Fifteen children from a school in North Carolina offer short passages in prose and verse that explain why they prefer their eyes, feet, hands, and other body parts, with accompanying photographs of that particular area.

WITH FEATURETTES FROM NICHOLAS SPARKS AND THE MOVIE CAST, DELETED SCENES, MUSIC VIDEO, AND MORE! IN THEATERS OCTOBER 17, 2014! Starring Michelle Monaghan, James Marsden, Luke Bracey, and Liana Liberato "Everyone wanted to believe that endless love was possible. She'd believed in it once, too, back when she was eighteen." In the spring of 1984, high school students Amanda Collier and Dawson Cole fell deeply, irrevocably in love. Though they were from opposite sides of the tracks, their love for one another seemed to defy the realities of life in the small town of Oriental, North Carolina. But as the summer of their senior year came to a close, unforeseen events would tear the young couple apart, setting them on radically divergent paths. Now, twenty-five years later, Amanda and Dawson are summoned back to Oriental for the funeral of Tuck Hostetler, the mentor who once gave shelter to their high school romance. Neither has lived the life they imagined . . . and neither can forget the passionate first love that forever changed their lives. As Amanda and Dawson carry out the instructions Tuck left behind for them, they realize that everything they thought they knew -- about Tuck, about themselves, and about the dreams they held dear -- was not as it seemed. Forced to confront painful memories, the two former lovers will discover undeniable truths about the choices they have made. And in the course of a single, searing weekend, they will ask of the living, and the dead: Can love truly rewrite the past?

It's an inconvenient time for Sinter Blackwell to realize he's bisexual. He's a 25-year-old American actor working in London, living far away from his disapproving parents in the Pacific Northwest, and enjoying a flirtation with his director Fiona. But he can't deny that his favorite parts of each day are the messages from his gay best friend Andy in Seattle—whom Sinter once kissed when they were 15.Finally he decides to return to America to visit Andy and discover what's between them, if anything. He isn't seeking love, and definitely doesn't want drama. But both love and drama seem determined to find him. Family complications soon force him into the most consequential decisions of his life, threatening all his most important relationships: with Andy, Fiona, his parents, and everyone else who's counting on him. Choosing the right role to play has never been harder.

“ Genius... It is miraculous to read these pieces... You must read The Best of Me. ” —Andrew Sean Greer, New York Times Book Review A New York Times Book Review Editors ’ Choice A CNN and Christian Science Monitor Best Book of the Month For more than twenty-five years, David Sedaris has been carving out a unique literary space, virtually creating his own genre. A Sedaris story may seem confessional, but is also highly attuned to the world outside. It opens our eyes to what is at absurd and moving about our daily existence. And it is almost impossible to read without laughing. Now, for the first time collected in one volume, the author brings us his funniest and most memorable work. In these stories, Sedaris shops for rare taxidermy, hitchhikes with a lady quadriplegic, and spits a lozenge into a fellow traveler ’ s lap. He drowns a mouse in a bucket, struggles to say “ give it to me ” in five languages, and hand-feeds a carnivorous bird. But if all you expect to find in Sedaris ’ s work is the deft and sharply observed comedy for which he became renowned, you may be surprised to discover that his words bring more warmth than mockery, more fellow-feeling than derision. Nowhere is this clearer than in his writing about his loved ones. In these pages, Sedaris explores falling in love and staying together, recognizing his own aging not in the mirror but in the faces of his siblings, losing one parent and coming to terms—at long last—with the other. Taken together, the stories in TheBest of Me reveal the wonder and delight Sedaris takes in the surprises life brings him. No experience, he sees, is quite as he expected—it ’ s often harder, more fraught, and certainly weirder—but sometimes it is also much richer and more wonderful. Full of joy, generosity, and the incisive humor that has led David Sedaris to be called “ the funniest man alive ” (Time Out New York), The Best of Me spans a career spent watching and learning and laughing—quite often at himself—and invites readers deep into the world of one of the most brilliant and original writers of our time.

The lives of four generations of one Louisiana family, woven together by a master storyteller Tracing a family's roots is like taking a journey through the years. In the case of one Louisiana family, that journey can be charted by the books they read and loved. The journey begins in 1939 with Rose, who moves with her mother and siblings from rural Texas to live with their estranged grandfather in the Louisiana bayou. Rose connects with this flavorful community through her love of books and by driving a bookmobile. Two decades later, Merle Henry, Rose's son, is more passionate about trapping a mink than about reading, although there is a place in his heart for Old Yeller. In 1973, Merle Henry's daughter, Annabeth, feels torn between reading fairy tales and a crush on a real-life knight in shining armor. And in the present day, Annabeth's son, Kyle, finds himself in a bind: he hates reading, but the only summer job he can get is at the library. In her people-smart way, Kimberly Willis Holt introduces us to a Louisiana family: touching, lyrical, and always intriguing, their stories reveal the powerful connections between four generations. Part of Me is a 2007 Bank Street - Best Children's Book of the Year.

This is the first book published by Mr. Mault's 2018-2019 third grade class. The poems in this book explain why we should ALL be proud of who we are. We are unique. We are special. We are AMAZING. We ALL need to be proud of who we are, both on the inside and the outside.

Beth cherished her childhood summers on a pristine northern Canadian lake, where she reveled in the sweet smell of dew on early morning hikes, the loons ’ evening trills across the lake ’ s many bays, every brush stroke of her brother ’ s paintings celebrating their cherished place, and their grandfather ’ s laughter as he welcomed neighbors to their annual Welsh harvest celebration. Theirs was an unshakeable bond with nature, family, and friends, renewed every summer on their island of granite and pines. But that bond was threatened and then torn apart, first as rights to their island were questioned and then by nature itself, and the family was forced to leave. Fourteen years later, Beth has created a new life in urban Chicago. There, she ’ s erected a solid barrier between the past and present, no matter how much it costs—until her grandfather asks her to return to the island to determine its fate. Will she choose to preserve who she has become, or risk everything to discover if what was lost still remains? The Best Part of Us will immerse readers in a breathtaking natural world, a fresh perspective on loyalty, and an exquisite ode to the essential roles that family, nature, and place hold in all of our lives.

Alison has been in her brother's indie rock band, Right Turn, since she was a teenager. Right as she's about to graduate college and will have to start making real decisions about her future, there comes an offer for them to go on a small tour with pop-country sensation Kristen Nichols, who is looking to make serious changes to her sound and image and believes touring with indie darlings Right Turn will give the new 'her' credibility. Kristen Nichols is the embodiment of everything about the music industry that Ali scoffs at, but she's offering them an affordable, real tour, and that's very hard to say no to. Putting up with a pop princess for a summer is a price worth paying--or so Ali thinks before she actually meets Kristen. 'K-Nic' does absolutely nothing for her, but Kristen Nichols in person? Yeah, that's a different story...

This collection of essays is about people. My people. In the midst of a pandemic, I am even more aware of the importance of my people- and time. There are friends I consider family who live in Europe and I have no idea when I will be allowed to see them again. There is family in the south and I long for their company. There is a biological relation who I will never see again. There are mentors who literally changed my life, and students whose impact never left. There are New Yorkers and Floridians, and there is immeasurable loss. What you get to take with you when you leave this earth is the following: what you did, how you lived, who you loved, who loved you. All the people that made you - for better or worse - who you are. People matter. To me. People matter, and time: the finite time you have with your people, and the finite time they have with you.
