Find out what's going on any day of the year, anywhere across the globe! The world's datebook, Chase's is the definitive day-by-day resource of what America and the wider world are celebrating and commemorating. Founded in 1957 on a reputation for accuracy and comprehensiveness, this annual publication has become the must-have reference used by experts and professionals for more than fifty years. From celebrity birthdays to historical anniversaries, from astronomical phenomena to national awareness days, from award ceremonies and sporting events to religious festivals and carnivals, Chase's is the one-stop shop for everything that is happening now or is worth remembering from the past. The 2017 Edition of Chase's Calendar of Events brings you information about: The 500th anniversary of Martin Luther's Ninety-Five Theses The 150th anniversary of the Dominion of Canada The 100th anniversary of the Russian Revolution The 100th anniversary of splitting the atom The 50th anniversary of the Summer of Love Frank Lloyd Wright's 150th birth anniversary and much more!

If you live in USDA Zone 9b or higher -- this month-by-month planting calendar is for you -- use at your desk or hang on the wall. The Desert Southwest and Deep South are blessed with sunny days and mild winters with little or no frost, allowing for year-round growing of all things edible. It is about paying attention to not only heat, but soil temperatures and daylight hours. For example: Tomatoes and Basil are warm weather crops during those long sunny days, whereas Kale, lettuces and roots are cool weather crops for the short daylight hour times of the year. Grow vegetables, fruits, herbs and edible flowers with information on when to plant for optimal success, planting tips and maintenance guidance. YOU can garden 365 days a year, harvesting great food from your own backyard.

The present edition of Nature & Faune journal emphasizes the role of natural renewable resources within the framework of Africa's agricultural transformation. Central to the transformation agenda is achieving greater prosperity which can improve peoples' lives and livelihoods. These improvements of lives and livelihoods cover their economic well-being; their environment; socio-cultural and political sphere of influence. The conditions for modernizing Africa's agriculture entail transforming not only production processes but also the products. This issue of the Journal highlights the unique features of Africa's agriculture, including (i) the urgent need for improving productivity; (ii) the importance of the agricultural sector in Africa's economies in terms of employment; and (iii) the climate-resilient opportunities within agriculture to cope with climate change challenges. It draws attention to the fact that the agriculture sector offers possibilities for increased productivity while also adapting to and mitigating climate change thus safeguarding also future production.

What is 225 years old yet always of the moment? The Old Farmer's Almanac! America's oldest continuously published periodical, beloved by generations for being "useful, with a pleasant degree of humor," celebrates its unique history with a special edition and more readers than ever before! As the nation's iconic calendar, the 2017 edition will predict and mark notable events; glance back and look forward, with historic perspectives on food, people, and businesses; salute legendary customs and folklore; hail celestial events; explore, forage, and cultivate the natural world; forecast traditionally 80 percent-accurate weather; inspire giggles and perhaps romance; and more—too much more to mention—all in the inimitably useful and humorous way it has

done since 1792.

Kathryn “Kat” Jensen’s new audit consulting job quickly becomes extremely dangerous. Investigating a notorious drug trafficker’s bank accounts can lead to life-threatening complications! When Kat Jensen, an out-of-work internal auditor in New York City, joins Melville Consulting, a friend’s secretive consulting firm, she unravels the elaborate money-laundering scheme used by a notorious drug lord nicknamed El Rey, or The King. Based on her analysis, the banks freeze his accounts. Furious, El Rey storms their office, threatening to kill her boss. The drug czar gets arrested, but Kat is badly shaken and wants to quit. Except auditing jobs aren’t easy to find after she took a year off to go on an unusual bucket-list voyage, and now she is broke. Memories of Kat’s brother, who lost the battle against drug addiction, and the much-needed paycheck convince her to try again. But when Kat unexpectedly meets El Rey, her life is in danger, since now he wants revenge. PROJECT ONION features an unexpectedly resilient businesswoman who decides to fight back. This suspense novel blends crime, time travel, and romance with multiple twists and turns. What book reviewers are saying: “Following the typical format of crime fiction, Stensgaard delivers an entertaining set-up to her series. Kat’s motivations for joining the Melville Consulting team are clear and her emotions are apparent and relatable.” - The BookLife Prize, part of Publishers Weekly “Project Onion by Karen Stensgaard is an engrossing read, packed with suspense, a little romance, and even some time travel for good measure. It has a very strong female lead, plenty of action, and no small amount of stunning twists and turns that will leave you dizzy. The main character is the kind of woman that others might dream of being - a sophisticated, smart decision-maker who isn't afraid to stare danger in the face and the thrilling plot marks the start of what looks to be a great new series. I thoroughly enjoyed reading this and am looking forward to more of Kat Jenson's adventures.” - 5 Star Review by Anne-Marie Reynolds for Readers' Favorite “A riveting, impossible-to-put-down novel... Stensgaard kicks start her The Melville Consulting Series with this very clever, unpredictable genre mash-up tale. Stensgaard’s shrewd observations about a woman struggling to gather her courage in the face of unexpectedly trying circumstances register beautifully. The pacing is fast and tension stays high with relentless suspense in the back. This action-packed time-travel thriller delivers on its promising concept.” - The Prairies Book Review “An incredible story from a great storyteller with realistic and elaborately developed characters, Project Onion is a spellbinding opening that will create a lot of anticipation in readers as they wait for the next installment in the series. The narrative is enriched by the beautiful prose and Karen Stensgaard's deft creation in setting and atmosphere.” - 5 Star Review by Romuald Dzemo for Readers' Favorite “This book is one of a kind ... The drama and romance set among the mystery make it an even more intriguing read and keeps you hooked and invested in the plot. I would love to read more such work or even more about these same characters. Kudos to the author for coming up with this story, and I hope the upcoming ones are just as great!” - 5 Star Review from Instagram Book Blogger read.with.emilee

Tin House 74: Winter Reading offers the best of both New Voices and established favorites in fiction, nonfiction, and poetry. Featuring fiction, nonfiction, and poetry from established writers and new voices, Issue 74 will keep you warm on a cold night.

Historical ecology is a research framework which draws upon diverse evidence to trace complex, long-term relationships between humanity and Earth.

With roots in anthropology, archaeology, ecology and paleoecology, geography, and landscape and heritage management, historical ecology applies a practical and holistic perspective to the study of change. Furthermore, it plays an important role in both fundamental research and in developing future strategies for integrated, equitable landscape management. The framework presented in this volume covers critical issues, including: practicing transdisciplinarity, the need for understanding interactions between human societies and ecosystem processes, the future of regions and the role of history and memory in a changing world. Including many examples of co-developed research, *Issues and Concepts in Historical Ecology* provides a platform for collaboration across disciplines and aims to equip researchers, policy-makers, funders, and communities to make decisions that can help to construct an inclusive and resilient future for humanity.
