HONEST GUIDE - YouTube

In the world of investments, a company ' s price-to-earnings ratio, or P/E ratio, is a measure of its stock price relative to its earnings. If you ' re trying to determine whether a stock is a good investment, the P/E ratio can help you gauge the future direction of the stock and whether the price is, relatively speaking, high or low compared to the past or other companies in the same sector.

How to Invest in Stocks

he Completely Honest Guide to Laying Consistent in Day TradingDay trading may sound like a scary endeavor if you are just starting out. Know that this book is NOT a get-rich-quick scheme that promises you a million dollars overnight. However, it will break down everything you need to know and prepare yourself with before you step into the adrenaline charged world of stock trading. The book will teach you of the 3 most important aspects of day trading: 1) Mindset 2) Strategy 3) Preparation Combine these 3 skills to absolutely maximize your profit potential and stay consistently profitable in the stock market. This Book Will Answer the Following Questions:The truth about day trading Why do traders fail What brokers should you choose How much do you need to get started How to build a watchlist How to scan for winning stocks What are the profitable charts I look out for Daily routine of a stock trader Mental aspects of trading How to trade a small account How to trade MORE with LESS And much more! For a low price, I will pass on everything I've learnt from the stock market in the past 7 years to you and give you a better understanding of what it takes to be consistently profitable in the stock market!

Here in the UK we have a product called Marmite. It is a deeply divisive food, which you either love or hate. Those who love it, cannot understand how anyone could live without it - and of course, the opposit is true for those who hate it! This same sentiment could be applied to volume as a trading indicator. In other words, you are likely to fall into one of two camps. You either believe it works, or you don't. It really is that simple. There is no halfway house here! I make no bones about the fact that I believe I was lucky in starting my own trading journey using volume. To me it just made sense, and the logic of what it revealed was inescapable. And for me, the most powerful reason is very simple. Volume is a rare commodity in trading - a leading indicator. The second, and only other leading indicator, is price. Everything else is lagged. As traders, investors or speculators, all we are trying to do is to forecast where the market is heading next. Is there any better way than to use the only two leading indicators we have at our disposal, namely volume and price? In isolation each tells us very little. After all, volume is just that, no more no less. A price is a price. However, combine these two forces together, and the result is a powerful analytical approach to forecasting market direction. However, as I say at the start of the book, there is nothing new in trading, and the analysis of volume has been around for over 100 years. After all, this is where the iconic traders started. People like Charles Dow, Jesse Livermore, Richard Wyckoff, and Richard Ney. All they had was the ticker tape, from which they read the price, and the number of shares traded. Volume price analysis, short and simple. The book has been written for traders who have never come across this methodology, and for those who have some knowledge, and perhaps wish to learn a little more. It is not revolutionary, or innovative, but just simple sound common sense, combined with logic.

There are so many trading books out there on the market that is simply made up of ideas that can be easily found on the Internet for free, and this book is not one of them. This book is not another "Day Trading for Dummies" type of book but contains real strategies and solid school of thoughts of accomplished day traders. It is a no-nonsense, honest guide to successful day trading that I believe anyone can learn from.Here is A Preview Of What You'll Learn... What is Day Trading Why you should start day trading How to get started Advice for day trading Much, much more! Tags: (day trading, stock, stock marking, make money online, trading, investing)

The honest guide to cooking is tries to boil cooking down to the core - looking at what you really need to know when you cook. - You will find no recipes in the guide - You will find no inspirational and beautiful photography - You will find no dainty paragraphs about the European countryside This is a guide to cooking. It is a guide to the bare necessities, what to do when you ' ve messed up, a guide to cooking quirks and a fun-loving curious approach to an everyday subject. It is not a cookbook.

