Billed as the "biggest, most useful Red Book ever," the Deluxe Edition measures 7 x 10 inches and has 1,504 pages. The larger size and increased page count combined make the Deluxe Edition five times bigger than the regular-edition Red Book. It prices 8,018 items in up to 12 grades each, with 50,205 individual values and 16,667 auction records covering circulated, Mint State, and Proof coinage. The book is illustrated with 5,753 images. The Deluxe Edition covers American coinage from New England colonial times to the modern day--half cents through \$20 gold double eagles, plus bullion, commemoratives, Proof and Mint sets, significant tokens and medals, error coins, and other numismatic collectibles. It follows the basic structure of the regular-edition Red Book, but each chapter is dramatically expanded with more historical information, more die varieties, detailed grading instructions with enlarged full-color illustrations, specialized advice on strike characteristics and other technical details, market analysis, and valuable guidance on collecting and investing in rare coins. The book's Senior Editor is Kenneth Bressett, Valuations Editor is Jeff Garrett, and Research Editor is Q. David Bowers. A 57-page introduction, "The Story of American Money," is based on the work of the late Dr. Richard Doty, senior curator of the National Numismatic Collection at the Smithsonian. Each year, the new Deluxe Edition will feature an in-depth focus on one or more coin series. The first edition includes a special 364-page section on copper half cents and large cents written by Q. David Bowers, with images, history, diagnostics, and pricing for 832

die varieties, 1793-1857. For federal coins, detailed charts show each mintage; a summary of certified population data; average national retail prices in grades ranging from About Good to high Mint State and Proof; and three or more recent auction records for most coins. Enlarged close-ups of die varieties provide visual guidance. Extensive chart notes give the back stories and additional details on significant coins. "This is the biggest numismatic reference Whitman has ever created," said publisher Dennis Tucker. "Many of the Deluxe Edition's chapters could be standalone books themselves. The section on commemorative coins is 146 pages long. Pre-federal coins and tokens from the 1600s to the 1790s span 56 pages. U.S./Philippine coins of World War II and earlier are given a detailed 30-page treatment. And 364 pages of half cents and large cents are enough to make every reader a smarter buyer and collector." Special appendices include illustrated essays on misstrikes and error coins; rare and collectible numismatic books; bullion values of common-date silver and gold coins; the top 250 coin prices realized at auction; grading standards for U.S. coins; coin cleaning, preservation, and conservation; counterfeit coins in today's marketplace; the dynamics of the rare-coin market; predicting the rare-coin market; and techniques of smart bidding at auction.

This is a guide for people who buy and sell silver coins—on eBay, on other Internet websites, at coin shows or coin stores, or elsewhere. It is intended for those who buy or sell coins based on their investment value, rather than their design or scarcity. This book displays the bullion value of silver coins for every world nation and year of origin between 1800 and 2000. An alphabetical listings of countries and denominations (and sometimes a simple addition), shows the base value of any common silver coin. This is vital information, because many current coin guides have not recalculated bullion values, and continue to estimate coin value based on silver prices from a time when it was worth only a fraction of today's value.

America's #1 consumer advocate for coin hobbyists, collectors, and

investors is Scott Travers. Now he has created a guide that provides comprehensive facts on all U.S. coins and a complete listing of the fair market value for your coins today. Plus, he teaches you how to play the lucrative global game of coin collecting and investing by including:

- How to identify valuable coins that are hiding in pocket change
- Secrets of how to grade, trade, and preserve coins like the experts
- Current trends in the coin market and how to profit from trading coins
- The most complete coin price guide on the market today!

This is a guide for people who buy and sell silver coins-on eBay, on other Internet websites, at coin shows or coin stores, or elsewhere. It is intended for those who buy or sell coins based on their investment value, rather than their design or scarcity. This book displays the bullion value of silver coins for every world nation and year of origin between 1800 and 2013. An alphabetical listings of countries and denominations (and sometimes a simple addition), shows the base value of any common silver coin. This is vital information, because many coin guides have not recalculated bullion values, and continue to estimate coin value based on silver prices from a time when it was worth only a fraction of today's value-e.g., \$5 to \$10 per Troy ounce, instead of the current \$20-30 per ounce.

This wonderful sourcebook showcases the most popular and collectible foreign coins from around the world--including uncirculated mint coins and rare used coins--all evaluated, graded, and priced. A fast-find coin index lists thousands of prices, reflecting trends and sales. Photos. Previously annotated in June 1996 Advance as The Official Blackbook Price Guide to Foreign Coins.

For the first time, the most commonly encountered silver Roman coins can be inexpensively identified and some idea of value can be gained. Whether you are setting out to form a collection of every emperor or are already an experienced Roman Coin collector, you will not be able to put this book down The line drawings of most obverse types mean

that the legend is clear and readable in the book, and it makes a great aid to identification, as does the alphabetical list of emperors/empresses in the back of the book. This book includes an identification guide for republican coins, instructions on cleaning Roman silver coins and a list of Roman mint town mintmarks. It also includes an alphabetical list of Emperors/Caesars/Empresses and information of Roman coin grading. The book is ordered chronologically, and with the introduction of different coin types clearly mentioned, together with some historical notes, it also gives an easy to follow explanation of the Roman silver coinage and how it changed over 750 years.

Don't be overcharged when you buy-- Don't be shortchanged--. When you sell. America's #1 consumer advocate for coin hobbyists, collectors, and investors is Scott Travers. His mission is to make sure you never fall prey to unscrupulous buyers or sellers. Now he has created a guide that provides comprehensive facts on all U.S. coins, advice on collecting trends, and a complete listing of the fair market value for your coins today. Plus, he teaches you to be the expert with information on: Understanding coin grades and what they mean in dollars and cents for collectors The advantages of a "certified coin" from a grading service Essential specifications--diameter, weight, composition, edge, and designers--for popular U.S. coins Comprehensive listings of coin periodicals The most complete and current price guide on the market today!

Few Books have taken the coin-collecting community by storm like the Cherrypicker's Guide to Rare Die Varieties. This handy book tells you how to cherrypick rare coins - how to examine a collection of otherwise normal coins, looking for unusual characteristics: doubled and tripled dies, overdates, repunched mintmarks, and other factors that can reveal a common coins to be a rare and valuable variety
