A fascinating exchange between the punk-philosopher and the philosopher-punk. "We are the rebels asking for the storm, and believing that truth is only to be found in an endless search ... Two years of prison for Pussy Riot is our tribute to a destiny that gave us sharp ears, allowing us to sound the note A when everyone else is used to hearing G flat." In an extraordinary exchange of letters, Nadezhda Tolokonnikova, imprisoned for taking part in Pussy Riot's anti-Putin performance, and Slovenian philosopher Slavoj Žižek discuss artistic subversion, political activism, and the future of democracy via the ideas of Hegel, Deleuze, Nietzsche, and even Laurie Anderson. Two radicals, one in a Russian forced labor

Micro-Hydro Design Manual has grown from Intermediate Technology's field experiences with micro-hydro installations and covers operation and maintenance, commissioning, electrical power, induction generators, electronic controllers, management, and energy surveys. There is an increasing need in many countries for power supplies to rural areas, partly to support industries, and partly to provide illumination at night. Government authorities are faced with the very high costs of extending electricity grids. Often micro-hydro provides an economic alternative to the grid. This is because independent micro-hydro schemes save on the cost of grid transmission

lines, and because grid extension schemes often have very expensive equipment and staff costs. In contrast, micro-hydro schemes can be designed and built by local staff and smaller organizations following less strict regulations and using 'off-the-shelf' components or locally made machinery.

"Roxanne's heartfelt experience reminds us of the sacred experience we all share." Mehmet C. Oz, M.D., coauthor of *YOU: The Owner's Manual*

Beautifully drawn stories of hope, healing, and courage illuminate the unexpected blessings that lie beyond the hurdles in life. When Roxanne Black was only fifteen years old, she was diagnosed with lupus, a chronic inflammatory disease. As a teenager with a rare and potentially life-

threatening illness, Roxanne yearned to connect firsthand with others who knew what she was experiencing. So she made the decision to turn her diagnosis into something positive. Working out of her hospital bedroom, she founded Friends' Health Connection, which is now a nationwide community that matches people with similar health conditions for friendship and mutual support. Unexpected Blessings brings to life Roxanne's moving personal story, as well as the wisdom and lessons of courage she has learned over the years from famous leaders and celebrities, as well as everyday heroes standing strong against adversity. We meet Sara, an eight-year-old mature beyond her years, who is struggling with AIDS and the loss of her mother, and Ruby, a chronically ill woman whose devoted

husband eases her pain. We experience Roxanne's poignant encounter with Christopher Reeve before his death, and also see unbelievable kindness and acts of love—family members offering transplant organs to save loved ones, strangers supporting one another through crisis, and more. These powerful stories and reflections weave together a rich tapestry of hope, comfort, and inspiration, and serve as reminders of the incredible resilience of the human spirit in the face of overwhelming challenge. In this gorgeously written book, Roxanne Black reminds us of the courage we all possess.

Incontinence is one of the biggest secrets of our time. More than 25 million Americans suffer from some form of incontinence. Incontinence affects all aspects of our life. It affects the location of the vacation, the job, the social gatherings, the finances, the color of our clothing, even our movements. It affects our food, our drink, sleep and rest, the time of laughter, and virtually all aspects of life. But still we do not hear anything about it in the media, not between people, not between doctors and patients, and not between husbands

and wives. Everybody is so embarrassed about incontinence that they do not want to talk about it and usually neglect it, and by negligence, most of the time, it becomes worse and decreases the quality of life significantly. It causes men and women to isolate themselves and do behaviors that surprise others, and often loved ones resent them without knowing the real cause. People even cancel important social events of close friends because of incontinence such as weddings, anniversaries, trips, and more. Billions of dollars are spent; environment pollution is worsening, and the rate of depression and isolation increasing. People lose their independence and get transferred to nursing homes because of keeping this secret. It is time the big secret comes out. We want to talk about it

loud and clear. I plead to the media, to all women advocates, to all health advocates, to human rights advocates, to environmentalists, to all elderly advocates let's break the silence many people suffered and are suffering still today. I plead to all women and men, at any age, to break the silence. Do appropriate exercises at any age. These exercises are illustrated in this book. The accompanying DVD illustrates the exercises and can help you significantly reduce the incidence of incontinence. I plead to all mothers and fathers to teach these exercises to your children. May the future generation be luckier and healthier than we are. There is help out there. Just ask for it; do your part. Talk to your doctor.
