Prior to World War I, auto racing featured expensive machines and teams financed by auto factories. The teams toured the country, and most of the races were held in large cities, so the vast majority of Americans never saw a race. All this changed after World War I, though, and in the 1920s and 1930s there were approximately 1,000 dirt tracks in the United States and Canada. The dirt tracks offered small-time racing—little prize money and minimal publicity—but people loved it. This pictorial history documents dirt track racing, with what are today called sprint cars, around the United States from 1919 to 1941. Information on dirt track racing in Canada during this time is also provided. Regionally divided chapters detail the drivers, tracks, and specific races of each area of the country. Some of the

drivers went on to win fame and fortune while others faded into obscurity. Tracks included well known facilities as well as out-of-the-way sites few people had ever heard of. The cars ranged from state of the art machines to the more common home built specials based on Model T or Model A Ford parts. Taken together, the drivers, tracks, and races of this era were instrumental in making auto racing the popular sport it is today.

One hundred years ago, 40 cars lined up for the first Indianapolis 500. We are still waiting to find out who won. The Indy 500 was created to showcase the controversial new sport of automobile racing, which was sweeping the country. Daring young men were driving automobiles at the astonishing speed of 75 miles per hour, testing themselves and their vehicles. With no seat belts, hard helmets or

roll bars, the dangers were enormous. When the Indianapolis Motor Speedway opened in 1909, seven people were killed, some of them spectators. Oil-slicked surfaces, clouds of smoke, exploding tires, and flying grit all made driving extremely hazardous, especially with the open-cockpit, windshield-less vehicles. Bookmakers offered bets not only on who might win but who might survive. But this book is about more than a race--it is the story of America at the dawn of the automobile age, a country in love with speed, danger, and spectacle.--From publisher description.

Who won the first Daytona 500? Fans still debate whether it was midwestern champion Johnny Beauchamp, declared the victor at the finish line, or longtime NASCAR driver Lee Petty, declared the official winner a few days after the race. *The Ghosts of NASCAR* puts the controversial finish under a microscope. Author John Havick interviewed scores of people, analyzed film of the race, and pored over newspaper accounts of the event. He uses this information and his deep knowledge of the sport as it worked then to determine what probably happened. But he also tells a much bigger story: the story of how Johnny Beauchamp—and his Harlan, Iowa, compatriots, mechanic Dale Swanson and driver Tiny Lund—ended up in Florida driving in the 1959 Daytona race. *The Ghosts of NASCAR* details how the Harlan Boys

turned to racing cars to have fun and to escape the limited opportunities for poor boys in rural southwestern Iowa. As auto racing became more popular and better organized in the 1950s, Swanson, Lund, and Beauchamp battled dozens of rivals and came to dominate the sport in the Midwest. By the later part of the decade, the three men were ready to take on the competition in the South's growing NASCAR circuit. One of the top mechanics of the day, Swanson literally wrote the book on race cars at Chevrolet's clandestine racing shop in Atlanta, Georgia, while Beauchamp and Lund proved themselves worthy competitors. It all came to a head on the brand-new Daytona track in 1959. The Harlan Boys' long careers and midwestern racing in general have largely faded from memory. The Ghosts of NASCAR recaptures it all: how they negotiated the corners on dirt tracks and passed or spun out their opponents; how officials tore down cars after races to make sure they conformed to track rules; the mix of violence and camaraderie among fierce competitors; and the struggles to organize and regulate the sport. One of very few accounts of 1950s midwestern stock car racing, The Ghosts of NASCAR is told by a man who was there during the sport's earliest days.
