In Team Rodent: How Disney Devours the World, Hiaasen paints a witty and sarcastic portrait in this nonfiction account of a company who can control the press, manipulate local governments, and because it's Disney, get away with it. Team Rodent is a quick, entertaining read that even the most loyal Disney shareholder (except maybe Michael Eisner) will find enlightening and amusing.

Disney resort seems like a verdant sanctuary. That was the plan, of course—Team Rodent left the park buffered with thousands of unspoiled acres, to keep the charmless roadside schlock at bay. As Orlando exploded, business leaders (and therefore politicians) throughout the rest of Florida watched and plotted with envy.

"Disney is so good at being good that it manifests an evil; so uniformly efficient and courteous, so dependably clean and conscientious, so unfailingly entertaining that it's unreal, and therefore is an agent of pure wickedness. . . . Disney isn't in the business of exploiting Nature so much as striving to improve upon it, constantly fine-tuning God's work." --from TEAM RODENT TEAM RODENT How Disney Devours America "Revulsion is good. Revulsion is healthy. Each of us has limits, unarticulated boundaries of taste and tolerance, and sometimes we forget where they are. Peep Land is here to remind us; a fixed compass point by which we can govern our private behavior. Because being grossed out is essential to the human experience; without a perceived depravity, we'd have nothing against which to gauge the advance or decline of culture; our art, our music, our cinema, our books. Without sleaze, the yardstick shrinks at both ends. Team Rodent doesn't believe in sleaze, however, nor in old-fashioned revulsion. Square in the middle is where it wants us all to be, dependable consumers with predictable attitudes. The message, never stated but avuncularly implied, is that America's values ought to reflect those of the Walt Disney Company, and not the other way around." BONUS: This edition includes an excerpt from Carl Hiaasen's Bad Monkey.

"Ruthlessly wicked...Wonderful...His best book yet." ATLANTA JOURNAL & CONSTITUTION When the precious clue-tongued mango voles at the Amazing Kingdom of Thrills on North Key Largo are stolen by heartless, ruthless thugs, Joe Winder wants to uncover why, and find the voles. Joe is lately a PR man for the Amazing Kingdom theme park, but now that the voles are gone, Winder is dragged along in their wake through a series of weird and lethal events that begin with the sleazy real-estate agent/villain Francis X. Kingsbury and can end only one way.... BONUS: This edition includes an excerpt from Carl Hiaasen's Bad Monkey.

Carl Hiaasen takes us deep in the Everglades with an eccentric eco-avenger, a ticked-off panther, and two kids on a mission to find their missing teacher. Florida—where the animals are wild and the people are wilder! Bunny Starch, the most feared biology teacher ever, is missing. She disappeared after a school field trip to Black Vine Swamp. And, to be honest, the kids in her class are relieved. But when the principal tries to tell the students that Mrs. Starch has been called away on a "family emergency," Nick and Marta just don't buy it. No, they figure the class delinquent, Smoke, has something to do with her disappearance. And he does! But not in the way they think. There's a lot more going on in Black Vine Swamp than any one player in this twisted tale can see. It's all about to hit the fan, and when it does, the bad guys better scat. "Ingenious . . . Scat won't disappoint Hiaasenphiles of any age." —The New York Times "Woohoo! It's time for another trip to Florida—screwy, gorgeous Florida, with its swamps and scammers and strange creatures (two- and four-legged). Our guide, of course, is Carl Hiaasen." —DenverPost.com

The "Miami Herald" columnist shares his best comic work, covering everything from sports and tourism to corruption in local politics, the Elian Gonzalez affair, and the 2000 presidential election recount.

Chaz Perrone might be the only marine scientist in the world who doesn't know which way the Gulf Stream runs. He might also be the only one who went into biology just to make a killing, and now he's found a way—doctoring water samples so that a ruthless agribusiness tycoon can continue illegally dumping fertilizer into the endangered Everglades. When Chaz suspects that his wife, Joey, has figured out his scam, he pushes her overboard from a cruise liner into the night-dark Atlantic. Unfortunately for Chaz, his wife doesn't die in the fall. Clinging blindly to a bale of Jamaican pot, Joey Perrone is plucked from the ocean by former cop and current loner Mick Stranahan. Instead of rushing to the police and reporting her husband's crime, Joey decides to stay dead and (with Mick's help) screw with Chaz until he screws himself. As Joey haunts and taunts her homicidal husband, as Chaz's cold-blooded cohorts in pollution grow uneasy about his ineptitude and increasingly erratic behavior, as Mick Stranahan discovers that six failed marriages and years of island solitude haven't killed the reckless romantic in him, we're taken on a hilarious, full-throttle, pure Hiaasen ride through the warped politics and mayhem of the human environment, and the human heart. BONUS: This edition includes an excerpt from Carl Hiaasen's Bad Monkey.

