"Michael Latham's The Right Kind of Revolution will for the foreseeable future be the textbook synthesis on the impact of ideas of modernization on American foreign affairs during the twentieth century.... It toggles artfully between discussions of U.S. foreign policy in the Global South, how ideas of modernization were used both to understand and to guide those policies, and how these policies and ideas were received by political elites in target countries."

The new standard work on American modernization and development policies, it has much to teach scholars and graduate students while still being suitable for use in undergraduate courses..

After World War II, a powerful conviction took hold among American intellectuals and policymakers: that the United States could profoundly accelerate and ultimately direct the development of the decolonizing world, serving as a modernizing force around the globe. By accelerating economic growth, promoting agricultural expansion, and encouraging the rise of enlightened elites, they hoped to link development with security, preventing revolutions and rapidly creating liberal, capitalist states. In The Right Kind of Revolution, Michael E. Latham explores the role of modernization and development in U.S. foreign policy from the early Cold War through the present. The modernization project rarely went as its architects anticipated. Nationalist leaders in postcolonial states such as India, Ghana, and Egypt pursued their own independent visions of development. Attempts to promote technological solutions to development problems also created unintended consequences by increasing inequality, damaging the environment, and supporting coercive social policies. In countries such as Guatemala, South Vietnam, and Iran, U.S. officials and policymakers turned to modernization as a means of counterinsurgency and control, ultimately shoring up dictatorial regimes and exacerbating the very revolutionary dangers they wished to resolve. Those failures contributed to a growing challenge to modernization theory in the late 1960s and 1970s. Since the end of the Cold War the faith in modernization as a panacea has reemerged. The idea of a global New Deal, however, has been replaced by a neoliberal emphasis on the power of markets to shape developing nations in benevolent ways. U.S. policymakers have continued to insist that history has a clear, universal direction, but events in Iraq and Afghanistan give the lie to modernization's false hopes and appealing promises.

Newly updated: The bestseller "that could bring the human race a little closer to rescuing itself" from the subject of the film The Two Glorias (Naomi Wolf). Without self-esteem, the only change is an exchange of masters; with it, there is no need for masters. When trying to find books to give to "the countless brave and smart women I met who didn't think of themselves as either brave or smart," Steinem realized that books either supposed that external political change would cure everything or that internal change would. None linked internal and external change together in a seamless circle of cause and effect, effect and cause. She undertook to write such a book, and ended up transforming her life, as well as the lives of others. The result of her reflections is this truly transformative book: part personal collection of stories from her own life and the lives of many others, part revolutionary guide to finding community and inspiration. Steinem finds role models in a very young and uncertain Gandhi as well as unlikely heroes from the streets to history. Revolution from Within addresses the core issues of self-authority and unjust external authority, and argues that the first is necessary to transform the second. This ebook features an illustrated biography of Gloria Steinem including rare images from the author's personal collection, as well as a new preface and list of book recommendations from Steinem.

When the Women's March gathered millions just one day after Trump's inauguration, a new era of progressive action was born. Organizing on the far Right led to Trump's election, bringing authoritarianism and the specter of neo-fascism, and intensifying corporate capitalism's growing crises of inequality and injustices. Yet now we see a new universalizing resistance among progressive and left movements for truth, dignity, and a world based on democracy, equality, and sustainability. Derber ?offers the first comprehensive guide to this new era and an original vision and strategy for movement success. He convincingly shows how only a new ?universalizing? wave, a ?progressive? and revolutionary "movement of movements," can counter the world-universalizing economic and cultural forces of intensifying corporate and far-right power. Derber explores the crises and eroding legitimacy of the globalized? capitalist system ?and the right wing movements? that helped create the Trump era??. He shows? how? left universalizing movements can--and must--converge ? to propel a? mass base that can prevent societal, economic, or ecological collapse, stop a resurgent Right, and build a democratic social alternative. He describes tactics and strategies for ?this?new progressive movement. Brief guest "interludes" by Medea Benjamin, Noam Chomsky, Ralph Nader, Bill Fletcher, Juliet Schor, Gar Alperovitz, Chuck Collins, Matt Nelson, Janet Wallace, and other prominent figures tell how to coalesce and universalize activism into a more powerful movement wave—at local, community, national, and international levels. Vivid and highly accessible, this? book is for activists, students, and all ?citizens concerned about the erosion of justice and democracy. It thoroughly illuminates the rationale, theory, practice, ?humanism, love, ?and joy of ?the? ?social transformation that we urgently need.

