A beautiful collection of the legendary thinker’s short stories The Storyteller gathers for the first time the fiction of the legendary critic and philosopher Walter Benjamin, best known for his groundbreaking studies of culture and literature, including Illuminations, One-Way Street and The Arcades Project. His stories revel in the erotic tensions of city life, cross the threshold between rational and hallucinatory realms, celebrate the importance of games, and delve into the peculiar relationship between gambling and fortune-telling, and explore the themes that defined Benjamin. The novellas, fables, histories, aphorisms, parables and riddles in this collection are brought to life by the playful imagery of the modernist artist and Bauhaus figure Paul Klee.

A new translation of philosopher Walter Benjamin's work as it pertains to his famous essay, "The Storyteller," this collection includes short stories, book reviews, parables, and as a selection of writings by other authors who had an influence on Benjamin's work. “The Storyteller” is one of Walter Benjamin’s most important essays, a beautiful and suggestive meditation on the relation between narrative form, social life, and individual existence—and the product of at least a decade’s work. What might be called the story of The Storyteller Essays starts in 1926, with a piece Benjamin wrote about the German romantic Johann Peter Hebel. It continues in a series of short essays, book reviews, short stories, parables, and even radio shows for children. This collection brings them all together to give readers a new appreciation of how Benjamin’s thinking changed and ripened over time, while including several key readings of his own—texts by his contemporaries Ernst Bloch and Georg Lukács; by Paul Valéry; and by Herodotus and Montaigne. Finally, to bring things around, there are three short stories by “the incomparable Hebel” with whom the whole intellectual adventure began.

No one asks for the childhood they get, and no child ever deserved to go to Chartwell Manor. For Glenn Head, his two years spent at the now-defunct Mendham, NJ, boarding school — run by a serial sexual and emotional abuser of young boys in the early 1970s — left emotional scars in ways that he continues to process. This graphic memoir — a book almost 50 years in the making — tells the story of that experience, and then delves with even greater detail into the reverberations of that experience in adulthood, including addiction and other self-destructive behavior. Head tells his story with unsparing honesty, depicting himself as a deeply flawed human struggling to make sense of the childhood he was given.

After a disastrous defeat at the 2018 World Cup, Japan's team struggles to regroup. But what's missing? An absolute Ace Striker, who can guide them to the win. The Japan Football Union is hell-bent on creating a striker who hungers for goals and thirsts for victory, and who can be the decisive instrument in turning around a losing match...and to do so, they've gathered 300 of Japan's best and brightest youth players. Who will emerge to lead the team...and will they be able to out-muscle and out-ego everyone who stands in their way?

Not an autobiography in the customary sense, Benjamin's recollection of his childhood in an upper-middle-class Jewish home in Berlin's West End at the turn of the century is translated into English for the first time in book form.

Though published during his lifetime, Walter Benjamin's dream notes and theoretical reflections on dreams are collected here for the first time in a single volume. Dreams highlights a dimension of Benjamin's thinking that was invaluable for his writing and thought but which has thus far received little attention. The first section, "Dream Notes," is a comprehensive and chronological collection of Benjamin's transcriptions of his own dreams and includes unpublished manuscript materials. The second section, "On Perception of Dreams: Awakening and Dream," features his theoretical reflections on dreams, ranging from short aphorisms and longer analyses of dream literature and the history of dreams to the political conception of a "dreaming collective" and its awakening. Editor Burkhardt Lindner describes Benjamin's literary approach to his own dreams in the epilogue and gives a sketch of Benjamin's own definition of the dream sphere, independent of and in contrast to Surrealism and Freud's interpretation of dreams. This handsome, pocket-sized reader presents Benjamin as both a great dreamer and an important theorist of dreams. Walter Benjamin (1892-1940) is one of the 20th century's most influential theorists and critics. A member of the Frankfurt school alongside Theodor Adorno, Ernst Bloch and Max Horkheimer, he also maintained close friendships with thinkers such as Marxist theorist Georg Lukács, playwright Bertolt Brecht and Kabbalah scholar Gershom Scholem. Among Benjamin's best-known works are the essays "The Task of the Translator" (1923), "The Work of Art in the Age of Mechanical Reproduction" (1936) and "Theses on the Philosophy of History" (1940). His major work as a literary critic included essays on Baudelaire, Goethe, Kafka, Kraus, Leskov, Proust, Walser and Scheerbart. In 1940, at the age of 48, Benjamin committed suicide in Portbou at the French-Spanish border while attempting to escape from invading Nazi forces.

On August 25, 1974, along the Rio Grande River near the Texas border town of Presidio, a thunderous explosion in the sky shattered the stillness of the warm summer night. An unidentified flying disc traveling at 2,000 miles per hour collided with a small airplane heading south from El Paso, Texas. The flaming wreckage of both aircraft fell to the Mexican desert below, igniting a desperate race by two governments to recover technology from beyond the stars. This book was the basis for an episode of the History Channel's "UFO Hunters" television series. REVIEWS: "Amazing! This story is wilder than the U.S. Roswell. This book is an amazing piece of work." - George Noory, Coast to Coast AM. "A very nice and thorough job." Jim Marrs, Bestselling Author. "Noe and Ruben are to be commended." - Stanton T. Friedman, UFO Researcher.
