Synchronised swimmers Aquabatique - Britain's Got Talent ... The swimmer realizes that “talent” isn't them, it isn't something they requested, and the praise it receives has nothing to do with anything they have done. It's the talent that did the hard work, the swimmer was just along for the ride. Talent very quickly becomes expectation. “If only” they applied themselves in the pool he or she child would swim faster.

Swimming In The Talent Pool The Evolution Of Recruiting

'Swimming in the Talent Pool: the evolution of recruiting' by Michelle Furyaka with an introduction written by Jonathan Reichenal, Chief Information Officer of the City of Palo Alto, explores the world of contemporary recruiting with a specific focus on the technology sector. The book aims to revive the image of the recruiting firm, with its importance articulated through the candid executive interviews.Michelle Furyaka, the CEO of NPD Global, the New York-based recruitment firm, discusses the widening gaps within the industry and shares her ideas on how best approach these issues. The book is a result of a series of interviews with the leading industry experts, agreeing on the importance of the recruiting firms' future presence and progress. The book raises awareness of the key governmental initiatives improving the conditions of the industry today and stresses the significance of citizen support for these steps. Finally, and most importantly, the project promotes the idea of change from within, seen as the key to the bright future of recruiting.

In Swim Speed Secrets, 4-time Olympian, gold medalist, and triathlon world champion Sheila Taormina reveals the swim technique used by the world's fastest swimmers. Over the course of 4 Olympic Games and throughout her career as a world champion triathlete, Taormina refined her exceptional technique as a student of the sport, studying the world's best swimmers using underwater photographs and video analysis. From Johnny Weissmuller to Michael Phelps, the world's fastest swimmers share two common elements: high stroke rate and a high-elbow underwater pull. Many swimmers and triathletes neglect the underwater pull, distracted by stroke count or perfecting less critical details like body position, streamlining, and roll. Swim Speed Secrets focuses on producing power—the most crucial element of swimming—to help triathletes and swimmers overhaul their swim stroke and find the speed that's been eluding them. With a commonsense approach that comes from decades of practice and years of hands-on coaching experience, Taormina shows swimmers how to transition to faster swimming. Swim Speed Secrets includes: The best drills to cultivate a more sensitive feel for the water Dryland and strength building exercises to develop arm position and upper body musculature Crisp photos of Olympic swimmers and variations in their high-elbow underwater pull Clear descriptions of the key moments of the underwater pull Tips that helped her perform at a world-class level for two decades Sheila Taormina's Swim Speed Secrets brings the focus back where it belongs—to a powerful underwater stroke. With this approach, triathletes and swimmers can stop swimming for survival and break through to new levels of speed and confidence in the water.

An individual sport at its core, swimming is defined by iconic rivalries such as those between Ian Thorpe and Grant Hackett, Michael Phelps and Ryan Lochte, and Jenny Thompson and Dara Torres. Spanning nearly 100 years, this book highlights the best of these contests, including individual showdowns, team battles, friendly competitions, and heated political rivalries. From their early beginnings through the highlights of their careers, this book follows the top athletes in the sport and the rivals who pushed them to the pinnacle of swimming. Exhaustively researched, Duels in the Pool includes original interviews and rich details, shining a light on some of the sport's finest athletes and the rivalries that propelled them to greatness. This book will appeal not only to sports historians and researchers but also to fans of swimming at every level.

Winner of the 2012 National Book Critics Circle Award, Autobiography Swimming Studies is a brilliantly original, meditative memoir that explores the worlds of competitive and recreational swimming. From her training for the Olympic trials as a teenager to enjoying pools and beaches around the world as an adult, Leanne Shapton offers a fascinating glimpse into the private, often solitary, realm of swimming. Her spare and elegant writing reveals an intimate narrative of suburban adolescence, spent underwater in a discipline that continues to inspire Shapton's work as an artist and author. Her illustrations throughout the book offer an intuitive perspective on the landscapes and imagery of the sport. Shapton's emphasis is on the smaller moments of athletic pursuit rather than its triumphs. For the accomplished athlete, aspiring amateur, or habitual practitioner, this remarkable work of written and visual sketches propels the reader through a beautifully personal and universally appealing exercise in reflection.

Commodified and Criminalized examines the centrality of sport to discussions of racial ideologies and racist practices in the 21st century. It disputes familiar refrains of racial progress, arguing that athletes sit in a contradictory position masked by the logics of new racism and dominant white racial frames. Contributors discuss athletes ranging from Tiger Woods and Serena Williams to Freddy Adu and Shani Davis. Through dynamic case studies, Commodified and Criminalized unpacks the conversation between black athletes and colorblind discourse, while challenging the assumptions of contemporary sports culture. The contributors in this provocative collection push the conversation beyond the playing field and beyond the racial landscape of sports culture to explore the connections between sports representations and a broader history of racialized violence.

Pooling Talent highlights relay teams, squads, and programs spanning nearly a century of competitive swimming. From the 1976 U.S. Women's 400 Freestyle relay to the 2001 Australian squad, and even including the North Baltimore Aquatic Club that has trained some of swimming's top athletes, Matthew De George details these amazing assemblages of talent. De George delves into the intricate interplay between team and individual success, how four opponents can mesh quickly into a team and meet the challenges of performing as one. Certain accomplishments, even by some of the most illustrious names in the lexicon of swimming greats, can only be explained through the lens of the teams supporting them—Michael Phelps would never have earned a record eight gold medals in the 2008 Olympics were it not for his teammates' world-record setting efforts in the 400 freestyle. Each chapter in Pooling Talent examines a separate relay team, national squad, or program, profiling the top swimmers, detailing their best moments, and examining what made that team so successful. Extensively researched, this book takes a novel look at swimming accomplishments old and new, casting the accolades of individuals in a fresh light.

Includes expert advice on changing direction in your career Get out of the rut and into your dream job This hands-on guide takes you through every aspect of finding and securing the job you want. Discover how to: Find the job that's right for you Write a knockout CV and cover letter Prepare for the interview Give a great presentation Build your confidence and develop a successful outlook

This book offers a critical survey of film and media representations of black masculinity in the early twenty-first-century United States, between President George W. Bush's 2001 announcement of the War on Terror and President Barack Obama's 2009 acceptance of the Nobel Peace Prize. It argues that images of black masculine authority have become increasingly important to the legitimization of contemporary policing and its leading role in the maintenance of an antiblack social order forged by racial slavery and segregation. It examines a constellation of film and television productions—from Antoine Fuqua's Training Day to John Lee Hancock's The Blind Side to Barry Jenkin's Moonlight—to illuminate the contradictory dynamics at work in attempts to reconcile the promotion of black male patriarchal empowerment and the preservation of gendered antiblackness within political and popular culture.

Swimming has been an Olympic sport since the inception of the modern Games, originating with the 100, 400, and 1500 freestyle events, and the 100 freestyle for sailors. Although the spirit of the sport remains, the technology and competitive formats have advanced tremendously through the years. The number of events has increased to the point where the sport produces a true reflection of the world's best swimmers when competing in various distances and performing different strokes. Historical Dictionary of Competitive Swimming examines the sport since its inception as an athletic event through a chronology, an introductory essay, a bibliography, and appendixes that detail Olympic and World Championships medal winners. The dictionary section contains more than 500 cross-referenced entries on individuals, major competitions, competitive strokes, and countries that have enjoyed significant success in the sport.
