"Seedfolks" by Paul Fleischman is a short novel about a vacant lot which connected a community. I wouldn't recommend that story to other readers. The story focused on new characters in separated chapters. The author didn't repeat the previous characters. There is also no ending about how the community was connected.

A vacant lot, rat-infested and filled with garbage, looked like no place for a garden. Especially to a neighborhood of strangers where no one seems to care. Until one day, a young girl clears a small space and digs into the hard-packed soil to plant her precious bean seeds. Suddenly, the soil holds promise: To Curtis, who believes he can win back Lateesha's heart with a harvest of tomatoes; to Virgil's dad, who sees a fortune to be made from growing lettuce; and even to Maricela, sixteen and pregnant, wishing she were dead. Thirteen very different voices -- old, young, Haitian, Hispanic, tough, haunted, and hopeful -- tell one amazing story about a garden that transforms a neighborhood. Chosen as a state and citywide read in communities across the country: Vermont Racine, WI Tampa, FL Newburgh, NY Boca Raton, FL

One by one, a number of people of varying ages and backgrounds transform a trash-filled inner-city lot into a productive and beautiful garden, and in doing so, the gardeners are themselves transformed.

"This fantastical picture book, like its hero, is bursting at the seams with creativity. . . . a vigorous shot in the arm to nonconformists everywhere" — Publishers Weekly (starred review) Enter the witty, intriguing world of Weslandia! Now that school is over, Wesley needs a summer project. He's learned that each civilization needs a staple food crop, so he decides to sow a garden and start his own — civilization, that is. He turns over a plot of earth, and plants begin to grow. They soon tower above him and bear a curious-looking fruit. As Wesley experiments, he finds that the plant will provide food, clothing, shelter, and even recreation. It isn't long before his neighbors and classmates develop more than an idle curiosity about Wesley — and exactly how he is spending his summer vacation.

In his most ambitious novel to date, Newbery winner Paul Fleischman traces Brent's healing pilgrimage from Washington State to California, Florida, and Maine, and describes the many lives set into new motion by the ingenious creations Brent leaves behind. Paul Fleischman is the master of multivoiced books for younger readers. In *Whirligig* he has created a novel about hidden connections that is itself a wonder of spinning hearts and grand surprises.

acclaimed and beloved titles. His books are taught and performed in classrooms across the country. Part memoir, part travelogue (young Paul travels from California to New Hampshire by himself), part writing book, and part reflection on art and creativity, this inspirational book includes black-and-white photographs, as well as writing tips and prompts just right for budding authors. Paul Fleischman spins three engrossing stories about the unexpected ways an artist's creations reveal truths - tales whose intriguing plots and many moods will entertain readers and inspire future writers. Can wood, copper, or marble communicate? They can if they are the graven images in Newbery Medalist Paul Fleischman's trio of eerie, beguiling short stories. If you whisper a secret into a wooden statue's ear, will anyone find out? Can a wobbly weathervane bearing the image of Saint Crispin, the patron saint of shoemakers, steer a love-struck apprentice toward the girl of his dreams? And if a ghost hires a sculptor to carve a likeness of him holding a drink to a baby's lips, what ghastly crime might lie behind his request? And, in a brand-new afterword, the acclaimed storyteller reveals how he found his own author's voice.

From the Newbery Medal-winning author of *Seedfolks*, Paul Fleischman, *Joyful Noise* is a collection of irresistible poems that celebrates the insect world. Funny, sad, loud, and quiet, each of these poems resounds with a booming, boisterous, joyful noise. The poems resound with the pulse of the cicada and the drone of the honeybee. They can be fully appreciated by an individual reader, but they're particularly striking when read aloud by two voices, making this an ideal pick for classroom use. Eric Beddows's vibrant drawings send each insect soaring, spinning, or creeping off the page in its own unique way. With *Joyful Noise*, Paul Fleischman created not only a fascinating guide to the insect world but an exultant celebration of life.
