Through a series of encounters and misunderstandings - from history, psychology and infamous legal cases - Malcolm Gladwell takes us on an intellectual adventure into the darker side of human nature, where strangers are never simple and misreading them can have disastrous consequences. No one challenges our shared assumptions like Malcolm Gladwell. Here he uses stories of deceit and fatal errors to cast doubt on our strategies for dealing with the unknown, inviting us to rethink our thinking in these troubled times.

A tour of the human unconsciousness as defined by contemporary psychology explains that it is comprised of sophisticated mental processes, identifying a gap between self-knowledge and reality, and warning about the dangers of too much introspection. (Psychology & Self-Help)

What does it mean to devote yourself wholly to helping others? In *Strangers Drowning*, Larissa MacFarquhar seeks out people living lives of extreme ethical commitment and tells their deeply intimate stories; their stubborn integrity and their compromises; their bravery and their recklessness; their joys and defeats and wrenching dilemmas. A couple adopts two children in distress. But then they think: If they can change two lives, why not four? Or ten? They adopt twenty. But how do they weigh the needs of unknown children in distress against the needs of the children they already have? Another couple founds a leprosy colony in the wilderness in India, living in huts with no walls, knowing that their two small children may contract leprosy or be eaten by panthers. The children survive. But what if they hadn ' t? How would their parents ' risk have been judged? A woman believes that if she spends money on herself, rather than donate it to buy life-saving medicine, then she ' s responsible for the deaths that result. She lives on a fraction of her income, but wonders: when is compromise self-indulgence and when is it essential? We honor such generosity and high ideals; but when we call people do-gooders there is skepticism in it, even hostility. Why do moral people make us uneasy? Between her stories, MacFarquhar threads a lively history of the literature, philosophy, social science, and self-help that have contributed to a deep suspicion of do-gooders in Western culture. Through its sympathetic and beautifully vivid storytelling, *Strangers Drowning* confronts us with fundamental questions about what it means to be human. In a world of strangers drowning in need, how much should we help, and how much can we help? Is it right to care for strangers even at the expense of those we are closest to? Moving and provocative, *Strangers Drowning* challenges us to think about what we value most, and why.

What if there was something you could do—something simple, yet so powerful—that could positively influence others and change your life in the process? Critically acclaimed author River Jordan discovered that very thing... As 2009 approached, both of River Jordan's sons were about to go off to war—one to Iraq and the other to Afghanistan—and she was planning a family reunion to see them off. All River could do was pray for her sons' safety and hope to maintain her strength, until she unexpectedly came upon the perfect New Year's resolution—one that focused on others instead of herself. She would pray for a complete stranger every single day of the year. In *Praying for Strangers*, Jordan tells that the discovery that she made along the journey was not simply that her prayers touched the lives of these strangers (in often astounding ways), but that the unexpected connections she made with other people would be a profound experience that would change her life forever.

You wake up in the morning to discover that you have been sealed into your home. The doors are locked. The windows are barred. THERE'S NO WAY OUT. A madman is playing a deadly game with you and your family. A game with no rules, only consequences. So what do you do? Do you run? Do you hide? OR DO YOU DIE?
