This book describes at a high level the Army careers of four men who achieved four-star rank: - John Abizaid - George Casey - Peter Chiarelli - David Petraeus While the book covers almost the entirety of their careers, using snapshots of key episodes, at least half of the book deals with their involvement in the Iraq War. Because the careers of these officers often intersected, it was not possible to have separate sections dedicated to each General.

Now he was set to receive a proper four-star send-off, with a marching band and a thumping seventeen-gun salute fired by howitzers pointed out to sea. They were four exceptional soldiers, a new generation asked to save an army that had been hollowed out after Vietnam. They survived the military's brutal winnowing to reach its top echelon. They became the Army's most influential generals in the crucible of Iraq. Collectively, their lives tell the story of the Army over the last four decades and illuminate the path it must travel to protect the nation over the next century. Theirs is a story of successes and failures, of ambitions achieved and thwarted, of the responsibilities and perils of command. The careers of this elite quartet show how the most powerful military force in the world entered a major war unprepared, and how the Army, drawing on a reservoir of talent that few thought it possessed, saved itself from crushing defeat against a ruthless, low-tech foe. In *The Fourth Star*, you'll follow: •Gen. John Abizaid, one of the Army's most brilliant minds. Fluent in Arabic, he forged an unconventional path in the military to make himself an expert on the Middle East, but this unique background made him skeptical of the war he found himself leading. •Gen. George Casey Jr., the son of the highest-ranking general to be killed in the Vietnam War. Casey had grown up in the Army and won praise for his common touch and skill as a soldier. He was determined not to repeat the mistakes of Vietnam but would take much of the blame as Iraq collapsed around him. •Gen. Peter Chiarelli, an emotional, take-charge leader who, more than any other senior officer, felt the sting of the Army's failures in Iraq. He drove his soldiers, the chain of command, and the U.S. government to rethink the occupation plans—yet rarely achieved the results he sought. •Gen. David Petraeus, a driven soldier-scholar. Determined to reach the Army's summit almost since the day he entered West Point, he sometimes alienated peers with his ambition and competitiveness. When he finally got his chance in Iraq, he—more than anyone—changed the Army's conception of what was possible. Masterfully written and richly reported, *The Fourth Star* ranges far beyond today's battlefields, evoking the Army's tumultuous history since Vietnam through these four captivating lives and ultimately revealing a fascinating irony: In an institution that prizes obedience, the most effective warriors are often those who dare to question the prevailing orthodoxy and in doing so redefine the American way of war.

On June 23, 2008, President George W. Bush nominated Ann Dunwoody as a four-star general in the US Army—the first time a woman had ever achieved that rank. The news generated excitement around the world. Now retired after nearly four decades in the Army, Dunwoody shares what she learned along the way, from her first command leading 100 soldiers to her final assignment, in which she led a 60 billion enterprise of over 69,000 employees, including the Army's global supply chain in support of Iraq and Afghanistan. What was the driving force behind Dunwoody's success? While her talent as a logistician and her empathy in dealing with fellow soldiers helped her rise through the ranks, Dunwoody also realized that true leaders never stop learning, refining, growing, and adapting. In *A Higher Standard*, Dunwoody details her evolution as a soldier and reveals the core leadership principles that helped her achieve her historic appointment. Dunwoody's strategies are applicable to any leader, no matter the size or scope of the organization. They include lessons such as "Never Walk by a Mistake," a mandate to recognize when something is wrong, big or small, and to hold people accountable. Not only can this save billions for industry, it can sometimes save the lives of soldiers and citizens. She also advises that "Leaders Aren't Invincible-Don't Try to Be": to be our best, we have to acknowledge our worst. And she encourages readers to "Leverage the Power of Diversity" by creating teams of people from different backgrounds to provide a broad range of ideas and devise the best-informed decisions. With these and other guiding principles, *A Higher Standard* offers practical, tactical advice that everyone can use to lead and achieve with maximum success.

In 1976, armed with a college degree and a commission as an Army 2nd Lieutenant, Vinny Boles began his leadership journey. After 33 years of service, he has distilled this experience into his book, 4-3-2-1 Leadership: What America's Sons & Daughters Taught Me on the Road From Second Lieutenant to Two Star General. "Leadership is not a solo event, it is a team sport," Boles says. "And in the Army it's a team sport at the highest level. And I was truly fortunate to have great teammates in every one of these 33 years."

In the annals of military history, only rarely has someone earned the distinction of rising from the rank of private to full general. Born January 5, 1887, Courtney Hodges attended West Point during the early 1900s. After failing Mathematics at West Point, he returned home for three months before enlisting in the Army at Fort McPherson, Georgia. From this somewhat rocky start, Hodges' military career spanned the globe, covering forty-four years and two world wars. Correcting an historical oversight, this biography tells the story of one of America's most notable military men. An unpretentious, private man, Hodges was credited with capturing more ground than any other American in history. This work follows Hodges from his formative years in Perry, Georgia, through his extraordinary military career, which included service in the Philippines, Mexico, Europe and Japan. Special attention is given to Hodges' role during World War II campaigns, where he commanded the First Army and was chosen by Douglas MacArthur to lead the attack against Japan. Emphasis is also placed on the ways in which Hodges' career was intertwined with other military men of the time, including Omar Bradley and George Patton, a man who was essentially Hodges' mirror image—personally and militarily.

