History notes that the ugly feud between J. Edgar Hoover and Martin Luther King, Jr., marked by years of illegal surveillance and the accumulation of secret files, ended on April 4, 1968 when King was assassinated by James Earl Ray. But that may not have been the case. Now, fifty years later, former Justice Department agent, Cotton Malone, must reckon with the truth of what really happened that fateful day in Memphis. It all turns on an incident from eighteen years ago, when Malone, as a young Navy lawyer, is trying hard not to live up to his burgeoning reputation as a maverick. When Stephanie Nelle, a high-level Justice Department lawyer, enlists him to help with an investigation, he jumps at the opportunity. But he soon discovers that two opposing forces—the Justice Department and the FBI—are at war over a rare coin and a cadre of secret files containing explosive revelations about the King assassination, information that could ruin innocent lives and threaten the legacy of the civil rights movement's greatest martyr. Malone's decision to see it through to the end — from the raucous bars of Mexico, to the clear waters of the Dry Tortugas, and ultimately into the halls of power within Washington D.C. itself — not only changes his own life, but the course of history.

But that may not have been the case. Now, fifty years later, former Justice Department agent Cotton Malone must reckon with what really happened on that fateful day in Memphis. It all turns on an incident from eighteen years ago, when Malone, a young Navy lawyer trying hard not to live up to his maverick reputation, is asked by Stephanie Nelle at the Justice Department to help with an investigation. He soon discovers that the Department and the FBI are at war over a hugely valuable rare coin - and a cache of secret files containing explosive revelations about the King assassination, information that could ruin innocent lives and threaten the legacy of the civil rights movement's greatest martyr. Malone's decision to see his first case through to the end - from the clear waters of the Dry Tortugas to the halls of power in Washington D.C. itself - not only changes his own life, but the course of history.

In New York Times bestseller Steve Berry's latest Cotton Malone adventure, a secret dossier from a World War II-era Soviet spy comes to light containing information that, if proven true, would not only rewrite history — it could impact Germany's upcoming national elections and forever alter the political landscape of Europe. Two candidates are vying to become Chancellor of Germany. One is a patriot having served for the past sixteen years, the other a usurper, stoking the flames of nationalistic hate. Both harbor secrets, but only one knows the truth about the other. They are on a collision course, all turning on the events of one fateful day — April 30, 1945 — and what happened deep beneath Berlin in the Führerbunker. Did Adolph Hitler and Eva Braun die there? Did Martin Bormann, Hitler's close confidant, manage to escape? And, even more important, where did billions in Nazi wealth disappear to in the waning days of World War II? The answers to these questions will determine who becomes the next Chancellor of Germany. From the mysterious Chilean lake district, to the dangerous mesas of South Africa, and finally into the secret vaults of Switzerland, former-Justice Department agent Cotton Malone discovers the truth about the fates of Hitler, Braun, and Bormann. Revelations that could not only transform Europe, but finally expose a mystery known as the Kaiser's web.

"The result is a thriller that intrigues and provides historical context. Berry is the master scientist with a perfect formula." — Associated Press One of USA Today's "Five Books Not to Miss!" A deadly race for the Vatican's oldest secret fuels New York Times bestseller Steve Berry's latest international Cotton Malone thriller. The pope is dead. A conclave to select his replacement is about to begin. Cardinals are beginning to arrive at the Vatican, but one has fled Rome for Malta in search of a document that dates back to the 4th century and Constantine the Great. Former justice Department operative, Cotton Malone, is at Lake Como, Italy, on the trail of legendary letters between Winston Churchill and Benito Mussolini that disappeared in 1945 and could re-write history. But someone else seems to be after the same letters and, when Malone obtains them loses them, he's plunged into a hunt that draws the attention of the legendary Knights of Malta. The knights have existed for over nine hundred years, the only warrior-monks to survive into modern times. Now they are a global humanitarian organization, but within their ranks lurks trouble — the Secreti — an ancient sect intent on affecting the coming papal conclave. With the help of Magellan Billet agent Luke Daniels, Malone races the rogue cardinal, the knights, the Secreti, and the clock to find what has been lost for centuries. The final confrontation culminates behind the walls of the Vatican where the election of the next pope hangs in the balance.

