Mountains exist in almost every country in the world and almost every war has included some type of mountain operations. This pattern will not change, and soldiers will continue to fight in mountainous terrain in future conflicts. Although mountain operations have not changed, several advancements in equipment and transportation have increased the soldiers ' capabilities. The helicopter now allows access to terrain that was once unreachable or could be reached only by slow methodical climbing. Inclement weather, however, may place various restrictions on the capabilities of air assets available to a commander. The unit must then possess the necessary mountaineering skills to overcome adverse terrain to reach an objective. The U.S. Army Guide to Military Mountaineering details techniques soldiers and leaders must know to cope with mountainous terrain. These techniques are the foundation upon which the mountaineer must build. They must be applied to the various situations encountered to include river crossings, glaciers, snow-covered mountains, ice climbing, rock climbing, and urban vertical environments. The degree to which this training is applied must be varied to conform to known enemy doctrine, tactics, and actions. This guide also discusses basic and advanced techniques to include acclimatization, illness and injury, equipment, anchors, evacuation, movement on glaciers, and training.

ability / stamina / weight loss / sports fitness goals. "Batteries last hours, books last decades. Get the print edition!" Now with improved text clarity Created by the U.S. Marine Corps Forces Special Operations Command (MARSOC), this guidebook details a 10-week calisthenic exercise program designed to prepare you for MARSOC Assessment and Selection (A&S). Using primarily body-weight exercises, the program requires very little equipment or expense and can be performed by anyone, in any environment. This course will give you the physical conditioning, mental focus and unconquerable spirit required by the USMC's elite unit to persevere under the extreme stress of a high operational tempo and through the unknowns of asymmetric warfare. This fitness program focuses on improving physical performance through exercise and nutrition. It provides photographs and descriptions of exercises used at MARSOC, and is designed to prepare candidates for the physical aspects of A&S. Upon arriving at A&S, candidates are expected to have completed this 10-week program. MOVEMENT PREPARATION: a warm-up that prepares your body for movement, training, and performance. It boosts your heart rate, increases blood flow to the muscles, and elevates your core temperature. CALISTHENICS: exercises designed to develop muscular tone and promote physical well-being, relying heavily on body weight with minimal equipment requirements. POST-WORKOUT REGENERATION: activities that increase the body's ability to recover faster, in order to maximize the gains achieved through performance training. NUTRITION, HYDRATION, FOOT CARE AND RECOVERY: guidelines that help you select the right foods and beverages for optimum physical performance. Combat Techniques is a comprehensive reference work on tactical procedures for infantry today. Illustrated with action photographs and detailed artworks, it provides a thorough insight into how the soldiers of today ' s armies would fight in any combat scenario they encountered. The book covers all aspects of the battlefield, detailing the various forces and assets at a battlefield commander ' s disposal, showing how tactics have changed since the end of World War II, and examining a huge range of tactical procedures, from controlling an air strike or firing an anti-tank weapon to sub-zero operations, hostage-rescue situations, fighting in urban or extreme terrain, amphibious assaults, and evading capture. The difficulties of asymmetric warfare are also addressed, with chapters on counter-terrorist and anti-insurgency operations. Using colour photographs and artworks, Combat Techniques shows the men and equipment of modern armies from around the world, and, with the help of an authoritative text, demonstrates how they operate in today ' s every changing, technology dominated battlefields.

Shares accessible guidelines for self-treatment and the care of others when medical professionals are not immediately available, in a reference that draws on military expertise to provide recommendations for sustaining life and minimizing further injury. Original.

Project Delta - Origins of LRRP, Recondo in Vietnam This document collection includes the original 1970 Combat Recon Manual by Project Delta. It also includes the Special Forces updated version from 1995, and a third book on WW2 Jungle Fighting. Project DELTA was the first of the four Special reconnaissance (SR) units with a Greek letter formed by the U.S. Military Assistance Command, Vietnam (MACV) during the Vietnam War to collect operational intelligence in remote areas of South Vietnam. Project DELTA was established at Nha Trang in 1964 and consisted of six reconnaissance hunter-killer teams each composed of two United States Special Forces (USSF) and four Army of the Republic of Vietnam Special Forces (LLDB) and later supported by the 91st Ranger battalion. It was designated Detachment B-52, 5th Special Forces Group. DELTA's mission included operational and strategic reconnaissance into long-held Viet Cong areas and the direction of air strikes on them. They were also to conduct bomb damage assessment, conduct small scale reconnaissance and hunter-killer operations, capture and interrogate VC / NVA, tap communications, bug compounds and offices, rescue downed aircrew and prisoners of war, emplace point minefields and other booby traps, conduct psychological operations, and perform counter intelligence operations. They were to focus on base areas and infiltration routes in the border areas. During its storied history, Project DELTA captured or destroyed numerous major enemy installations and supply routes. It was awarded numerous honors including the Valorous Unit Award, RVN Cross of Gallantry, RVN Civil Actions Honor Medal (PC) and the Navy Unit Commendation Ribbon. Project DELTA was deactivated in June of 1970. The successful Long Range Reconnaissance Patrol (LRRP) training program was originally established by Detachment B-52 of the 5th Special Forces Group (Project Delta). The Project Delta course was first established in May 1964 and would eventually evolve into the famous Vietnam RECONDO school. BONUS book: This ebook collection also contains a historical report on Jungle Warfare, written in 1942 just months into the Guadalcanal campaign during
