Few things in life are better than successfully conducting a blistering attack on your opponent's King! But how good are you actually at attacking? Have you ever analysed your efforts? Looked at calculation errors, missed opportunities and derailed efforts? After the immense success of his award-winning classic Chess Strategy for Club Players, Herman Grooten has now written an equally accessible follow-up primer on attacking chess. He teaches you how to spot opportunities, exploit weaknesses, bringing your forces to the frontline and striking at the right moment. Grooten concentrates on training the most valuable skills for this process: visualizing, structuring, anticipating, calculating, memorizing and other mental aspects. This is not just another collection of useful thematic moves and motifs but a complete and highly structured course of attacking techniques. And with fantastic new examples, clear explanations and many instructive exercises. Giri won the Dutch Championship four times. Other tournament wins include the Wijk aan Zee B-Group in 2010, a shared first place in Malmö 2011 and a victory in Reggio Emilia 2011/12. In 2014 Giri shared second place in Wijk aan Zee. He won the individual bronze medal for his first-board performance for the Dutch team at the 41st Chess Olympiad in Tromsø in Norway. He finished second at the strong Qatar Masters Open. In 2016 he qualified for the Candidates Tournament in Moscow, where he ended on 50%, with fourteen draws. Giri has an all-round playing style and a strong technique. He likes to fight until the end in seemingly harmless positions, trying to squeeze blood from a stone. But whenever he sees an opportunity, he can be a very sharp tactician as well. Try this training app and play the same winning moves as Anish Giri. This app offers you one hundred training exercises, in positions where Giri turned the game in his favour. The puzzles start at a moderate level and gradually get more difficult. Don't give up!
