interest both to students and researchers studying this new form of electronic communication and to organizations that are planning the installation of electronic mail or other computer-mediated

File Type PDF The Implementation Of

Computer Mediated
Communication In Book

Communication systems and that need to be aware of the information gleaned from the studies presented here. The book is organized into four main sections, focusing on the following issues: (1) What are the important

File Type PDF The Implementation Of

Computer Mediated
Communication in Book

Considerations in designing software or choosing a system from the many available options and capabilities? (2) What factors determine whether such systems are likely to be accepted or rejected? (3)

File Type PDF The Implementation Of

What are the likely impacts of such systems upon the individuals, groups, and organizations which use them? It is not the economic costs and benefits, but the social problems and ""payoffs"" in the form of

File Type PDF The Implementation Of

enhanced performance and organizational efficiency that should be the main considerations in deciding whether or not to use a computer-mediated communication system. (4)
Given the conditional nature

File Type PDF The Implementation Of

of many of the possible impacts, no system should be implemented without formal evaluation and feedback from users to guide the implementation. The major kinds of evaluational strategies that have been

File Type PDF The Implementation Of

File Type PDF The Implementation Of

In the field of education,
it is now generally accepted
that distance education
differs contextually from
face-to-face instruction.
The instruction is delivered
by technology that often
limits the form, frequency

File Type PDF The Implementation Of

and immediacy of messages
(Garrison, 1989).
Interactivity (active
involvement of the learner
with content, instructor,
and fellow learners) is one
concept touted in the
literature to help re-

File Type PDF The Implementation Of

Computer-Mediated
Communication In Book

integrate the teaching and learning acts. Computer-mediated communication has the potential to increase interactivity. The purpose of the study was to enhance understanding of the factors and processes affecting the

File Type PDF The Implementation Of

planning and implementing of
computer-mediated
instructional (CMI)
techniques in the distance
learning environment.
Specifically, the following
research questions guided
the study: (a) What personal

File Type PDF The Implementation Of

Computer Mediated
Communication In Book

barriers are encountered when implementing CMI? (b) What institutional barriers are encountered? (c) What technical barriers are encountered? and, (d) What benefits accrue to the participants, as a result of

File Type PDF The Implementation Of

implementation of computer-mediated communications?
Participants were the instructors and 48 adult, extramural graduate students enrolled in two distance courses taught via audiographics. Data were

File Type PDF The Implementation Of

generated from three
sources: interviews with
selected students,
professors, electronic
consultants, and Extramural
Program Directors.
Observations and group
interviews were conducted at

File Type PDF The Implementation Of

Computer Mediated
Communication In Book

each of the remote learning sites. Documents, (e.g., e-mail and postings to the newsgroup and mailing list, and a survey of equipment and Internet access), comprised the third source of data. Efforts related to

File Type PDF The Implementation Of

planning the needed
electronic infrastructure
and the course design, and
efforts related to
implementation of computer-
mediated communication are
described in the qualitative
study. Human-assisted data

File Type PDF The Implementation Of

mining was the process used for manipulating data from the archived electronic postings. Recommendations include instructional design for the CMC context, activating self-directed learning, providing

File Type PDF The Implementation Of

feedback, and developing collaborative electronic projects. Institutional policy or procedural changes were recommended, including support for adding CMC to future distance courses; instituting a help desk

File Type PDF The Implementation Of

early in the semester; and, providing orientation and software guides.

Experimentation with various scenarios of connectivity options was suggested.

Further research was indicated in student

File Type PDF The Implementation Of

Computer preferences and styles, and in delineation of the steps in the process of filtering information via electronic media. The paradigm of shared responsibility for learning was supported.

File Type PDF The Implementation Of Computer Mediated

This book offers students a task-based introduction to Computer-Mediated Communication and the impact of the internet on social interaction. Divided into four parts which require

File Type PDF The Implementation Of

students to learn, (theory),
critique, (current issues),
explore, (methods), and
reflect, (practice), the
book aims to: Provide a
foundation to the social and
communicative nature of
information and

File Type PDF The Implementation Of

Communication technologies
Enable students to engage
with the key theoretical
issues associated with CMC
Equip students with the
necessary research and
technical skills as a
stimulus to independent

File Type PDF The Implementation Of

Computer-Mediated
Communication in Book

enquiry. In spite of the rapidly increasing interest in Internet Studies and CMC and the introduction of many university courses in the area, no specialised, introductory textbook exists. This coursebook

File Type PDF The Implementation Of

Computer Mediated
Communication in Book

responds to the need for
such a text. Aimed primarily
at communication students,
this book would also be
useful as a sourcebook for
students of media,
sociology, psychology and
English Language Studies.
