The Life and Teachings of Hillel provides the most comprehensive treatment ever published of one of the greatest figures in Jewish tradition. Yitzhak Buxbaum weaves together the various stories about Hillel

along with his teachings and sayings to develop this ground-breaking portrait, shedding new light on Hillel's illustrious career, fascinating life, and profound teachings. Hillel is one of the most important and popular of the talmudic sages, yet he is mostly known only in the context of two or three popular stories told about him. Such stories as teaching the 'Golden Rule' of Torah 'while standing on one foot,' and his saying, 'If I am not for myself, who will be for me, and if I am for myself alone, who am I,' have eclipsed a more complete view of Hillel's influence and significance. In the rabbinic tradition, there is much debate between the teachings of the school of Hillel and that of his contemporary, Shammai. Hillel is often seen as the more tolerant, softer teacher, with his teachings representing what we consider 'normative' Judaism. Often, the traditions passed down to modern times

are a result of the rabbis' reconciliation of the two schools, so that Hillel's pure teachings have been lost. The Life and Teachings of Hillel separates out Hillel's teachings and looks at them independently of Shammai's. Studied on their own, it becomes evident that Hillel was actually much more radical and 'hasidic' than is commonly thought. While he is known for representing the gentler, more loving side of Judaism, in this work his pious radicalism is also apparent. Readers will be charmed and fascinated by Hillel's fiery gentleness. The Life and Teachings of Hillel offers new information about a radiant religious figure, and it also recovers a side of Jewish tradition that has been lost to most people.

eleventh-century Indian mystic Nârôpa occupies an unusual position, for his life and teachings mark both the end of a long tradition and the beginning of a new and rich era in Buddhist thought. Nârôpa's biography, translated by the world-renowned Buddhist scholar Herbert V. Guenther from hitherto unknown sources, describes with great psychological insight the spiritual development of this scholar-saint. It is unique in that it also contains a detailed analysis of his teaching that has been authoritative for the whole of Tantric Buddhism. This modern translation is accompanied by a commentary that relates Buddhist concepts to Western analytic philosophy, psychiatry, and depth psychology, thereby illuminating the significance of Tantra and Tantrism for our own time. Yet above all, it is the story of an individual whose years of endless toil and perseverance on the Buddhist path

Explores Christ's life and work as presented in the Gospels.

This book examines how Gregory of Nazianzus, a fourth-century Greek writer famed as 'the Theologian' in the Christian tradition, expressed the mystery of Christ in terms of his own life. It studies Gregory's three genres of writing (orations, poems, and letters) and shows how Gregory developed an 'autobiographical Christology'.

the travels to India and Tibet of a research party of eleven scientists in 1894. During their trip they claim to have made contact with "the Great Masters of the Himalayas," immortal beings with whom they lived and studied, gaining a fascinating insight into their lives and spiritual message. This close contact enabled them to witness many of the spiritual principles evinced by these Great Masters translated into their everyday lives, which could be described as 'miracles'. Such examples are walking on water, or manifesting bread to feed the hungry party. These books have remained consistently popular with spiritual seekers, those interested in the philosophy of the East and those who enjoy a good story because of their accessible nature and easy-to-follow format. However, despite most of the action taking place in India, the Great Masters make it clear that the greatest

embodiment of the Enlightened state is that of the Christ (as personified by Jesus): "The Masters accept that Buddha represents the Way to Enlightenment, but they clearly set forth that Christ IS Enlightenment, or a state of consciousness for which we are all seeking - the Christ light of every individual; therefore, the light of every child born into the world."

In 1633, at age eleven, Bankei Yotaku was banished from his family's home because of his consuming engagement with the Confucian texts that all schoolboys were required to copy and recite. Using a hut in the nearby hills, he wrote the word Shugyo-an, or "practice hermitage," on a plank of wood, propped it up beside the entrance, and settled down to devote himself to his own clarification of "bright virtue." He finally turned to Zen and, after fourteen years of incredible hardship, achieved a

decisive enlightenment, whereupon the Rinzai priest traveled unceasingly to the temples and monasteries of Japan, sharing what he'd learned. "What I teach in these talks of mine is the Unborn Buddha-mind of illuminative wisdom, nothing else. Everyone is endowed with this Buddha-mind, only they don't know it." Casting aside the traditional aristocratic style of his contemporaries, he offered his teachings in the common language of the people. His style recalls the genius and simplicity of the great Chinese Zen masters of the T'ang dynasty. This revised and expanded edition contains many talks and dialogues not included in the original 1984 volume.

realize Who He Was! After His resurrection, his followers made a religion ABOUT him instead of revealing the religion OF Him, most of which became lost in time. Thus has the so-called Christian church become the cocoon in which the kingdom of Jesus' concept now slumbers. The kingdom of the divine brotherhood is still alive and will eventually and certainly come forth from this long submergence, just as surely as the butterfly eventually emerges as the beautiful unfolding of its less attractive creature of metamorphic development.