Describes two seasons of football with the East St. Louis Flyers high school football team, and looks at how their coach, Bob Shannon, instills the values of determination and hard work

In this Second Edition of this radical social history of America from Columbus to the present, Howard Zinn includes substantial coverage of the Carter, Reagan and Bush years and an Afterword on the Clinton presidency. Its commitment and vigorous style mean it will be compelling reading for undergraduate and post-graduate students and scholars in American social history and American studies, as well as the general reader.

The bestselling author of In the Heart of the Sea, Mayflower, and In the Hurricane's Eye tells the story of the Boston battle that ignited the American Revolution, in this "masterpiece of narrative and perspective." (Boston Globe) In the opening volume of his acclaimed American Revolution series, Nathaniel Philbrick turns his keen eye to pre-Revolutionary Boston and the spark that ignited the American Revolution. In the aftermath of the Boston Tea Party and the violence at Lexington and Concord, the conflict escalated and skirmishes gave way to outright war in the Battle of Bunker Hill. It was the bloodiest conflict of the revolutionary war, and the point of no return for the rebellious colonists. Philbrick gives us a fresh view of the story and its dynamic personalities, including John Adams, Samuel Adams, John Hancock, Paul Revere, and George Washington. With passion and insight, he reconstructs the revolutionary landscape—geographic and ideological—in a mesmerizing narrative of the robust, messy, blisteringly real origins of America.

From the mega-bestselling author of White Oleander and Paint It Black, a sweeping historical saga of the Russian Revolution, as seen through the eyes of one young woman St. Petersburg, New Year's Eve, 1916. Marina Makarova is a young woman of privilege who aches to break free of the constraints of her genteel life, a life about to be violently upended by the vast forces of history. Swept up on these tides, Marina will join the marches for workers' rights, fall in love with a radical young poet, and betray everything she holds dear, before being betrayed in turn. As her country goes through almost unimaginable upheaval, Marina's own coming-of-age unfolds, marked by deep passion and devastating loss, and the private heroism of an ordinary woman living through extraordinary times. This is the epic, mesmerizing story of one indomitable woman's journey through some of the most dramatic events of the last century.

Winner of the Barbara and David Zalaznick Book Prize in American History Winner of the Excellence in American History Book Award Winner of the Fraunces Tavern Museum Book Award From the bestselling author of the Liberation Trilogy comes the extraordinary first volume of his new trilogy about the American Revolution Rick Atkinson, author of the Pulitzer Prize-winning An Army at Dawn and two other superb books about World War II, has long been admired for his deeply researched, stunningly vivid narrative histories. Now he turns his attention to a new war, and in the initial volume of the Revolution Trilogy he recounts the first twenty-one months of America's violent war for independence. From the battles at Lexington and Concord in spring 1775 to those at Trenton and Princeton in winter 1777, American militiamen and then the ragged Continental Army take on the world's most formidable fighting force. It is a gripping saga alive with astonishing characters: Henry Knox, the former bookseller with an uncanny understanding of artillery; Nathanael Greene, the blue-eyed bumpkin who becomes a brilliant battle captain; Benjamin Franklin, the self-made man who proves to be the wiliest of diplomats; George Washington, the commander in chief who learns the difficult art of leadership when the war seems all but lost. The story is also told from the British perspective, making the mortal conflict between the redcoats and the rebels all the more compelling. Full of riveting details and untold stories, The British Are Coming is a tale of heroes and knaves, of sacrifice and blunder, of redemption and profound suffering. Rick Atkinson has given stirring new life to the first act of our country's creation drama.
