Taking Drugs in the Hippie Era. During the 1960s, the hippie movement gradually transformed from a collection of literate nonconformists to a reaction against American militarism. The hippie era had two major themes grounded in hippie values: peace, love and universal brotherhood on the one hand and the anarchism of psychedelia on the other.

He has a particular interest in intentional communities and new religious movements.

Timothy Miller - Wikipedia

The Beats adopted the term hip, and early hippies inherited the language and countercultural values of the Beat Generation. Hippies created their own communities, listened to psychedelic music, embraced the sexual revolution, and many used drugs such as marijuana and LSD to explore altered states of consciousness. Neil Young in Austin, Texas

Download The Making Of A Counter Culture Icon books. At first glance, the works of Fedor Dostoevsky (1821-1881) do not appear to have much in common with those of the controversial American writer Henry Miller (1891-1980). However, the influencer of Dostoevsky on Miller was, in fact, enormous and shaped the latter's view of the world, of ...

¶Turn on, tune in, drop out.¶ Timothy Leary advised young people in the 1960s. And many did, creating a counterculture built on drugs, rock music, sexual liberation, and communal living. The hippies preached free love, promoted flower power, and cautioned against trusting anyone over thirty. Eschewing money, materialism, and politics, they repudiated the mainstream values of the times. Along the way, these counterculturists created a lasting legacy and inspired long-lasting social changes. The Hippies and American Values uses an innovative approach to exploring the tenets of the counterculture movement. Rather than relying on interviews conducted years after the fact, Timothy Miller uses ¶underground¶ newspapers published at the time to provide a full and in-depth exploration. This reliance on primary sources brings an immediacy and vibrancy rarely seen in other studies of the period. Miller focuses primarily on the cultural revolutionaries rather than on the political radicals of the New Left. It examines the hippies' ethics of dope, sex, rock, community, and cultural opposition and surveys their effects on current American values. Filled with illustrations from alternative publications, along with posters, cartoons, and photographs, The Hippies and American Values provides a graphic look at America in the 1960s. This second edition features a new introduction and a thoroughly updated, well-documented text. Highly readable and engaging, this volume brings deep insight to the counterculture movement and the ways it changed America. The first edition became a widely used course-adoption favorite, and scholars and students of the 1960s will welcome the second edition of this thought-provoking book.

Introduction; The Ethics of Dope; The Ethics of Sex; The Ethics of Rock; The Ethics of Community; The Ethics of Cultural Opposition; Legacy

This short overview of the United States hippie social movement examines hippie beliefs and practices.

An insightful introduction to hippie culture and how its revolutionary principles in the 1960s helped shape modern culture. ¶ Includes 13 primary sources, including excerpts from articles, speeches, and original interviews, and Abbie Hoffman's trial interview ¶ Presents original photography by acclaimed photographer Robert Altman, providing views of hippies at the height of 1960s culture

The greatest wave of communal living in American history crested in the tumultuous 1960s era including the early 1970s. To the fascination and amusement of more decorous citizens, hundreds of thousands of mostly young dreamers set out to build a new culture apart from the established society. Widely believed by the larger public to be sinks of drug-ridden sexual immorality, the communes both intrigued and repelled the American people. The intentional communities of the 1960s era were far more diverse than the stereotype of the hippie commune would suggest. A great many of them were religious in basis, stressing spiritual seeking and disciplined lifestyles. Others were founded on secular visions of a better society. Hundreds of them became so stable that they survive today. This book surveys the broad sweep of this great social yearning from the first portents of a new type of communitarianism in the early 1960s through the waning of the movement in the mid-1970s. Based on more than five hundred interviews conducted for the 60s Communes Project, among other sources, it preserves a colorful and vigorous episode in American history. The book includes an extensive directory of active and non-active communes, complete with dates of origin and dissolution.

"The Rise, Journey, and Demise of the American Counterculture provides a comprehensive history of the counterculture throughout the United States from its antecedents in the 1950s, origins in the early 1960s, emergence in the mid-1960s, and massive expansion in the late 1960s, to its demise in the early 1970s. Working against a historical narrative that portrays hippies and cultural dissidents as a brief-yet-vibrant phenomenon limited to the mid- to late 1960s, Bach focuses on the counterculture's overarching utopian and idealistic goals rather than the trite shorthand of "sex, drugs, and rock and roll." Exploring its connections to other movements of the period, including the New Left, civil rights, Black and Red Power, women's and gay liberation, and environmentalism, he demonstrates that the counterculture's push to create a new society fundamentally transformed American culture, and that its core ideals of egalitarianism, environmentalism, community, and creating alternative institutions have persisted to the present day. His is also the first history of the counterculture to draw upon numerous documents written by self-described "freaks" from 1964 through 1973, such as underground newspapers, memoirs, personal correspondence, flyers, and pamphlets"--

Looks at advertising during the 1960s, focusing on the relationship between the counterculture movement and commerce.

"To understand the history and spirit of America, one must know its wars, its laws, and its presidents. To really understand it, however, one must also know its cheeseburgers, its love songs, and its lawn ornaments. The long-awaited Guide to the United States Popular Culture provides a single-volume guide to the landscape of everyday life in the United States. Scholars, students, and researchers will find in it a valuable tool with which to fill in the gaps left by traditional history. All American readers will find in it, one entry at a time, the story of their lives."--Robert Thompson, President, Popular Culture Association. "At long last popular culture may indeed be given its due within the humanities with the publication of The Guide to United States Popular Culture. With its nearly 1600 entries, it promises to be the most comprehensive single-volume source of information about popular culture. The range of subjects and diversity of opinions represented will make this an almost indispensable resource for humanities and popular culture scholars and enthusiasts alike."--Timothy E. Scheurer, President, American Culture Association "The popular culture of the United States is as free-wheeling and complex as the society it animates. To understand it, one needs assistance. Now that explanatory road map is provided in this Guide which charts the movements and people involved and provides a light at the end of the rainbow of dreams and expectations."--Marshall W. Fishwick, Past President, Popular Culture Association Features of The Guide to United States Popular Culture: 1,010 pages 1,600 entries 500 contributors Alphabetic entries Entries range from general topics (golf, film) to specific individuals, items, and events Articles are supplemented by bibliographies and cross references Comprehensive index
