**WINNER OF THE HILLMAN PRIZE FOR BOOK JOURNALISM, THE HELEN BERNSTEIN BOOK AWARD, AND THE LUKAS WORK-IN-PROGRESS AWARD \* A NEW YORK TIMES TOP 10 BOOKS OF THE YEAR \* NATIONAL BOOK CRITICS CIRCLE AWARD FINALIST \* LOS ANGELES TIMES BOOK PRIZE FINALIST \* ABA SILVER GAVEL AWARD FINALIST \* KIRKUS PRIZE FINALIST NAMED ONE OF THE BEST BOOKS OF 2019 BY:** Esquire, Amazon, Kirkus, Library Journal, Publishers Weekly, BookPage, BookRiot, Economist, New York Times Staff Critics ["A seminal and breathtaking account of why home is the most dangerous place to be a woman . . . A tour de force."](#) -Eve Ensler "Terrifying, courageous reportage from our internal war zone." -Andrew Solomon "Extraordinary." -New York Times ["Editors' Choice!"](#) ["Gut-wrenching, required reading."](#) -Esquire "Compulsively readable. . . It will save lives." -Washington Post ["Essential, devastating reading."](#) -Cheryl Strayed, New York Times Book Review An award-winning journalist's intimate investigation of the true scope of domestic violence, revealing how the roots of America's most pressing social crises are buried in abuse that happens behind closed doors. We call it domestic violence. We call it private violence. Sometimes we call it intimate terrorism. But whatever we call it, we generally do not believe it has anything at all to do with us, despite the World Health Organization deeming it a ["global epidemic."](#) In America, domestic violence accounts for 15 percent of all violent crime, and yet it remains locked in silence, even as its tendrils reach unseen into so many of our most pressing national issues, from our economy to our education system, from mass shootings to mass incarceration to [#MeToo](#). We still have not taken the true measure of this problem. In [No Visible Bruises](#), journalist Rachel Louise Snyder gives context for what we don't know we're seeing. She frames this urgent and immersive account of the scale of domestic violence in our country around key stories that explode the common myths-that if things were bad enough, victims would just leave; that a violent person cannot become nonviolent; that shelter is an adequate response; and most insidiously that violence inside the home is a private matter, sealed from the public sphere and disconnected from other forms of violence. Through the stories of victims, perpetrators, law enforcement, and reform movements from across the country, Snyder explores the real roots of private violence, its far-reaching consequences for society, and what it will take to truly address it.

This volume provides information about domestic violence in today's society. Chapters explore the current landscape; issues of domestic violence in ethnic, racial, and cultural contexts; treatment issues; and intervention recommendations. Features include discussion questions, resources for domestic violence intervention, and legal precedents.

This is the only book on the market today that focuses on the entire spectrum of emotional, verbal, sexual, and physical abuse. Written by University of Utah Clinical Associate Professor Elaine Weiss, a survivor, the book goes right to the heart of the reader and changes their perspective on this topic. She paints a clear picture of women who stay in a marriage because of their fierce loyalty and commitment to the sanctity of marriage. Elaine emphasizes the period of time after women leave their abuser and describes in detail what they go on to do with their lives. These are stories of twelve women from various walks of life, including professionals. Each a victim of domestic violence. Each escaped from her abuser. Each reclaimed her dignity, reconstructed her life, rediscovered peace. Every woman who has left an abuser every woman who has yet to leave will find encouragement and support in the voices of these women who broke free.

Domestic violence, childhood sexual abuse, rape and sexual assault, and sexual exploitation through prostitution, pornography and trafficking can have many significant adverse impacts on a survivor's health and wellbeing, in the short, medium and long-term. Taking a life-course approach, the book explores what is known about appropriate treatment responses to those who have experienced, and those who perpetrate, domestic and sexual violence and abuse. The book also examines key factors that are important in understanding how and why different groups experience heightened risks of domestic and sexual violence and abuse, namely: gender and sexuality; race and culture; disability; and abuse by professionals. Drawing together results from specially commissioned research, the views of experts by experience, experts by profession and the published research literature, the book argues that sufficient is already known to delineate an appropriate public health framework, encompassing primary, secondary and tertiary prevention, to successfully tackle the important public health issue represented by domestic and sexual violence and abuse. Domestic and Sexual Violence and Abuse equips health and social care professionals and services to identify and respond to the needs of affected individuals with a view to the prevention and early intervention.

This thoroughly revised second edition is an examination of domestic violence from social, legal, and historical perspectives. \* A chronology that stretches from 753 BCE, when Romulus, the founder of Rome, formalized the first "law of marriage" to January 2006, when President George W. Bush signed the third reauthorization of the 1994 Violence against Women Act \* Illustrations include the power and control wheel (a model in the form of a wheel that explains the dynamics of domestic violence), the ecological theory of battering, and the characteristics of the victim as illustrated by the World Health Organization

Reports of mistreated children, domestic violence, and abuse of elderly persons continue to strain the capacity of police, courts, social services agencies, and medical centers. At the same time, myriad treatment and prevention programs are providing services to victims and offenders. Although limited research knowledge exists regarding the effectiveness of these programs, such information is often scattered, inaccessible, and difficult to obtain. Violence in Families takes the first hard look at the successes and failures of family violence interventions. It offers recommendations to guide services, programs, policy, and research on victim support and assistance, treatments and penalties for offenders, and law enforcement. Included is an analysis of more than 100 evaluation studies on the outcomes of different kinds of programs and services. Violence in Families provides the most comprehensive review on the topic to date. It explores the scope and complexity of family violence, including identification of the multiple types of victims and offenders, who require different approaches to intervention. The book outlines new strategies that offer promising approaches for service providers and researchers and for improving the evaluation of prevention and treatment services. Violence in Families discusses issues that underlie all types of family violence, such as the tension between family support and the protection of children, risk factors that contribute to violent behavior in families, and the balance between family privacy and community interventions. The core of the book is a research-based review of interventions used in three institutional sectors--social services, health, and law enforcement settings--and how to measure their effectiveness in combating maltreatment of children, domestic violence, and abuse of the elderly. Among the questions explored by the committee: Does the child protective services system work? Does the threat of arrest deter batterers? The volume discusses the strength of the evidence and highlights emerging links among interventions in different institutional settings. Thorough, readable, and well organized, Violence in Families synthesizes what is known and outlines what needs to be discovered. This volume will be of great interest to policymakers, social services providers, health care professionals, police and court officials, victim advocates, researchers, and concerned individuals.

Domestic abuse is a national emergency: one in four Australian women has experienced violence from a man she was intimate with. But too often we ask the wrong question: why didn't she leave? We should be asking: why did he do it? Investigative journalist Jess Hill puts perpetrators [and](#) the systems that enable them [in](#) the spotlight. See What You Made Me Do is a deep dive into the abuse so many women and children experience [and](#) abuse that is often reinforced by the justice system they trust to protect them. Critically, it shows that we can drastically reduce domestic violence [and](#) not in generations to come, but today. Combining forensic research with riveting storytelling, See What You Made Me Do radically rethinks how to confront the national crisis of fear and abuse in our homes. ["A shattering book: clear-headed and meticulous, driving always at the truth!"](#)Helen Garner ["One Australian a week is dying as a result of domestic abuse. If that was terrorism, we'd have armed guards on every corner."](#) Jimmy Barnes ["Confronting in its honesty this book challenges you to keep reading no matter how uncomfortable it is to face the profound rawness of people's stories. Such a well written book and so well researched. See What You Made Me Do sheds new light on this complex issue that affects so many of us."](#)Rosie Batty
