Nationalism is a term used to describe a fervent emotional identification with one's country and its people, customs, and values. This culture war provides an example of an affective cultural politics in which institutional structures become entwined with media representations, events, and patterns of belonging.

Employing a detailed and critically reflective argument covering social media, television, political campaigns, advertising, and 'artivism,' Camilla Møhring Reestorff refuses the traditional distinction between the world of visual culture and the political domain, and she provides multiple tools for understanding the dynamics of contemporary affective

In the last two decades,
Chinese transnationalism has
become a distinctive domain
within the new "flexible"
capitalism emerging in the
Asia-Pacific region.

Ungrounded Empires maps this
domain as the intersection

global capitalism, drawing

impact of late capitalism's
institutions--flexibility,
travel, subcontracting,
multiculturalism, and mass

inherent threat to the

it ushered in the era of

Tamil nationalism became an

nationalist politics. It is argued that the forms of scapegoating and alarmism integral to the revival of nationalism in British politics are fundamentally tied to racialised processes. Equally however, it is argued that such a political climate is not simply discursive, but also yields acute forms of governance, wherein an increasingly violent attention is given by the state to the border. The chapters in the book do however also attempt to think through the possibilities of a constructive response to this moment. Emphasis is

given here to the everyday cultural textures that might help shape a popular opposition to racial nationalism. Similarly, the book attempts to unpack the appeal of today's distinctive populism in ways that might be more responsive to anti-racist and anti-nationalist sentiments. Racial Nationalisms will be of interest to academics and researchers studying postcolonialism, nationalism, ethnic and racial studies, and to advanced students of sociology, political science and public policy. Forging Of Nations

This book focuses on the cultural processes by which the idea of a Yugoslav nation was developed and on the reasons that this idea ultimately failed to bind the South Slavs into a viable nation and state. The author argues that the collapse of multinational Yugoslavia and the establishment of separate uninational states did not result from the breakdown of the political or economic fabric of the Yugoslav state; rather, that breakdown itself sprang from

Online Library The Cultural Politics Of Nationalism And

the destruction of the
concept of a Yugoslav
nation. Had such a concept
been retained, a collapse of
political authority would
have been followed by the
eventual reconstitution of a
Yugoslav state, as happened
after World War II, rather
than the creation of
separate nation-states.

Because the author
emphasizes nation building
rather than state building,
the causes and evidence he
cites for Yugoslavia's
collapse differ markedly
from those that have
previously been put forward.
He concentrates on culture

mid-nineteenth century to the present in order to delineate those ideological mechanisms that helped lay the foundation for the formation of a Yugoslav nation in the first place, sustained the nation during its approximately seventy-year existence, and led to its dissolution. The book describes the evolution of the idea of Yugoslav national unity in four major areas: linguistic policies geared to creating a shared national language, the promulgation of a Yugoslav literary and artistic canon, an educational policy that emphasized the teaching of literature and history in

Nick Miller argues in this provocative study that to comprehend Yugoslavia's collapse, we must examine the development and nature of Serbian nationalism, and the typical approaches will not suffice. Serbia's national movement of the 1980s and 1990s, Miller suggests, was not the product of an ancient, immutable, and aggressive Serbian national identity; nor was it an artificial creation of powerful political actors looking to capitalize on its mobilizing power. In examining the work

Online Library The Cultural Politics Of Nationalism And

of three influential Serbian intellectuals, Miller argues that cultural processes are too often ignored in favor of political ones; that Serbian intellectuals did work within a historical context, but that they were not slaves to the past; that Serbian history is not a continuous reiteration of static themes. His subjects are Dobrica Cosic (a novelist), Mica Popovic (a painter) and Borislav Mihajlovic Mihiz (a literary critic). These three men were part of a circle of friends who began the postwar with (mostly!) open minds about the promise of the new communist order and

Online Library The Cultural Politics Of Nationalism And

who wound up by 1974 as
inveterate opponents of the
regime and nationalists.

Together, the work of these
men indicates that
nationalism was more than a
tool for cynical and needy
politicians, and less an
ancient bequest than an
unsurprising response to
real conditions in Tito's
Yugoslavia. Book jacket.
