The Snarkiest Sci-Fi Series in the Galaxy is Back! After saving an alien race and its god from a sentient zombie virus, Cal Carver and the crew of the Dread Ship Shatner are feeling pretty pleased with themselves. Unfortunately, the creator of the zombie virus is out for revenge, and has recruited the galaxy's deadliest - and oldest - assassin, Lady Vajazzle, to hunt Space Team down. But when Vajazzle discovers the crew is under the protection of a wolf-like species known as the Greyx, she is forced to implement a Plan B so diabolical it threatens to plunge the entire star system into chaos. With time running out, Cal must find a way to outmaneuver and outgun the galaxy's greatest killer before she murders his friends, butchers the Greyx, and buys the whole galaxy a one-way ticket to total annihilation. Featuring murderous senior citizens, a moon of death, and a pointy stick that could change the fate of the universe, *Space Team: The Wrath of Vajazzle* is the second relentlessly funny science fiction book in the bestselling Space Team series by award-winning author, Barry J. Hutchison.

The galaxy just called for help. Unfortunately, the wrong man answered. When small-time conman, Cal Carver, is thrown in jail and forced to share a cell with a semi-naked cannibalistic serial killer, he's pretty sure

his day can't get any worse. Boy, is he wrong. It isn't until two-thirds of the human race is wiped out and Cal is mistakenly abducted by aliens that things really start to go downhill. Whisked across the galaxy, Cal is forced into a team of some of the sector's most notorious villains and scumbags and tasked with delivering a package to a warlord-run solar system where the authorities daren't venture. The mission should be simple enough, but as one screw-up leads to another the ragtag group of unwitting heroes find themselves in a frantic battle to save an entire alien civilization - and its god - from total annihilation. Featuring epic space battles, hilariously snarky characters, and a shapeshifting blob with the face of Tobey Maguire, Space Team is the first book in the internationally bestselling series by award-winning author, Barry J. Hutchison. Perfect for fans of The Hitchhiker's Guide to the Galaxy, Galaxy Quest, Guardians of the Galaxy, and pretty much anything else with the word 'Galaxy' in the title. * *Except Samsung's Galaxy S series, which is a range of mobile devices, and so not really similar. You don't really want to stick around on Earth, do you? Have you seen the state of the place? Buy Space Team now, or read FREE on Kindle Unlimited, and blast off on an action-packed adventure that'll have you laughing your puny human head off. (Not literally.) (I hope.)

of warp-speed and board games later, they arrive in a sector filled with new hope, new opportunities, and new adventures. Too broke to take advantage of any of these things, they are forced to accept a series of increasingly demeaning jobs just to make ends meet. When one such job leads them to the offices of a sector-wide TV network, Cal signs-up to star in smash-hit gameshow, The Hunt, confident of winning the big cash prize. What he fails to realize is that the show's premise involves him being chased and killed for the amusement of the viewing public and so Cal must run, fight, and occasionally beg for his life as he attempts to win the game, the money, and his freedom. But in the entire history of the show, no competitor has ever survived The Hunt, and the network will stop at nothing to keep that record intact... Space Team: The Hunt for Reduk Topa is the twelfth book in the internationally bestselling series from award-winning author, Barry J. Hutchison, and perfect for fans of Guardians of the Galaxy, The Hitchhiker's Guide to the Galaxy, and The Golden Girls.

When a small-time conman is abducted and whisked across the galaxy, he finds himself hurled into a frantic battle to save an alien civilization and its god from extinction. A fast-paced comedy space adventure from the author the Independent newspaper calls "the new Terry Pratchett."

"A laugh-out-loud space adventure you don't want to miss!" - P. Dixon, Amazon They may have recently averted a full-scale galactic war, but Cal Carver and Space Team just can't stay out of trouble. When a 'Weird Space Thing™' threatens to destroy planet Earth, Cal is determined to stop it. But when they get there, they find the place is still swarming with parasitic extra-terrestrial bugs, and that there isn't a whole lot left to save. While battling an unexpected ghost of the past, Cal is abducted by aliens. Again. Brought before their covert High Council, Cal is given a choice: save his Earth and doom countless others to oblivion, or sacrifice it, so

that parallel Earths may live. Cal opts for none of the above, but his proposed solution might well doom not just his universe, but all universes everywhere. Featuring familiar strangers, unfamiliar friends, and an angry talking sheep named Duggie, Return of the Dead Guy is the reality-shattering sixth book in the Space Team saga.

Cal Carver's time is about to run out. He and his Space Team are broke. Forced to take low-paying gun-for-hire jobs just to keep the food replicator working, their prospects are not looking good. When they pick up a distress signal from a luxury space cruiser, they think their luck might be about to change. And it does. Sadly, not in the way they'd hoped. Someone has detonated a Time Bomb aboard the cruiser - an experimental device designed to shatter time itself. As the team passes through the fragments, their personal timelines begin moving at very different speeds, and an ageing Cal is forced to live out decades aboard the ship surrounded by his now statue-like crew mates and the mutated, inbred descendants of the cruiser's former inhabitants. As if that isn't bad enough, the Time Bomb was just a test for the real weapon - a weapon that could spell a fate worse than death for Space Team, and the enslavement of the entire galaxy. Featuring giant space babies, reverse mermaids and the most dangerous man in existence, Space Team: The Time Titan of Tomorrow is the eighth fast and frantic adventure in the Space Team comedic scifi series.

Loren's brother is taken prisoner and sentenced to death by the Symmorium, Cal and the others must make a choice - a choice that could spell the end of Space Team forever... Packed with space battles, giant robots, and a dangerously obese man being sponged down with soup, *The Guns of Nana Joan* is the hilarious fifth book in the Space Team saga, and the perfect jumping on point for new readers.

Accidental space adventurer Cal Carver has had a rough few months. He's fought spider-dragons, battled space clowns, and been repeatedly tortured by the galaxy's oldest assassin. And don't even get him started on the squirrel-tits. Now all that's behind him, Cal just wants to kick back and relax. The universe, however, has other ideas. He and his crew find themselves in possession of the Symmorium Sentience, a once god-like entity now stripped of its power. The Sentience needs help to return home and restore the Symmorium species, which recently found itself the subject of an unfortunate genocide. But with dark forces seeking to turn the Sentience's power into a planet-pulverizing weapon, the team's trek across the galaxy becomes a desperate race against time, with the fate of the very cosmos at stake. Featuring awkward space-dates, gene-splicing villains, and a packet of coconut fingers as old as time itself, *Space Team: Sentiented to Death* is the eleventh book in the bestselling Space Team series by multi-award-winning author Barry J. Hutchison, and perfect for fans of funny stuff happening in space.
