Cambridge Core - Renaissance and Early Modern Literature - A Guide to Neo-Latin Literature - edited by Victoria Moul

A Guide to Neo-Latin Literature edited by Victoria Moul

Find The Cambridge Guide To English Literature by Stapleton, Michael at Biblio. Uncommonly good collectible and rare books from uncommonly good booksellers

A reference guide to world literature in English includes information on writers, works, genres, and movements.

New York holds a special place in America's national mythology as both the gateway to the USA and as a diverse, vibrant cultural center distinct from the rest of the nation. From the international atmosphere of the Dutch colony New Amsterdam, through the expansion of the city in the nineteenth century, to its unique appeal to artists and writers in the twentieth, New York has given its writers a unique perspective

on American culture. This Companion explores the range of writing and performance in the city, celebrating Herman Melville, Walt Whitman, Edith Wharton, Eugene O'Neill, and Allen Ginsberg among a host of authors who have contributed to the city's rich literary and cultural history. Illustrated and featuring a chronology and guide to further reading, this book is the ideal guide for students of American literature as well as for all who love New York and its writers.

This 2004 volume offers an introduction to British literature that challenges the traditional divide between eighteenth-century and Romantic studies. Contributors explore the development of literary genres and modes through a period of rapid change. They show how literature was shaped by historical factors including the development of the book trade, the rise of literary criticism and the expansion of commercial society and empire. The first part of the volume focuses on broad themes including taste and aesthetics, national identity and empire, and key cultural trends such as sensibility and the gothic. The second part pays close attention to the work of individual writers including Sterne, Blake, Barbauld and Austen, and to the role of literary schools such as the Lake and Cockney schools. The wide scope of the collection, juxtaposing canonical authors with those now gaining new attention from scholars, makes it essential reading for students of eighteenth-century literature and Romanticism.

Diverse, vibrant, and challenging as the city itself, this Companion is the definitive guide to LA in literature.

This volume is a reference source to literature in the English language throughout the world. It provides a survey of the world-wide literary tradition of this area, and offers explanations of genres, movements, critical terms and literary concepts.

Some of the most innovative and spell-binding literature has been written for young people, but only recently has academic study embraced its range and complexity. This Companion offers a state-of-the-subject survey of English-language children's literature from the seventeenth century to the present. With discussions ranging from eighteenth-century moral tales to modern fantasies by J. K. Rowling and Philip Pullman, the Companion illuminates acknowledged classics and many more neglected works. Its unique structure means that equal consideration can be given to both texts and contexts. Some chapters analyse key themes and major genres, including humour, poetry, school stories, and picture books. Others explore the sociological dimensions of children's literature and the impact of publishing practices. Written by leading scholars from around the world, this Companion will be essential reading for all students and scholars of children's literature, offering original readings and new research that reflects the latest developments in the field.

From catastrophe to utopia, the most comprehensive survey yet of how literature can speak to the 'Anthropocene'.

This Companion has been thoroughly revised to take account of recent scholarship and to provide a clear and accessible introduction for those encountering Old English literature for the first time. Including seventeen essays by distinguished scholars, this new edition provides a discussion of the literature of the period 600 to 1066 in the context of how Anglo-Saxon society functioned. New chapters cover topics including preaching and teaching, Beowulf and literacy, and a further five chapters have been revised and updated, including those on the Old English language, perceptions of eternity and Anglo-Saxon learning. An additional concluding chapter on Old English after 1066 offers an overview of the study and cultural influences of Old English literature to the present day. Finally, the further reading list has been overhauled to incorporate the most up-to-date scholarship in the field and the latest electronic resources for students.

This Companion rethinks food in literature from Chaucer's Canterbury Tales to contemporary food blogs, and recovers cookbooks as literary texts.
