...

Math in Focus mirrors the original Singapore Math's layout with books A and B for each level for Teacher's Editions, student textbooks, and student workbooks, essentially splitting the course for each level into two parts. Kindergarten is the exception to this layout since it has only workbooks rather than separate texts and workbooks; there are four of these relatively thin kindergarten student workbooks.

Singapore Math Teaching Strategies and Materials

Less of a focus on applied mathematics than traditional U.S. math textbooks. For instance, the Everyday Mathematics program emphasizes data analysis using real-life, multiple step math problems, while Singapore Math's approach is more conceptual and ideological. Doesn't work well for a nomadic student population.
