Master the hows and whys of documentation! This is the ideal resource for any health care professional needing to learn or improve their skills—with simple, straight forward explanations of the hows and whys of documentation. It also keeps pace with the changes in Physical Therapy practice today, emphasizing the Patient/Client Management and WHO ' s ICF model.

A SOAP note records an encounter with a patient. The components are Subjective (what the patient tells the recorder), Objective (what the recorder observes), Assessment (recorder's summation), Plan (recorder's actions, based on the assessment).

Ginge Kettenbach's workbook leads you through the process of learning two different styles of documentation: SOAP (Subjective/Objective/Assessment/Plan) notes and the Patient/Client Management format. This updated 3rd edition includes hands-on exercises and examples to help you sharpen the writing skills that you will need to prepare clear, concise, and accurate medical documentation. Worksheets at the end of each note section further strengthen your writing skills on the information you have just learned. Explanations of documentation that are consistent with the APTA's Guide to Physical Therapist Practice are given for all decisions. Book jacket.

Offering step-by-step guidance on how to properly document patient care, this updated Second Edition presents 90 of the most common clinical problems encountered on the wards and clinics in an easy-to-read, two-page layout using the familiar "SOAP" note format. Emphasizing the patient ' s clinical problem, not the diagnosis, this pocket-sized quick reference teaches both clinical reasoning and documentation skills and is ideal for use by medical students, Pas, and NPs during the Family Medicine rotation.

SOAP for Family Medicine features 90 clinical problems with each case presented in an easy to read 2-page layout. Each step presents information on how that case would likely be handled. Questions under each category teach the students important steps in clinical care. Blackwell's new SOAP series is a unique resource that also provides a step-by-step guide to learning how to properly document patient care. Covering the problems most commonly encountered on the wards, the text uses the familiar "SOAP" note format to record important clinical information and guide patient care. SOAP format puts the emphasis back on the patient's clinical problem not the diagnosis. This series is a practical learning tool for proper clinical care, improving communication between physicians, and accurate documentation. The books not only teach students what to do, but also help them understand why. Students will find these books a "must have" to keep in their white coat pockets for wards and clinics.

Understand the when, why, and how! Here ' s your guide to developing the skills you need to master the increasing complex challenges of documenting patient care. Step by step, a straightforward ' how-to ' approach teaches you how to write SOAP notes, document patient care in office and hospital settings, and write prescriptions. You ' ll find a wealth of examples, exercises, and instructions that make every point clear and easy to understand.

Practical, applied, and up-to-the-minute, Writing for the Health Professions teaches students, healthcare professionals, and professional writers the essential skills in medical and health communications. Drawing on her extensive experience as a nurse, cardio-pulmonary technician, medical writer, and writing teacher, Barbara Heifferon addresses the communications requirements of the healthcare professions and those who write in these high-tech fields. This comprehensive text covers writing situations and documents common in hospitals, clinics, HMOs, health insurance companies, public health campaigns, and other healthcare environments. Special attention is given to visual and electronic forms of communication, including web sites and multimedia productions.

SOAP for Pediatrics features over 70 clinical problems with each case presented in an easy to read 2-page layout. Each step presents information on how that case would likely be handled. Questions under each category teach the students important steps in clinical care. Blackwell's new SOAP series is a unique resource that also provides a step-by-step guide to learning how to properly document patient care.