The Knights of the Golden Circle was the largest and most dangerous clandestine organization in American history. It amassed billions in stolen gold and silver, all buried in hidden caches across the United States. Since 1865 treasure hunters have searched, but little of that immense wealth has ever been found. Now, one hundred and sixty years later, two factions of what remains of the Knights of the Golden Circle want that lost treasure—one to spend it for their own ends, the other to preserve it. Thrust into this battle is former Justice Department agent Cotton Malone, whose connection to the knights is far deeper than he ever imagined. At the center is the Smithsonian Institution—linked to the knights, its treasure, and Malone himself through an ancestor, a Confederate spy named Angus "Cotton" Adams, whose story holds the key to everything. Complicating matters are the political ambitions of a reckless Speaker of the House and the bitter widow of a United States Senator, who together are planning radical changes to the country. And while Malone and Cassiopeia Vitt face the past, ex-president Danny Daniels and Stephanie Nelle confront a new and unexpected challenge, a threat that may cost one of them their life. From the backrooms of the Smithsonian to the deepest woods in rural Arkansas, and finally up into the rugged mountains of northern New Mexico, The Lost Order by Steve Berry is a perilous adventure into our country's dark past, and a potentially even darker future.

The electrifying new Cotton Malone thriller by international bestseller Steve Berry. People say the Cold War is coming back. For some, it never went away. Shot down over Siberia in what was to be a simple meet-and-greet mission, ex-Justice Department agent Cotton Malone is forced into a fight for survival against Aleksandr Zorin, whose loyalty to the former Soviet Union has festered for decades into an intense hatred of the United States. Before escaping, Malone learns that Zorin is headed for North America to join another long-term sleeper embedded in the West. Armed with a Soviet weapon long thought to be just a myth, Zorin is aided by a shocking secret hidden in the archives of America's oldest fraternal organization, the Society of Cincinnati. Past presidents used this group's military offensive - including advice on the invasion of what was to be America's 14th Colony - Canada. Inauguration Day for a new President of the U.S.A. is only hours away. Zorin's deadly plan is timed to bring about political chaos. In a race against the clock from Russia to the White House itself, Malone must not only battle Zorin, he must also confront his deepest fear, a crippling weakness that he's long denied but one that now jeopardizes everything. Steve Berry's trademark mix of fact, fiction, history and speculation is all here in this fast-paced and utterly compelling new thriller.

A tale inspired by debates surrounding 16th Amendment tax collection practices finds Cotton Malone pulled out of retirement to track a rogue North Korean who may have acquired top-secret Treasury Department files capable of decimating the U.S. economy. By the New York Times best-selling author.

In New York Times bestseller Steve Berry's latest Cotton Malone adventure, one by one the seven precious relics of the Arma Christi, the weapons of Christ, are disappearing from sanctuaries across the world. After former Justice Department agent Cotton Malone witnesses the theft of one of them, he learns from his old boss, Stephanie Nelle, that a private auction is about to be held where incriminating information on the president of Poland will be offered to the highest bidder—blackmail that both the United States and Russia want, but for vastly different reasons. The price of admission to that auction is one of the relics, so Malone is first sent to a castle in Poland to steal the Holy Lance, a thousand-year-old spear sacred to not only Christians but to the Polish people, and then on to the auction itself. But nothing goes as planned and Malone is thrust into a bloody battle between three nations over information that, if exposed, could change the balance of power in Europe. From the tranquil canals of Bruges, to the elegant rooms of Wawel Castle, to deep beneath the earth into an ancient Polish salt mine, Malone is caught in the middle of a deadly war—the outcome of which turns on a secret known as the Warsaw Protocol.
