For courses in Java programming A clear and student-friendly way to teach the fundamentals of Java Starting Out with Java: Early Objects, 6th Edition features Tony Gaddis's accessible, step-by-step presentation which helps beginning students understand the important details necessary to become skilled programmers at an introductory level. Gaddis motivates the study of both programming skills and the Java programming language by presenting all the details needed to understand the "how" and the "why"-but never losing sight of the fact that most beginners struggle with this material. His approach is gradual and highly accessible, ensuring that students understand the logic behind developing high-quality programs. In Starting Out with Java: Early Objects,

This book provides a comprehensive and practical guide to using the project approach when teaching young children with special needs. While focusing on children's individual strengths, which include their interests, intelligences, and unique styles of learning, this resource demonstrates teaching strategies that address multiple areas of development. Using scenarios from their own practice, The authors examine the process of accessing children's strengths to facilitate social, emotional, cognitive, and motor development, including concepts and skills. The authors provide tools to determine, organize, and plan with children's strengths and demonstrate the use of documentation as an authentic assessment of children's skills and goals. Teachers will use this book to create learning environments that enrich learning for all children.

"A 22-volume, highly illustrated, A-Z general encyclopedia for all ages, featuring sections on how to use World Book, other research aids, pronunciation key, a student guide to better writing, speaking, and research skills, and comprehensive index"--

In 1998, fiery Eleanor "Els" Gordon thought the new century would find her married to her childhood soul mate, rejuvenating her family's Scottish Highlands estate, and finally earning a managing director title at her investment bank. Maybe she'd even have the courage to discover why her estranged mother ran home to Italy thirty years earlier. But when 2000 dawns, Els is mourning her fiancé and her father, and she's unemployed, broke, and sharing an antique plantation house on the Caribbean

island of Nevis with the ghost—or “jumbie”—of Jack Griggs, the former owner. Jack’s jumbie wangles Els’s help in making amends for wrongs committed during his Casanova life, and in exchange he appoints himself Cupid on behalf of a charter captain who’s as skittish about vulnerability as Els. Meanwhile, Els lures her mother to Nevis in hopes of unraveling the family secrets—but will the shocking truth set her free, or pull her fragile new happiness apart? A moving and lyrical novel that transports readers from lush tropics to rugged highlands and back again, *The Moon Always Rising* explores how the power of forgiveness can help even the most damaged person fix whatever is broken.

Includes an excerpt from *Love on the brain*.

BEST YA BOOKS OF ALL TIME The

extraordinary, beloved novel about the ability of books to feed the soul even in the darkest of times. When Death has a story to tell, you listen. It is 1939. Nazi Germany. The country is holding its breath. Death has never been busier, and will become busier still. Liesel Meminger is a foster girl living outside of Munich, who scratches out a meager existence for herself by stealing when she encounters something she can't resist—books. With the help of her accordion-playing foster father, she learns to read and shares her stolen books with her neighbors during bombing raids as well as with the Jewish man hidden in her basement. In superbly crafted writing that burns with intensity, award-winning author Markus Zusak, author of *I Am the Messenger*, has given
