I used a variety of sources to find the names, years, and values of these products, some of ...

Chronicling the full range of figures which have been available since the inception of Star Wars in 1977, this reference guide contains more than 2000 images, comparing all of the action figure characters with their on-screen counterparts.

"MECCANO to TRILOGO" released in October 2006, was the FIRST book published about Star Wars action figure toys from a European licensee - dedicated to the elusive Meccano line, by the French licensee in 1978, to the European Trilogo line that was available until 1986. It featured yet the most extensive coverage about both toy lines with the whole collections presented for the first time with additional information and photography. This commemorative edition of "MECCANO to TRILOGO" is a reprint of the original long sold-out book released in 2006, now highly prized by collectors. Its original content has been preserved strictly identical in terms of text and pictures; consequently, photographs were not enhanced and some information may appear outdated. The purpose of this reprint is solely to provide a book as a collectible itself. (for added content and coverage of the whole French merchandising, see "La FRENCH TOUCH" book released in 2013)

A not-quite epic science fiction adventure about a down-on-his luck galactic pilot caught in a cross-galaxy struggle for survival! Space travel just isn't what it used to be. With the invention of Quantum Teleportation, space heroes aren't needed anymore. When one particularly unlucky ex-adventurer masquerades as famous pilot and hate figure Jacques McKeown, he's sucked into an ever-deepening corporate and political intrigue. Between space pirates, adorable deadly creatures, and a missing fortune in royalties, saving the universe was never this difficult! From the creator of Mogworld and Jam! Benjamin Richard "Yahtzee" Croshaw is a British-Australian comedic writer, video game journalist, author, and video game developer. He is perhaps best known for his acerbic video game review series, Zero Punctuation, for The Escapist.
