humanities, and the sciences. This new eleventh edition offers a new focus on reading and composing across various media; it includes over 100 selections from prominent thinkers and writers; each essay was chosen to provoke critical thought and encourage effective writing.

Addressing the continuing interest in core liberal arts issues, interdisciplinary themes, multicultural perspectives, and critical thinking, THE MCGRAW-HILL READER provides students with a full range of quality prose works spanning various ages, cultures, and subjects. The finely-tuned editorial apparatus encourages students to respond actively to the essays, to formulate their own critical judgments, and to develop in writing their reactions to and perspectives on the thematic concerns of the selections. The Seventh Edition features thirty-eight new essays that address current issues such as the quality of education, the role of technology, and the impact of media. The text concludes with a new appendix on writing a research paper.

Read, Reason, Write unites instruction in critical reading and analysis, argument, and research strategies with a rich collection of readings that provide both practice for these skills and new ideas and insights for readers. Through all of its years, this text has been committed to showing students how reading, analytic, argumentative, and research skills are interrelated and how these skills combine to develop each student's critical thinking ability.
