Richard Phillips - Book Series In Order

The Rho Agenda, series that set up this series of books was very good. However, this time round the story has fell into a cycle of Gung Ho egotism for the characters. Also, some parts of the story feel like I'm reading the "John Carter of Mars" books. While other bits don't really have a reason to be included, other than to pad out the book.

Jennifer Smythe escapes Earth's invasion by the insidious Kasari race, hijacks an alien starship, and survives the deadly passage through a wormhole. But escape is short-lived... When Jennifer emerges on the new world of Scion, she is confronted by the same deadly enemy. Now the Kasari have sided with the planet's angel-like elite against the warrior underclass, but with the intent of ultimately ruling both. And when Jennifer is captured by the brutish Koranthians, her alien-enhanced abilities make her a crucial asset in battling the Kasari and their winged allies. Back on a divided Earth, Jennifer's brother, Mark, and Jack "the Ripper" Gregory wage their own war against the Kasari. As the global government welcomes the extraterrestrials, Mark, Jack, and their rebel faction seek to use the powerful mind-altering skills gained from the Kasari's sworn enemies to repel the would-be conquerors. But faced with the might of Earth's ruling forces, has the cause already been lost?

When the Rho Project's lead scientist, Dr. Donald Stephenson, is imprisoned for his crimes against humanity, the world dares to think the threat posed by the Rho Project's alien technologies is finally over. The world is wrong. In Switzerland, scientists working on the Large Hadron Collider have discovered a new threat, a scientific anomaly capable of destroying the earth -- and only Rho Project technology can stop it. In exchange for a full pardon, Dr. Stephenson agrees to create a wormhole that will send the anomaly into deep space. But his promise masks the alien agenda that brought the Rho Ship to earth. Now a trio of accidentally altered humans must infiltrate Stephenson's wormhole project and stop it, no matter the cost. The final battle has begun -- and this is one battle mankind cannot afford to lose.

Jack takes the deal...but he must now face the consequences of having the same dark creature in his head as some of history's greatest villains. Struggling with desires and memories that are not his own, Jack is not the man he once was. One year later, he is known internationally as The Ripper, assassin for hire, and is faced with having to wrest control of his dark compulsions while preventing a nuclear attack on the United States. Quentin Draith, supernatural crime investigator, is hired to assist. However, the deeper Draith digs, the more otherworldly his assignment gets. Assassins, human and otherwise, put a target on Draith's head and a ravenous alien beast starts rampaging through the city. The clues point Draith to Sin City's infamous “ Bone Triangle,” a neighborhood marked for its dark happenings and disappearances.
