This book serves as a guide to strategic management accounting. It introduces new and useful concepts on how to collect, analyse, and evaluate options to enable managers to steer corporate directions and write strategic plans for the long-term success of the corporation. Starting with basic techniques and the latest strategic management approaches, the book then presents cases that show the techniques employed step by step. By demonstrating how easily the ideas can be translated into action, it is a valuable resource for business practitioners, as well as for students taking advanced management

accounting courses.

This comprehensive book offers an engaging look into new and traditional strategic management topics. Its thorough coverage helps readers develop an understanding of the wide range of theories and research available in this field—from competitive strategy and industry analysis to environmental trends and ethics. Integration of international issues throughout provides an essential understanding of global economics and its impact on business activities in any location. Chapter topics explore basic concepts in strategic management; corporate governance and social responsibility; environmental scanning and industry analysis; internal scanning and organizational analysis; strategy formulation; strategy implementation; evaluation and control; and strategic issues in managing technology and innovation, entrepreneurial ventures, small businesses, and not-for-profit organizations. For Strategic Planners and Chief Executive Officers.

This book shows how strategic management can be practiced in the context of flexibility. It discusses strategic formulation and implementation perspectives and practices, including vision and mission, general environment analysis, industry analysis, competitive advantage, resource and capability view, generic strategies, business level strategy, corporate level strategy, international strategy, change and turnaround, strategic implementation, and strategic controls, as well as flexibility embedded in these concepts. It can be used as a primary textbook for managerial programs for executives, and as a supplementary case textbook for core MBA courses. Exploring “Strategic Formulation” and “Strategic Implementation” concepts from a flexibility perspective, it is also an excellent companion to leading strategic management textbooks.

For undergraduate and graduate courses in strategy. In today's economy, gaining and sustaining a competitive advantage is harder than ever. Strategic Management captures the complexity of the current business environment and delivers the latest skills and concepts with unrivaled clarity, helping students develop their own cutting-edge strategy through skill-developing exercises. The Fifteenth Edition has been thoroughly updated and revised with current research and concepts. This edition includes 29 new cases and end-of- chapter material, including added exercises and review questions. MyManagementLab for Strategic Management is a total learning package. MyManagementLab is an online homework, tutorial, and assessment program that truly engages students in learning. It helps students better prepare for class, quizzes, and exams-resulting in better performance in the course-and provides educators a dynamic set of tools for gauging individual and class progress.

Most business schools use case studies in their courses. However, these are typically based on past cases and assigned to students to solve. This book describes a new approach for teaching with case studies, which was developed and applied successfully at TUM School of Management. In this approach, student teams write and solve their own case study on a topic concerning current and future businesses. A case can thus be on their own startup or a strategic decision of existing companies. During the course, the students receive intensive coaching while selecting and developing the case topic by the course advisors as well as feedback by industry experts and executives for whom the case is actually a burning question. The authors present 17 cases covering strategic questions for startups and technology companies such as Deutsche Post, BMW, Ryanair, Lufthansa, Stadtwerke München, Fielmann, adidas, Siemens, Caribou Biosciences, eon, Airbus, Unicredit and UBS.

When facing a difficult management challenge, wouldn't it be great if you could turn to a panel of experts to help guide you to the right decision? Now you can, with books from the Judgment Calls series. Drawn from the pages of Harvard Business Review, these interactive, solutions-oriented guides allow readers to access the wisdom of leading experts as they tackle familiar and perplexing business situations. These engagingly written books will help managers improve problem-solving skills and make better judgment calls under fire. A preface provides an overview and sets the context for using these provocative case studies as learning tools in corporate classrooms. A relevant chapter from an HBE volume introduces the topic as a refresher course. Finally, an appendix of resources such as executive summaries, guiding questions, and a list of further reading rounds out the book. Judgment Calls provide insight into a variety of real world difficulties and offer solutions that managers will find both sound and practical. Our ideal reader is the business traveler who's thinking about this very issue, sees the book in the airport, and throws it in his or her briefcase to read on the plane. This volume, tentatively titled "Growing for Broke and Other Stories From the Frontlines of Management" looks at growth strategy. How do you grow your business without sending it flying off the rails? When should you stick to your core? All this and more!

Research paper from the year 2010 in the subject Business economics - Business Management, Corporate Governance, grade: 63%, University of Sunderland, language: English, abstract: The FedEx Corporation founded in 1971 in Memphis is a logistic company which provides transportation, e-commerce, and business services. The company is globally presence in 220 countries and has more than 260,000 employees. In 1973 FedEx introduced the next-day delivery revolutionising the distribution industry. Since the foundation FedEx made large investments in research and development as well as in its logistic infrastructure. As of January 2000, FedEx created a worldwide network consisting of 34,000 drop-off locations, 10 million square feet of warehouse space, 648 aircrafts, and 60,000 vehicles. In addition FedEx introduced several technological innovations which in turn has given the company an enormous competitive advantage. Nevertheless the environment changes constantly due to the increasing number of competitors, financial crisis or globalisation. Due to this strategic management becomes more and more important for FedEx. This report presents a critical analysis and evaluation of the strategic development of the FedEx Corporation. This report is divided into three parts. In the first part the external environment of FedEx is presented within the scope of Porter's five forces. Further Porter's Value Chain techniques will be outlined and their practical relevance to strategic planners at FedEx Corporation will be described. Then the core competencies and capabilities of FedEx between 1973 and 2000 will be identified. At the end of the first part the main advantages and disadvantages of international trade to FedEx Corporation will be mentioned. In the second part Whittington's 'Classical' and 'Evolutionary' Schools of Thought in the context of strategy development at FedEx from 1973 to 2000 will be presented. Last but not least in the third part the implications for strategic management of Stacey's four loops including the rational, the overt politics, the covert politics, and the culture and cognition will be critically evaluated.
