The Discovery is an interesting, exciting book, because you never know what will happen next and there's always a new twist. There is so much excitement, you can't put it down. Although I enjoyed this book, I liked The Danger, the third book in the series by Gordon Korman, better because it had even more excitement and suspense than The Discovery.

The Discovery (Dive, Book 1): Korman, Gordon ...

The Discovery is about a group of four interns working for Poseidon. They are assigned to a group of three oceanographers who seem to be hiding something. For the first few weeks Nobody sees Cutter's crew then, all of a sudden the interns with very little experience starts locating every cave for a map that doesn't even exist. Sounds fishy but, Kaz, Dante, Star, and Adriana are determined to find out what.

marine expedition for the summer, diving to explore an underwater habitat that's just been altered by a seismic event. What they find, though, is much more than fish - it's sunken treasure. Can they salvage it without anyone else getting to it first? Will the prospect of wealth set them against one another? And what about those sharks . . . Dive is another action-packed trilogy from Gordon Korman. The narrative will shift between an account of two kids caught in the shipwreck and the story of the four kids fighting over and desperately trying to get the treasure.

Vince Luca is just like any other high school guy. His best friend, Alex, is trying to score vicariously through him; his brother is a giant pain; and his father keeps bugging him to get motivated. There is just one thing that really sets him apart from other kids—his father happens to be the head of a powerful crime organization. Needless to say, while Vince's family's connections can be handy for certain things (like when teachers are afraid to give him a bad grade), they can put a serious crimp in his dating life. How is he supposed to explain to a girl what his father does for a living? But when Vince meets a girl who finally seems to be worth the trouble, her family turns out to be the biggest problem of all. Because her father is an FBI agent—the one who wants to put his father away for good.

Follows a group of six kids stranded on a deserted island as they embark on a quest for survival that tests their limits.

When four kids on a marine expedition for the summer discover a sunken treasure, it's a race against time, sharks, and each other to bring the goods to shore.

Dive Trilogy #2.

“Not since Jacques Cousteau has anyone brought us the sense of the ocean as our home . . . Far more than a science book.” —San Francisco Book Review Gordon Chaplin’s father was a seemingly happy-go-lucky, charismatic adventurer who married a wealthy heiress and transformed himself into the author of a landmark scientific study, *Fishes of the Bahamas*. The book was published by the Academy of Natural Sciences of Philadelphia, one of America's most esteemed scientific institutions. As a young boy, the author took part in collecting specimens for his father. Fifty years later, he was asked to join a team studying the state of sea life in the Bahamian waters where he grew up, as measured against his father’s benchmark. The first of the sea changes presented in this eloquent book stems from climate change and is the drastic transformation of ocean life due to global warming. The second is his father’s miraculous transformation from playboy into scientist. And the third involves the author’s own complicated relationship with his parents, in particular his father, as he grew older and assumed the part of prodigal son. Fifty years later, returning to his childhood home, he delves into the mysteries of his father’s life and the impossibility of ever truly recovering the past or returning home.

As Tilt, Perry, Sammi, and Dominic prepare to ascend Mt. Everest, they must deal with low supplies, high altitude, dangerous terrain, government officials, sabotage, and an approaching storm.

A futuristic adventure with the ultimate survivor! A surprising new tale that drops the lord of the jungle into an unfamiliar