The best-selling investing "bible" offers new information, new insights, and new perspectives The Little Book of Common Sense Investing is the classic guide to getting smart about the market. Legendary mutual fund pioneer John C. Bogle reveals his key to getting more out of investing: low-cost index funds. Bogle describes the simplest and most effective investment strategy for building wealth over the long term: buy and hold, at very low cost, a mutual fund that tracks a broad stock market Index such as the S&P 500. While the stock market has tumbled and then soared since the first edition of Little Book of Common Sense was published in April 2007, Bogle ' s investment principles have endured and served investors well. This tenth anniversary edition includes updated data and new information but maintains the same long-term perspective as in its predecessor. Bogle has also added two new chapters designed to provide further guidance to investors: one on asset allocation, the other on retirement investing. A portfolio focused on index funds is the only investment that effectively guarantees your fair share of stock market returns. This strategy is favored by Warren Buffett, who said this about Bogle: " If a statue is ever erected to honor the person who has done the most for American investors, the hands-down choice should be Jack Bogle. For decades, Jack has urged investors to invest in ultra-low-cost index funds. ... Today, however, he has the satisfaction of knowing that he helped millions of investors realize far better returns on their savings than they otherwise would have earned. He is a hero to them and to me. " Bogle shows you how to make index investing work for you and help you achieve your financial goals, and finds support from some of the world's best financial minds: not only Warren Buffett, but Benjamin Graham, Paul Samuelson, Burton Malkiel, Yale ' s David Swensen, Cliff Asness of AQR, and many others. This new edition of The Little Book of Common Sense Investing offers you the same solid strategy as its predecessor for building your financial future. Build a broadly diversified, low-cost portfolio without the risks of individual stocks, manager selection, or sector rotation. Forget the fads and marketing hype, and focus on what works in the real world. Understand that stock returns are generated by three sources (dividend yield, earnings growth, and change in market valuation) in order to establish rational expectations for stock returns over the coming decade. Recognize that in the long run, business reality trumps market expectations. Learn how to harness the magic of compounding returns while avoiding the tyranny of compounding costs. While index investing allows you to sit back and let the market do the work for you, too many investors trade frantically, turning a winner ' s game into a loser ' s game. The Little Book of Common Sense Investing is a solid guidebook to your financial future.

From a single \$2 sale in 2007, Robb Crocker and his team built a business, Uberstock, based on a library of clips that have sold over 70,000 times and have generated nearly \$7 million in revenue and over \$2.7 million in royalties. Now, in Stock Footage Millionaire, Robb shares the definitive strategy for producing and selling stock footage. In this book, you'll find the tips, tricks and techniques used by some of the world's leading stock footage producers. If you're already producing, you will discover new ways to refine your efforts and ensure that you're maximizing the return--financial, creative, and emotional--on your investment. And if you're new to this fun and exciting industry, you'll discover the fundamentals you need to shortcut your path to higher earnings. From capturing a market niche to choosing your equipment to directing to managing production, Stock Footage Millionaire can help you master every aspect of the business--and earn a fortune.

In an incredibly fun and accessible two-color graphic-book format, the cofounders of Honest Tea tell the engaging story of how they created and built a mission-driven business, offering a wealth of insights and advice to entrepreneurs, would-be entrepreneurs, and millions of Honest Tea drinkers about the challenges and hurdles of creating a successful business--and the importance of perseverance and creative problem-solving. Seth Goldman and Barry Nalebuff began Honest Tea fifteen years ago with little more than a tea leaf of an idea and a passion to offer organic, freshly brewed, lightly sweetened bottled tea. Today Honest Tea is a rapidly expanding national brand sold in more than 100,000 grocery stores, restaurants, convenience stores and drugstores across the country. The brand has flourished as American consumers move toward healthier and greener lifestyles.

THE NEW YORK TIMES BESTSELLING PHENOMENON From Beth Kery, the national bestselling author of Explosive, comes a red-hot romance like no other—where the rules of attraction are broken with that first electrifying touch. Meel Francesca and Ian. The fantasies of what ' s to come begin... Because You Are Mine, Part I Because You Tempt Me It starts with that first look, when you know you have to have him... Francesca Arno has been commissioned to create a grand centerpiece painting for the lobby of Ian Noble ' s new skyscraper. It ' s at a cocktail party in her honor that she first meets him—and the attraction is immediate for Francesca. It ' s also bewildering. She ' s not used to such a wholesale sexual response to a stranger. Enigmatic, darkly intense, with a commanding presence, Ian completely unnerves her. And she likes it. For Ian, she ' s the kind of woman he can ' t resist—one that comes all too rarely; a true innocent. But he can sense in her a desire to open up, to experiment, to give herself to the fantasies of a man in control. The first kiss, the first caress, the first challenge for a woman who craves what she ' s never had—a man who gets what he wants. More to come. Don't miss Because You Are Mine, Part II, available 8/7
