Leadership is often said to be an art. Usually this simply means that it is not a science (despite the best efforts of twentieth century management scholars). Sometimes the idea of leadership as an art is

best metaphor for the business
leader is the theater director.

Arts and Business aims at bringing arts and business scholars together in a dialogue about a number of key topics that today form different understandings in the two disciplines. Arts and

File Type PDF The Illusion Of Leadership Directing

business are, many times, positioned as opposites. Where one is providing symbolic and aesthetic immersion, the other is creating goods for a market and markets for a good. They often deal and struggle with the same issues, framing it differently and

File Type PDF The Illusion Of Leadership Directing

finding different solutions. This book has the potential of offering both critical theoretical and empirical understanding of these subjects and guiding further exploration and research into this field. Although this dichotomy has a well-documented existence, it is

File Type PDF The Illusion Of Leadership Directing

reconstructed through the writing-out of business in art and vice versa. This edited volume distinguishes itself from other writings aimed at closing the gap between art and business, as it does not have a firm standpoint in one of these fields, but treating

'In many organisations creativity is

so often seen as the preserve of a small number of people with "artistic temperaments" but in my experience all sorts of people have creative abilities which can be used to the benefit of a "creative" organisation. The task of a manager is to find ways of
