Guide to Effective Grant Writing: How to Write a Successful NIH Grant is written to help the 100,000+ post-graduate students and professionals who need to write effective proposals for grants. There is little or no formal teaching about the process of writing grants for NIH, and many grant applications are rejected due to poor writing and weak formulation of ideas. Procuring grant funding is the central key to survival for any academic researcher in the biological sciences; thus, being able to write a proposal that effectively illustrates one's ideas is essential. Covering all aspects of the proposal process, from the most basic questions about form and style to the task of seeking funding, this volume offers clear advice backed up with excellent examples. Included are a number of specimen proposals to help shed light on the important issues surrounding the writing of proposals. The Guide is a clear, straight-forward, and reader-friendly tool. Guide to Effective Grant Writing: How to Write a Successful NIH Grant Writing is based on Dr. Yang's extensive experience serving on NIH grant review panels; it covers the common mistakes and problems he routinely witnesses while reviewing grants.

' The Grant Writer's Handbook: How to Write a Research Proposal and Succeed provides useful and practical advice on all aspects of proposal writing, including developing proposal ideas, drafting the proposal, dealing with referees, and budgeting. The authors base their advice on many years of experience writing and reviewing proposals in many different countries at various levels of scientific maturity. The book describes the numerous kinds of awards available from funding agencies, in particular large collaborative grants involving a number of investigators, and addresses the practical impact of a grant, which is often required of proposals. In addition, information is provided about selection of reviewers and the mechanics of research grant competition to give the proposal writer the necessary background information. The book includes key comments from a number of experts and is essential reading for anyone writing a research grant proposal. It is easy to read with a good "pace" of information per paragraph. Lots of insider insights ... well done ... It is a very good book." Professor Frank Gannon Queensland Institute of Molecular Research (QIMR) Berghofer, Australia "This book is very useful not only for young scientists but also established or experienced scientists; also for funding agency staff, science politicians, university officers, even reviewers ... his may be a bible for fund writing. It is really a marvelous book." Professor Yukihiko Osaki Kansei Gakuin University, Japan & winner of the 2014 Bomem-Michelson Award "The book is truly unique; perfect for a novice researcher who has to find his way through a maze to finally achieve funding for his laboratory, and perfect for the experienced researcher who gets involved in a large collaboration." Professor Charles Glashauser Rutgers University "Especially insightful, chapter 7 will be particularly helpful to writers of large, collaborative grants that require proof of socio-economic impact. Crawley and O'Sullivan include a list of resources in the Appendix to direct the reader to many sources of useful information. This list and the helpful advice in the book should help any reader write a better grant application."