A hilarious, high-stakes adventure involving crooked casino boats, floating fish, toxic beaches, and one kid determined to get justice. This is Carl Hiaasen's Florida—where the creatures are wild and the people are wilder! You know it's going to be a rough summer when you spend Father's Day visiting your dad in the local lockup. Noah's dad is sure that the owner of the Coral Queen casino boat is flushing raw sewage into the harbor—which has made taking a dip at the local beach like swimming in a toilet. He can't prove it though, and so he decides that sinking the boat will make an effective statement. Right. The boat is pumped out and back in business within days and Noah's dad is stuck in the clink. Now Noah is determined to succeed where his dad failed. He will prove that the Coral Queen is dumping illegally . . . somehow. His allies may not add up to much—his sister Abbey, an unreformed childhood biter; Lice Peeking, a greedy sot with poor hygiene; Shelly, a bartender and a woman scorned; and a mysterious pirate—but Noah's got a plan to flush this crook out into the open. A plan that should sink the crooked little casino, once and for all.

When the difficult star of the reality television show "Expedition Survival" disappears while filming an episode in the Florida Everglades using animals from the wildlife refuge run by Wahoo Crane's family, Wahoo and classmate Tuna Gordon set out to find him while avoiding Tuna's gun-happy father.

When Palmer Stoat notices the black pickup truck following him on the highway, he fears his precious Range Rover is about to be carjacked. But Twilly Spree, the man tailing Stoat, has vengeance, not sport-utility vehicles, on his mind. Idealistic, independently wealthy and pathologically short-tempered, Twilly has dedicated himself to saving Florida's wilderness from runaway destruction. He favors unambiguous political statements -- such as torching Jet-Skis or blowing up banks -- that leave his human targets shaken but re-educated. After watching Stoat blithely dump a trail of fast-food litter out the window, Twilly decides to teach him a lesson. Thus, Stoat's prized Range Rover becomes home to a horde of hungry dung beetles. Which could have been the end to it had Twilly not discovered that Stoat is one of Florida's cockiest and most powerful political fixers, whose latest project is the "malling" of a pristine Gulf Coast island. Now the real Hiaasen-variety fun begins . . . Dognapping eco-terrorists, bogus big-time hunters, a Republicans-only hooker, an infamous ex-governor who's gone back to nature, thousands of singing toads and a Labrador retriever greater than the sum of his Labrador parts -- these are only some of the denizens of Carl Hiaasen's outrageously funny new novel. Brilliantly twisted entertainment wrapped around a powerful ecological plea, Sick Puppy gleefully lives up to its title and gives us Hiaasen at his riotous and muckraking best. BONUS: This edition includes an excerpt from Carl Hiaasen's Bad Monkey.

Reprint. Originally published: c2002.

This thought-provoking and timely book from a #1 New York Times bestselling novelist and noted child psychologist reveals the factors that often lead to explosive and shocking juvenile violence. "Ethically and morally, kids are works in progress. Throw in psychopathy and you've got a soul that will never be complete." In this powerful, disturbing book, bestselling author and noted child psychologist Jonathan Kellerman shines a penetrating light on antisocial youth—kids who kill without remorse—asserting that "psychopathic tendencies begin very early in life, as young as three, and they endure." Criticizing our quick impulse to blame violent movies or a "morally bankrupt" society, Kellerman convinces us that it is the kids themselves who need to be examined. Carefully. How do children become cold-blooded killers? Kellerman warns that today's aggressive bully is tomorrow's Mafia don, cult leader, or genocidal dictator. Violently psychopathic youths possess an overriding need for power, control, and stimulation, and all display a complete lack of regard for the humanity of others. He examines the origins of psychopathy and the ever-shifting debate between nurture and nature, offering some controversial solutions to dealing with homicidal tendencies in children. As timely as today's headlines, more gripping than fiction, Savage Spawn is a provocative look at the links between society and biology, children and violence. Kellerman's sobering message will remain with you long after the last page is turned. BONUS: This edition includes an excerpt from Jonathan Kellerman's Guilt.
