The Consolation of Philosophy is perhaps unique in the nature and extent of its influence on Western thinking. An eminent public figure under the Gothic emperor Theodoric, Boethius (c. A D 475-525) was also an exceptional Greek scholar and it was to the Greek philosophers that he turned when he fell from favour and was imprisoned in Pavia. Written in the period leading up to his brutal execution, it is a dialogue of alternating prose and verse between the ailing prisoner and his 'nurse' Philosophy, whose instruction on the nature of fortune and happiness, good and evil, fate and free will, restore his health and bring him to enlightenment. The clarity of Boethius's thought and his breadth of vision made The Consolation of Philosophy hugely popular throughout medieval Europe and his ideas suffused the thought of Chaucer and Dante. This translation makes it accessible to the modern reader while losing nothing of Boethius's poetic artistry and philosophical brilliance.

From the author of How Proust Can Change Your Life, a delightful, truly consoling work that proves that philosophy can be a supreme source of help for our most painful everyday problems. Perhaps only Alain de Botton could uncover practical wisdom in the writings of some of the greatest thinkers of all time. But uncover he does, and the result is an unexpected book of both solace and humor. Dividing his work into six sections -- each highlighting a different psychic ailment and the appropriate philosopher -- de Botton offers consolation for unpopularity from Socrates, for not having enough money from Epicurus, for frustration from Seneca, for inadequacy from Montaigne, and for a broken heart from Schopenhauer (the darkest of thinkers and yet, paradoxically, the most cheering). Consolation for envy -- and, of course, the final word on consolation -- comes from Nietzsche: "Not everything which makes us feel better is good for us." This wonderfully engaging book will, however, make us feel better in a good way, with equal measures of wit and wisdom.

Written in the sixth century, The Consolation of Philosophy was one of the most popular and influential works of the Middle Ages. Boethius composed the masterpiece while imprisoned and awaiting the death sentence for treason. The Christian author had served as a high-ranking government official before falling out of favor with Roman Emperor Theodoric, an Arian. In the Consolation, Boethius explores the true end of life-knowledge of God-through a conversation with Lady Philosophy. Part prose, part poetry, the work combines Greek philosophy and Christian faith to formulate answers to some of life's most difficult and enduring questions.

Throughout Antiquity and the Middle Ages, literature was read with the ear as much as with the eye: silent reading was the exception; audible reading, the norm. This highly original book shows that Boethius's Consolation of Philosophy - one of the most widely-read texts in Western history - aims to affect the listener through the designs of its rhythmic sound. Stephen Blackwood argues that the Consolation's metres are arranged in patterns that have a therapeutic and liturgical purpose: as a bodily mediation of the text's consolation, these rhythmic patterns enable the listener to discern the eternal in the motion of time. The Consolation of Boethius as Poetic Liturgy vividly explores how in this acoustic encounter with the text philosophy becomes a lived reality, and reading a kind of prayer.
