before it was codified,
was to preserve peaceful
cohabitation between
people who were
exposed to the risk of
destructive conflict. Just
as the human body's

the organism from
deadly incursions by
viruses and other
threats, law also ensures
the survival of the
community in a life-

threatening situation. It protects and prolongs life. But the function of law as a form of immunization points to a more disturbing consideration. Like the individual body, the collective body can be immunized from the perceived danger only by allowing a little of what threatens it to enter its protective

boundaries. This means that in order to escape the clutches of death, life is forced to

incorporate within itself the lethal principle.

Starting from this reflection on the nature of immunization,

Esposito offers a wide-ranging analysis of contemporary

biopolitics. Never more than at present has the

Gendered and sexual identities are unstable constructions which reveal a great deal about

the ideologies and power relationships affecting individuals and societies. The

interaction between gender/sex studies and translation studies points to a fascinating arena of discursive conflict in which our
