This volume is a compilation of the papers presented at a meeting that took place in April 1980 at the Mote Marine Laboratory, Sarasota, Florida. The meeting and this volume are outgrowths of two earlier international meetings on marine bio-acoustics that occurred in 1963 and 1966 (Tavolga 1964, 1967). The first meeting took place at the Lerner Marine Laboratory of the American Museum of Natural History, while the second meeting was at the American Museum itself, and was under the sponsorship of the Department of Animal Behavior. It is apparent that these two volumes have had immense impact on the current study of marine bio-acoustics, and particularly on fish audition. In a preliminary conference in Sarasota in 1979 we decided that it was time for another such meeting, to bring together as many as possible of the investigators interested in fish acoustics in order to assess the current state of our knowledge and predict directions for research for the next several years. Such a meeting appeared par ticularly timely, since over the past four or five years there have been many new studies that have provided new empirical and theoretical work on basic mechanisms of fish audition. Furthermore, it became evident, as we made up preliminary lists of possible participants, that few of the currently active workers were in the field back in 1966. In fact, of the current participants, only Drs.

This book covers the contextual and taxonomic diversity of cannibalism and explains its costs, benefits, and consequences for a taxonomically broad distribution of species from lower eukaryotes to higher primates. The emerging picture challenges the view that cannibalism is either abnormal behaviour or an infrequent addition to the predator's usual diet.

THIS is the story of my life in Christ. Now, what does living in Christ mean? It means that one is FOR Christ, that one not only accepts Him, but that one lives in Him. Living in Christ has little relationship to the more commonly accepted situation of living as a Christian, or living a Christian life. Living AS a Christian means that one has accepted the tokens of Christianity, that one agrees in the divinity of Christ, that one is a member of a Christian congregation, in a largely Christian community, in a Christian nation. Thus, one can lead a Christian life without knowing Christ and without changing one's existence in the slightest degree. If a person leads a Christian life, and it does not transform one's existence, then one can be sure that he does not KNOW Christ. Knowing Christ is the only manner in which one can go beyond oneself, and the only manner in which one can go beyond one's world. In knowing Christ, one is immediately lifted out of the mechanical life of the human existence, one transcends the common existence. One is no longer a human machine, leading a hopeless, mechanical life, repeating the same meaningless motions like a robot throughout the years of one's earthly existence. What was Christ's ad-monition? "Take up the Cross, and follow Me." But, in explication of this admonition, the New Testament contains many significant references to the condition of sleep, and Christ's exhortations to mankind to awaken. Now, what does this mean? It means that Christ did not wish to be followed by robots and sleepwalkers, He desired man to awaken, and to attain the full use of his earthly powers. Not only are mechanical men of no use to Christ, but they are quite dangerous, they present endless difficulties in the establishment of Christ's Kingdom on earth.

The Books of the Bible New Testament is a revolutionary new presentation of Scripture that strips away centuries of artificial formatting, leaving behind nothing but pure Bible text. The result is a Bible unlike any other available today, but more like the original Scriptures. The Books of the Bible is specially designed to be read from start to finish, as if you were reading a novel. Natural literary breaks have been restored and the books have been rearranged chronologically, rather than by length, leading to a more authentic presentation of the Bible. There is also a helpful introduction to each book that sets the text in context, rather than adding explanation or application. The NIV text is also set in single-column format, rather than in two columns as you usually find in the Bible. This aids reading longer chunks at a time, as you would if you were reading a novel for pleasure. Community Bible Experience is about changing the way we read God's Word. By following the reading plan found online at biblica.com/cbent, you'll experience the whole New Testament in just eight weeks. Why not gather together as a book club to share the journey rather than reading in isolation. You'll glimpse more of the Bible's context than ever before. And your entire church community will rally around the one thing that matters most: God's Word. For more information, and for free accompanying resources, visit www.biblicaeurope.com/cbent
