"Scarlett's in big trouble after a BIG FEELINGS episode leads to a runaway hamster getting into the vicar's trousers at her aunty's engagement party. If she loses her temper ONE MORE TIME, she's going to miss out on her trip to Mega Awesome Sicky Fun World, the best theme park on the planet. But feelings are like slime in a party bag. No matter how much someone tells you to keep it in, it'll always find its way out. And very soon, Scarlett notices that every time she pushes her feelings down, something explodes. Like... really, properly explodes. It might be her teacher's slimy green smoothie. A huge pot of purple paint. Or a massive pile of elephant poo at the zoo. And let's hope Scarlett doesn't get mad at Aunty's wedding - that wedding cake is HUGE."--Publisher's description.

The state of Connecticut boasts an extensive and active community of fife and drum groups. This musical tradition has its origins in the small military bands maintained by standing armies in Britain and Europe in the seventeenth and eighteenth centuries—the drum was especially important as it helped officers train soldiers how to march, and was also used to communicate with troops across battlefields. Today fifers and drummers gather at conventions called “musters,” which may include a parade and concerts featuring the various participating corps. According to the Guinness Book of World Records, the largest muster ever was held in Deep River, Connecticut, in 1976. Musician and historian James Clark is the first to detail the colorful history of this unique music. This engaging book leads the reader through the history of the individual instruments and tells the story of this classic folk tradition through anecdotes, biographies, photographs, and musical examples.

A collection of 78 tunes containing some Civil War selections as well as many other traditional favorites. Each arrangement features harmony, style marks and guitar chords. This book offers tunes from the Revolutionary and Civil War eras with suggested snare and bass drum parts as well as chord progressions. It also contains a wealth of fife history and resources.

A visually stunning and personal guided tour of the remarkable interiors of one of the world's most exquisite hotels Art-world superstars Iwan and Manuela Wirth saw the poetry in a run-down hotel nestled in the depths of the Scottish Highlands, not far from Balmoral Castle, and utterly transformed it. Every inch of The Fife Arms's interior has been imaginatively and intelligently considered in the context of place with each room telling the story of a person, event, or theme, connected to its Braemar location. This book reveals this luxurious hotel in intricate detail, from the bespoke wallpaper and soft furnishings to the remarkable art on its walls. Hauser & Wirth was founded in 1992 in Zurich by Iwan Wirth, Manuela Wirth, and Ursula Hauser and has expanded to include outposts in London, New York, Somerset, Los Angeles, Hong Kong, Gstaad, St. Moritz and Menorca. The Fife Arms is their first hotel, and like all of the Wirths' ventures is embedded in the heritage and traditions of its local culture.

When the citizens of Fife voted to incorporate the town in 1957, they sought to control their destiny and retain their idyllic community. However, Fife's location between the burgeoning cities of Tacoma and Seattle and proximity to Commencement Bay presented challenges of eminent domain, which ultimately brought about the transformation of the fabric of the land. This history documents the transformation of Fife from the establishment of the Puyallup Indian Reservation through that of the pioneer farmers who worked the rich, volcanic soil while developing a close-knit community of families and friends.

Coconut water is a refreshing beverage that comes from coconuts. It is a powerhouse of nutrition containing a complex blend of vitamins, minerals, amino acids, antioxidants, enzymes, health enhancing growth hormones, and other phytonutrients. Because its electrolyte content is similar to human plasma, it has gained international acclaim as a natural sports drink for oral rehydration. As such, it has proven superior to commercial sports drinks. Unlike other beverages, it is completely compatible with the human body, in so much that it can be infused directly into the bloodstream. In fact, doctors have used coconut water successfully as an intravenous fluid for over 70 years. Coconut water's unique nutritional profile gives it the power to balance body chemistry, ward off disease, dissolve kidney stones, improve digestion, reduce the risk of heart disease, reduce high blood pressure, fight cancer, and retard aging. History and folklore credit coconut water with remarkable healing powers, which medical science is now confirming.
