Since the dawn of civilization, we've been asking ourselves what it means to live a good life: how should I live, what will truly make be happy, how much should I earn, how should I spend my time? In The Art of the Good Life, you'll find fifty-two intellectual shortcuts for wiser thinking and better decisions, at home and at work. They may not guarantee you a good life, but they'll give you a better chance.

Since antiquity, people have been asking themselves what it means to live a good life. How should I live? What constitutes a good life? What's the role of fate? What's the role of money? Is leading a good life a question of mindset, or is it more about reaching your goals? Is it better to actively seek happiness or to avoid unhappiness? Each generation poses these questions anew, and somehow the answers are always fundamentally disappointing. Why? Because we're constantly searching for a single principle, a single tenet, a single rule. Yet this holy grail--a single, simple path to happiness--doesn't exist. Rolf Dobelli--successful businessman, founder of the TED-style ideas conference Zurich Minds, bestselling author, and all-around seeker of big ideas--has made finding a shortcut to happiness his life's mission. He's synthesized the leading thinkers and the latest

Focus is natural. We are born with an instinct to focus on exactly what we want and a very strong pair of lungs to help us to get it. Then, somewhere along the way, we begin to lose that focus. In the digital age we are bombarded with information from all angles and live our lives at such a breakneck pace that it sometimes seems that our lives are completely out of our control. In three easy steps this book teaches the reader how to regain control through the art of clear thinking: 1) FOCUS eliminate information overload 2) TRANSFORM negative thinking into positive action 3) THINK CLEARLY in the moment The author shows how you can use this strategy to achieve your goals in work and in life.
