This book is about what I call " Fix it or lose it Management " . I wrote it to help you do your own turnaround inside your organization, before someone else does it for you – or your organization goes under completely. This book is a compendium of carefully selected good ideas from good books, plus my own experience in nearly 20 years as a management consultant and the 27 years of Military service that preceded it. Like my last book, I wrote it so that you could have straightforward, no-nonsense material, ready to implement. CEOs and other responsible people in leadership positions don ' t always have time to do their own research. Instead, they throw themselves on the mercy of contractors, who think in terms of yearly contracts. You can do the job better.

Krause Publications' Standard Catalog series is available by specific marque, in individual volumes or a set. Each book contains in-depth profiles of specific makes by model, factory photos, and up-to-date vehicle pricing. The I-to-conditional pricing system assures readers of accurate values, whether a vehicle is a #1 low-mileage, rust-free beauty or a #6 parts-only heap. "Techs & specs", original factory prices, production and serial numbers, and engine/chassis codes are noted by model, thus helping you determine authenticity accuracy. Historical, technical and pricing information are combined from hundreds of sources. James Flammang values each model according to the popular 1-6 grading system invented by Old Cars magazine.