Writers have been writing about war since the siege of Troy, but few, if any, have captured the first-person experience of war as deeply as *My Vietnam War*. Set in 1967 (the deadliest year of the Vietnam War), this memoir-style novel depicts the psychological journey of a young man whose carefree days of studying philosophy at the university are ended by the draft. The story follows him from his initial rear-echelon assignment in Saigon, where he falls for a mysterious storytelling bar girl, to his eventual posting at an isolated front-line firebase in one of the deepest parts of the Vietnam jungle. While recovering from a leg wound (he is hit by a piece of bone from a fellow soldier who stepped on a booby trap mine), he becomes the assistant medic and sees the horrors of war close up. The experience begins his steady spiral down into PTSD. After he is seriously wounded, he ends up back in Saigon where, after an old friend from Arizona gets him involved in the underground drug trade, the mysterious bar girl may be his only hope for salvation. It is a powerful story, well-written, with vivid detail that you will never forget.

General Daniel "Chappie" James, Jr., USAF, fought in three American wars and became the first African American to attain the rank of four-star general in the United States Armed Forces. He was a talented military leader, an excellent orator and an advocate for equal rights for blacks in the military. James was once one of the most powerful men in the world, and today he is often classed with such great American generals as Patton, MacArthur and Pershing. This biography explores James's life and assesses his place in American military history. From his childhood through his role and service in World War II, Korea, and Vietnam, the book traces his personal and career development, his influences, and his climb through the military ranks. Photographs of James are included as well as detailed bibliographical information at the end of each chapter.

Here is a dramatic, first-person account of how the United States won the war in Iraq, only to see the peace lost by an unengaged administration, with Iraqis terrorized and the new "caliph" of ISIS promising , "I'll see you in New York." Military contractor Carter Andress was the ultimate boots-on-the-ground "civilian" in Iraq. While reporters, aid workers, diplomats, and even U.S. soldiers were often cut off from the "ground truth" in Iraq by the blast walls protecting the Green Zone and our bases, Andress was in the thick of things: driving through insurgent-infested territory, negotiating with hostile tribes, and witnessing the transformation of Iraq from chaos and violence to a stable multi-ethnic, multi-sectarian democracy that needed only minimal American support to defend itself - support, however, that thanks to the Obama administration was not forthcoming. A page-turner of a story, but also an incredibly important account of what actually happened in the Iraq War and afterwards, *Victory Undone* is a book every American needs to read.

The Art of War is an enduring classic that holds a special place in the culture and history of East Asia. An ancient Chinese text on the philosophy and politics of warfare and military strategy, the treatise was written in 6th century B.C. by a warrior-philosopher now famous all over the world as Sun Tzu. Sun Tzu's teachings remain as relevant to leaders and strategists today as they were to rulers and military generals in ancient times. Divided into thirteen chapters and written succinctly, *The Art of War* is a must-read for anybody who works in a competitive environment.

A "solid and informative" biography of one of the overlooked heroes of the Second World War (Wall Street Journal). Of the leaders of the American Army in World War II, Jacob Devers is undoubtedly the "forgotten four-star." Plucked from relative obscurity in the Canal Zone, Devers was one of four generals selected by General of the Army George Marshall in 1941 to assist him in preparing the Army for war. He quickly became known in Army circles for his "can do" attitude and remarkable ability to cut through red tape. Among other duties, he was instrumental in transforming Ft. Bragg, then a small Army post, into a major training facility. As head of the armored force, Devers contributed to the development of a faster, more heavily armored tank, equipped with a higher velocity gun that could stand up to the more powerful German tanks, and helped to turn American armor into an effective fighting force. In spring 1943, Devers replaced Dwight Eisenhower as commander of the European Theater of Operations, then was given command of the 6th Army Group that invaded the south of France and fought its way through France and Germany to the Austrian border. In the European campaign to defeat Hitler, Eisenhower had three subordinate army group commanders: British Field Marshall Bernard Montgomery, Omar S. Bradley, and Jacob Devers. The first two are well-known; here the third receives the attention he properly deserves.

Jack Reacher races to solve the perfect crime in the fourth novel in Lee Child's New York Times bestselling series. Across the country, women are being murdered, victims of a disciplined and clever killer who leaves no trace evidence, no fatal wounds, no signs of struggle, and no clues to an apparent motive. They are, truly, perfect crimes. In fact, there's only one thing that links the victims. Each one of the women knew Jack Reacher—and it's got him running blind.
