zones. But what about the workers? Jason and David point out that remote work means working at the best job (not just one that is nearby) and achieving a harmonious work-life balance while increasing productivity. And those are just some of the perks to be gained from leaving the office behind. Remote reveals a multitude of other benefits, along with in-the-trenches tips for easing your way out of the office door where you control how your workday will unfold. Whether you're a manager fretting over how to manage workers who "want out" or a worker who wants to achieve a lifestyle upgrade while still being a top performer professionally, this book is your indispensable guide.

Jason Fried and David Heinemeier Hansson, the authors of the New York Times bestseller Rework, are back with a manifesto to combat all your modern workplace worries and fears.

Getting Real details the business, design, programming, and marketing principles of 37signals. The book is packed with keep-it-simple insights, contrarian points of view, and unconventional approaches to software design. This is not a technical book or a design tutorial, it's a book of ideas. Anyone working on a web app - including entrepreneurs, designers, programmers, executives, or marketers - will find value and inspiration in this book. 37signals used the Getting Real process to launch five successful web-based applications (Basecamp, Campfire, Backpack, Writeboard, Ta-da List), and Ruby on Rails, an open-source web application framework, in just two years with no outside funding, no debt, and only 7 people (distributed across 7 time zones). Over 500,000 people around the world use these applications to get things done. Now you can find out how they did it and how you can do it too. It's not as hard as you think if you Get Real.

Rework (2010) is a how-to book for entrepreneurs who aspire to create thriving companies in a global market. Authors Jason Fried and David Heinemeier Hansson provide insights and strategies that can be utilized by people who want to start an internet-based business, even those who don't have prior experience… Purchase this in-depth summary to learn more.
