Among medieval Christian societies, Byzantium is unique in preserving an ecclesiastical ritual of adelphopoiesis, which pronounces two men, not related by birth, as brothers for life. It has its origin as a spiritual blessing in the monastic world of late antiquity, and it becomes a popular social networking strategy among lay people from the ninth century onwards, even finding application in recent times. Located at the intersection of religion and society, brother-making exemplifies how social practice can become ritualized and subsequently subjected to attempts of ecclesiastical and legal control. Controversially, adelphopoiesis was at the center of a modern debate about the existence of same-sex unions in medieval Europe. This book, the first ever comprehensive history of this unique feature of Byzantine life, argues persuasively that the ecclesiastical ritual to bless a relationship between two men bears no resemblance to marriage. Wide-ranging in its use of sources, from a complete census of the manuscripts containing the ritual of adelphopoiesis to the literature and archaeology of early monasticism, and from the works of hagiographers, historiographers, and legal experts in Byzantium to comparative material in the Latin West and the Slavic world, *Brother-Making in Late Antiquity and Byzantium* examines the fascinating religious and social features of the ritual, shedding

Members of the naval service will find that at all points in their careers they can expect to be involved to some extent in the planning and execution of official ceremonies and social events. Protocol is a code of established guidelines on proper etiquette and precedence which, when followed, lays the foundation for a successful event. From this foundation, the host should consider the facets which make a particular situation unique, and from there, use imagination to design a memorable occasion. The most important consideration in planning should always be the comfort of one's guests. A clever host/hostess is able to reach a proper mixture of protocol and common sense that will enable guests to enjoy themselves completely. If this is accomplished, an event is truly successful.

This groundbreaking history of how American police forces have been militarized is now revised and updated. Newly added material brings the story through 2020, including analysis of the Ferguson protests, the Obama and Trump administrations, and the George Floyd protests. The last days of colonialism taught America's revolutionaries that soldiers in the streets bring conflict and tyranny. As a result, our country has generally worked to keep the military out of law enforcement. But over the last two centuries, America's cops have increasingly come to resemble ground troops. The consequences have been dire: the home is no longer a place of sanctuary, the Fourth Amendment has been gutted, and police today have been conditioned to see the citizens they serve as enemies. In *Rise of the Warrior Cop*, Balko shows how politicians' ill-considered policies and relentless declarations of war against vague enemies like crime, drugs, and terror have blurred the distinction between cop and soldier. His fascinating, frightening narrative that spans from America's earliest days through today shows how a creeping battlefield mentality has isolated and alienated American police officers and put them on a collision course with the values of a free society.

In 1950, when he commissioned the first edition of *The Armed Forces Officer*, Secretary of Defense George C. Marshall told its author, S.L.A. Marshall, that "American military officers, of whatever service, should share common ground ethically and morally." In this new edition, the authors methodically explore that common ground, reflecting on the basics of the Profession of Arms, and the officer's special place and distinctive obligations within that profession and especially to the Constitution.

After the World Trade Towers went down in New York, Father Apostoli ministered at the morgue set up at Ground Zero. When search teams discovered the body of a police officer or firefighter, an honor guard formed and gathered the body with great reverence. For Father Apostoli, these moments vividly captured the unspoken code of these heroic public servants: "We go in together, we come out together." Christians, if they are to have any impact in today's world, have something of the same code: we fight the good fight, side by side, ready to lay down our lives for one another. Such heroism doesn't come naturally. As *Walk Humbly With Your God* points out, it is in the day-to-day training, in taking the simple steps to holiness, that heroism becomes second nature. Father Apostoli provides an inspirational guide to conquering our faults, growing in prayer and acquiring the virtues that enable us to walk with God and live for others.

We believe that happiness is a state of being. It is an internal experience and way of living. We believe that all lives are meant to be lived in a happy positive way. This is a choice. We believe that we all have a life path and purpose. Although lives are full of lessons we believe they are all meant to teach us and help us grow into better people and enlightened souls. with us and "Being HAPPY" we will strive to help you to understand how to implement positive permanent change to your mental and spiritual well being. Awareness and happiness are choices and a way of life, not labels or destinations. It is believed by some that our brains are hardwired for positive or negative thinking, that some people are naturally more positive than others. While this may seem valid some doctors are challenging that belief. There is more and more research that supports the belief that this is something we can change. If you would like further intellectual information we recommend reading "The Biology of Belief", "Molecules of Emotion", "How Emotions Are Made", "Change Your Brain Change Your Body", "Breaking the Habit of Being Yourself". In this book, we use the words God, Creator, Spirit, and Universe interchangeably. Please use what is most comfortable for you. We believe that all things are made up of energy and all interactions have an effect on this energy. This workbook, our coaching programs, and certifications address the energy of LIVING a positive, purposeful, life and being HAPPY in this life. In our work and this workbook, we refer to meditation and prayer. We like to remember the old adage, "Prayer is when you talk, meditation is when you listen." In prayer, you are speaking to Creator, Angels, your own soul in some form. Asking for help, guidance, instruction. In meditation, you are quiet, mindful and aware to receive this information with gratitude when it arrives with an open mind and heart.

This insightful volume examines key research questions concerning police decision to arrest as well as police-led diversion. The authors critically evaluate the tentative answers that empirical evidence provides to those questions, and suggest areas for future inquiry. Nearly seven decades of empirical study have provided extensive knowledge regarding police use of arrest. However, this research highlights important gaps in our understanding of factors that shape police decision-making and what is required to alter current police practice. Reviewing this research base, this brief takes stock of what is known empirically about all aspects related to the use of arrests, providing important insights on the knowledge needed to make evidence-based policy decisions moving forward. With the potential to better impact policy and programs for alternatives to arrest, this brief will appeal to researchers and practitioners in evidence-based policing and police decision-making, as well as those interested in alternatives to arrest and related fields such as public policy.

Be Your Own Kind of Brave! Bravery isn't reserved for only women serving on international mission teams, or for women who serve in the military or on a police force. Every woman is brave, much braver than she might think. But feelings of doubt and inadequacy try to stop us from living up to our God-given potential to be courageous women of faith. In *Everyday Brave*, Janet explores the extraordinary actions of fifty ordinary women in the Bible, women who display bravery in usual and unusual circumstances. Thirty present-day women also give their testimony of realizing their strength and courage through God's love. As Janet shares the stories of these women, she reminds us that the heart and substance of bravery, even in the face of fear, comes from unconditionally placing our hope in the only One who can give us the courage to stay the course.
