There was once an emperor who was only interested in one thing, his clothes. He spent all his money on his outfits and had a different one for every time of day and every occasion. One day, two thieves arrived in town pretending to be weavers who knew how to make the most beautiful and sophisticated fabrics, which had the marvellous property of only being visible to those who did their job well.. Celebrated for children ' s literature, his most cherished fairy tales include "The Emperor's New Clothes", "The Little Mermaid", "The Nightingale", "The Steadfast Tin Soldier", "The Snow Queen", "The Ugly Duckling" and "The Little Match Girl". His books have been translated into every living language, and today there is no child or adult that has not met Andersen's whimsical characters. His fairy tales have been adapted to stage and screen countless times, most notably by Disney with the animated films "The Little Mermaid" in 1989 and "Frozen", which is loosely based on "The Snow Queen", in 2013. Thanks to Andersen's contribution to children's literature, his birth date, April 2, is celebrated as International Children's Book Day.

A prominent authority on China ' s Belt and Road Initiative reveals the global risks lurking within Beijing ' s project of the century China ' s Belt and Road Initiative is the world ' s most ambitious and misunderstood geoeconomic vision. To carry out President Xi Jinping ' s flagship foreign-policy effort, China promises to spend over one trillion dollars for new ports, railways, fiber-optic cables, power plants, and other connections. The plan touches more than one hundred and thirty countries and has expanded into the Arctic, cyberspace, and even outer space. Beijing says that it is promoting global development, but Washington warns that it is charting a path to global dominance. Taking readers on a journey to China ' s projects in Asia, Europe, and Africa, Jonathan E. Hillman reveals how this grand vision is unfolding. As China pushes beyond its borders and deep into dangerous territory, it is repeating the mistakes of the great powers that came before it, Hillman argues. If China succeeds, it will remake the world and place itself at the center of everything. But Xi may be overreaching: all roads do not yet lead to Beijing.
