and MLB players than any other high school. Alumni include household names like Billie Jean King, Snoop Dogg and Cameron Diaz. But before it was named the top athletic high school in America by Sports Illustrated, before it boasted nationally acclaimed academic magnet programs, Long Beach Poly had to overcome an extraordinary set of challenges. From a devastating earthquake that destroyed the original campus to racial tensions that rocked the school, Poly has persevered and excelled. Since its founding in 1895, Poly has been intrinsically woven into the fabric of the Long Beach community, affectionately known as the "Home of Scholars and Champions." Mike Guardabascio and Tyler Hendrickson tell the story of how a school rose from the ashes to become a powerhouse.

"A bold and deeply researched biography of a complicated cultural icon When Helen Gurley Brown published *Sex and the Single Girl* in 1962, it sold more than two million copies in just three weeks, presaging the self-help boom and helping to usher in the unapologetic self-affirmation of second wave feminism. Brown declared that it was okay, even imperative, to enjoy sex outside of marriage; that equal rights for women should extend to the bedroom; that meaningful work outside the home was essential for a woman's security and self-esteem. The book catapulted Brown into national renown, cementing her status as a complex and divisive feminist personality. And the ripple effects of her outspokenness about sex and her emphasis on friendships between women can still be seen today, on TV shows like *Sex and the City* and *Girls*, and in the magazine world

as well. When she died in 2012, her obituary appeared on the front page of The New York Times, which noted that "the look of women's magazines today. is due in no small part to her influence." She may not always have been loved--but she was always talked about. Brown's life story--a classic American rags-to-riches tale--is just as juicy as her controversial books. In this wonderful new biography, the writer and reporter Gerri Hirshey traces Brown's path from deep in the Arkansas Ozarks to her wild single years in Los Angeles, from the New York magazine world to her Hollywood adventures with her film producer husband. Along the way she became the highest-paid female ad copywriter on the West Coast, and transformed Hearst's failing literary magazine, Cosmopolitan, into the female-oriented global juggernaut it is today. Full of firsthand accounts of Brown from some

Association (PTA). Created in 1888 within Britain's first Polytechnic, the PTA was an emblem of the era. It served a growing mass of middle-class and lower middle-class consumers, who found for the first time that they had the time and money to take extended holidays, often abroad. This book explains the creation of the Polytechnic and the PTA, charting the expansion of the travel agency into continental Europe and beyond.

“Victorians and Edwardians abroad” uncovers the recollections of those who went on “Poly holidays” before 1914: how they experienced the journeys, what they did when they reached their destinations and what they thought holidays should be about. For all the serious strictures from their social “betters” about the educational and “improving” aspects of travel, PTA holiday makers enjoyed themselves: liberating pork pies from train carriages,

annoying foreign policemen and even beating the German Emperor to the last horses in town. Letters, articles and diaries of Poly holidays reveal a penchant for fun, even naughtiness, not often associated with the Victorians and Edwardians. Also included are a selection of postcards, photographs and promotional items from the PTA archives. Victorians and Edwardians abroad is a fascinating glimpse into holidays as they were, just over a hundred years ago.
